2.139.19 template lid

Create an Lid

lid Specification

Parameter	Value
Type	*Collection*
Object Key(s)	*lid-number*
Collection Name	*lid-list*
Collection URI	/axapi/v3/template/lid
Element Name	lid
Element URI	/axapi/v3/template/lid/{lid-number}
Element Attributes	lid_attributes
Partition Visibility	shared
Schema	`lid schema`

Operations Allowed:

Create Object

POST

/axapi/v3/template/lid

lid attributes

```
POST /axapi/v3/template/lid/
Payload:
{
    "lid": {
        "lid-number": 1,
        "user-tag": "a"
    }
}
```

Create List

POST

/axapi/v3/template/lid

lid attributes

Get Object

GET

/axapi/v3/template/lid/{lid-number}

lid attributes

```
GET /axapi/v3/template/lid/1
Reponse:
{
    "lid": {
        "lid-number": 1,
        "respond-to-user-mac": 0,
        "uuid": "1ca7f130-b6ea-11ef-8f5a-ae71681635d0",
        "user-tag": "a",
        "a10-url": "/axapi/v3/template/lid/1"
    }
}
```

Get List

GET

/axapi/v3/template/lid

lid-list

Modify Object

POST

/axapi/v3/template/lid/{lid-number}

lid attributes

Replace Object

PUT

/axapi/v3/template/lid/{lid-number}

lid attributes

```
PUT /axapi/v3/template/lid/1
Payload:
{
    "lid": {
        "lid-number": 1,
        "user-tag": "abcd"
    }
}
```

Replace List

PUT

/axapi/v3/template/lid

lid-list

Delete Object

DELETE

/axapi/v3/template/lid/{lid-number}

lid attributes

```
DELETE /axapi/v3/template/lid/1
Reponse:
{
    "response": {
        "http-status": 200,
        "status": "OK",
        "msg": "Success"
    }
}
```

lid-list

lid-list is **JSON List** of *lid attributes*

lid-list : [

{ *lid attributes* },

{ *lid attributes* },

...

]

lid attributes

ddos-protection-factor

Description Enable DDoS Protection (Multiplier of the downlink PPS)

Type: number

Range: 1-50

downlink-pps

Description Downlink PPS limit (Number of Packets per second)

Type: number

Range: 1-2147483647

downlink-throughput

Description Downlink Throughput limit (Mega Bits per second)

Type: number

Range: 1-100000

lid-number

Description Lid Number

Type: number

Range: 1-1023

limit-cps

Description Enable Connections Per Second Rate Limit (Number of Connections per second)

Type: number

Range: 1-2147483647

limit-rate

Description 'limit-pps': Enable Packets Per Second Rate Limit; 'limit-throughput': Enable Throughput Rate Limit;

Type: string

Supported Values: limit-pps, limit-throughput

respond-to-user-mac

Description Use the user's source MAC for the next hop rather than the routing table (default:off)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src-ip

Description: src-ip is a **JSON Block**. Please see below for *src-ip*

Type: Object

total-pps

Description Total PPS limit (Number of Packets per second)

Type: number

Range: 1-2147483647

total-throughput

Description Total Throughput limit (Mega Bits per second)

Type: number

Range: 1-100000

uplink-pps

Description Uplink PPS limit (Number of Packets per second)

Type: number

Range: 1-2147483647

uplink-throughput

Description Uplink Throughput limit (Mega Bits per second)

Type: number

Range: 1-100000

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

src-ip

Specification	Value
Type	*object*

burstsize-cps

Description CPS Token Bucket Size (Must Exceed Configured Rate) (In Connections per second)

Type: number

Range: 1-2147483647

burstsize-downlink-pps

Description Downlink PPS Token Bucket Size (Must Exceed Configured Rate) (In Packets)

Type: number

Range: 1-2147483647

burstsize-downlink-throughput

Description Downlink Throughput Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-100000

burstsize-total-pps

Description Total PPS Token Bucket Size (Must Exceed Configured Rate) (In Packets)

Type: number

Range: 1-2147483647

burstsize-total-throughput

Description Total Throughput Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-100000

burstsize-uplink-pps

Description Uplink PPS Token Bucket Size (Must Exceed Configured Rate) (In Packets)

Type: number

Range: 1-2147483647

burstsize-uplink-throughput

Description Uplink Throughput Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-100000

concurrent-sessions

Description Concurrent Session Limit per Source IP Address (Number of Concurrent Sessions)

Type: number

Range: 1-2147483647

log

Description Log when Session Limit is exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

prefix-length

Description Source prefix length

Type: number

Range: 1-128

limit-policy-list

limit-policy-list is **JSON List** of *limit-policy attributes*

limit-policy-list : [

{ *limit-policy attributes* },

{ *limit-policy attributes* },

...

]

limit-policy attributes

attribute

Description 'usergroup': To apply rate-limit at the level of user group.; 'userid': To apply rate-limit at the level of user ID.;

Type: string

Supported Values: usergroup, userid

limit-concurrent-sessions

Description Enable Concurrent Session Limit (Number of Concurrent Sessions)

Type: number

Range: 1-2147483647

limit-cps

Description: limit-cps is a **JSON Block**. Please see below for *limit-cps*

Type: Object

Reference Object: */axapi/v3/template/limit-policy/{policy-number}/limit-cps*

limit-pps

Description: limit-pps is a **JSON Block**. Please see below for *limit-pps*

Type: Object

Reference Object: */axapi/v3/template/limit-policy/{policy-number}/limit-pps*

limit-scope

Description 'aggregate': Rule Level; 'subscriber-ip': Subscriber IP Level; 'subscriber-prefix': Subscriber Prefix Level;

Type: string

Supported Values: aggregate, subscriber-ip, subscriber-prefix, radius

Default: subscriber-ip

limit-throughput

Description: limit-throughput is a **JSON Block**. Please see below for *limit-throughput*

Type: Object

Reference Object: */axapi/v3/template/limit-policy/{policy-number}/limit-throughput*

log

Description Log when Session Limit is exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

max-min-fair

Description Enable max-min-fairness

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parent

Description Specify the parent of limit-policy

Type: number

Range: 1-1023

policy-number

Description Limit Policy Number

Type: number

Range: 1-1023

prefix-length

Description Prefix length

Type: number

Range: 1-128

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

limit-throughput

Specification	Value
Type	*object*

downlink

Description Downlink Throughput limit (Mega Bits per second)

Type: number

Range: 1-1000000

downlink-burstsize

Description Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-1000000

downlink-burstsize-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps,

downlink-relaxed

Description Relax the limitation when the policy has more tokens from the parent of policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

downlink-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps

total

Description Total Throughput limit (Mega Bits per second)

Type: number

Range: 1-1000000

total-burstsize

Description Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-1000000

total-burstsize-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps,

total-relaxed

Description Relax the limitation when the policy has more tokens from the parent of policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps,

uplink

Description Uplink Throughput limit (Mega Bits per second)

Type: number

Range: 1-1000000

uplink-burstsize

Description Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-1000000

uplink-burstsize-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps,

uplink-relaxed

Description Relax the limitation when the policy has more tokens from the parent of policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uplink-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

limit-cps

Specification	Value
Type	*object*

burstsize

Description CPS Token Bucket Size (Must Exceed Configured Rate) (In Connections per second)

Type: number

Range: 1-2147483647

relaxed

Description Relax the limitation when the policy has more tokens from the parent of policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Default: 0

downlink-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps

total

Description Total Throughput limit (Mega Bits per second)

Type: number

Range: 1-1000000

total-burstsize

Description Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-1000000

total-burstsize-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps,

total-relaxed

Description Relax the limitation when the policy has more tokens from the parent of policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps,

uplink

Description Uplink Throughput limit (Mega Bits per second)

Type: number

Range: 1-1000000

uplink-burstsize

Description Token Bucket Size (Must Exceed Configured Rate) (In Mega Bits per second)

Type: number

Range: 1-1000000

uplink-burstsize-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps,

uplink-relaxed

Description Relax the limitation when the policy has more tokens from the parent of policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uplink-unit

Description 'Mbps': default; 'Kbps': minimum configurable limit is 100 Kbps; 'Gbps': maximum configurable limit is 10000 Gbps;

Type: string

Supported Values: Mbps, Kbps, Gbps

Default: Mbps

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.139.24 template sctp

Define a SCTP template

sctp Specification

Parameter	Value
Type	*Collection*
Object Key(s)	*name*
Collection Name	*sctp-list*
Collection URI	/axapi/v3/template/sctp
Element Name	sctp
Element URI	/axapi/v3/template/sctp/{name}
Element Attributes	sctp_attributes
Partition Visibility	shared
Schema	`sctp schema`

Operations Allowed:

Create Object

POST

/axapi/v3/template/sctp

sctp attributes

```
POST /axapi/v3/template/sctp/
Payload:
{
    "sctp": {
        "name": "a",
        "user-tag": "a"
    }
}
```

Create List

POST

/axapi/v3/template/sctp

sctp attributes

Get Object

GET

/axapi/v3/template/sctp/{name}

sctp attributes

```
GET /axapi/v3/template/sctp/a
Reponse:
{
    "sctp": {
        "name": "a",
        "sctp-half-open-idle-timeout": 4,
        "sctp-idle-timeout": 5,
        "log": {
            "payload-proto-filtering": 0
        },
        "uuid": "8d56b14a-b6eb-11ef-8f5a-ae71681635d0",
        "user-tag": "a",
        "a10-url": "/axapi/v3/template/sctp/a"
    }
}
```

Get List

GET

/axapi/v3/template/sctp

sctp-list

Modify Object

POST

/axapi/v3/template/sctp/{name}

sctp attributes

Replace Object

PUT

/axapi/v3/template/sctp/{name}

sctp attributes

```
PUT /axapi/v3/template/sctp/a
Payload:
{
    "sctp": {
```

(continues on next page)

(continued from previous page)

```
        "name": "a",
        "user-tag": "abcd"
    }
}
```

Replace List

PUT

/axapi/v3/template/sctp

sctp-list

Delete Object

DELETE

/axapi/v3/template/sctp/{name}

sctp attributes

```
DELETE /axapi/v3/template/sctp/a
Reponse:
{
    "response": {
        "http-status": 200,
        "status": "OK",
        "msg": "Success"
    }
}
```

sctp-list

sctp-list is **JSON List** of *sctp attributes*

sctp-list : [

{ *sctp attributes* },

{ *sctp attributes* },

...

]

sctp attributes

checksum-check

Description 'enable': Enable Checksum check;

Type: string

Supported Values: enable

log

Description: log is a **JSON Block**. Please see below for *log*

Type: Object

name

Description SCTP Template Name

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Default: default

permit-payload-protocol

Description: permit-payload-protocol is a **JSON Block**. Please see below for *permit-payload-protocol*

Type: Object

sctp-half-open-idle-timeout

Description Set SCTP half-open timeout (SCTP half-open timeout in seconds (default 4))

Type: number

Range: 2-30

Default: 4

sctp-idle-timeout

Description SCTP idle timeout in minutes (default 5)

Type: number

Range: 1-63

Default: 5

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

log

Specification	Value
Type	*object*

payload-proto-filtering

Description Log Payload Protocol IDs Filtered

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

permit-payload-protocol

Specification	Value
Type	*object*

permit-config-id

Type: List

permit-config-name

Type: List

permit-payload-protocol_permit-config-id

Specification	Value
Type	*list*
Block object keys	

protocol-id

Description Specify SCTP permitted payload protocol IDs

Type: number

Range: 1-63

permit-payload-protocol_permit-config-name

Specification	Value
Type	*list*
Block object keys	

protocol-name

Description 'iua': IUA; 'm2ua': M2UA; 'm3ua': M3UA; 'sua': SUA; 'm2pa': M2PA; 'h.323': H.323;

Type: string

Supported Values: iua, m2ua, m3ua, sua, m2pa, h.323

2.139.25 template syslog-over-tls

Define a syslog over TLS template

syslog-over-tls Specification

Parameter	Value
Type	*Configuration Resource*
Element Name	syslog-over-tls
Element URI	/axapi/v3/template/syslog-over-tls
Element Attributes	syslog-over-tls_attributes
Partition Visibility	shared
Schema	`syslog-over-tls schema`

Operations Allowed:

Create Object

POST

/axapi/v3/template/syslog-over-tls

syslog-over-tls attributes

Get Object

GET

/axapi/v3/template/syslog-over-tls

syslog-over-tls attributes

Modify Object

POST

/axapi/v3/template/syslog-over-tls

syslog-over-tls attributes

Replace Object

PUT

/axapi/v3/template/syslog-over-tls

syslog-over-tls attributes

Delete Object

DELETE

/axapi/v3/template/syslog-over-tls

syslog-over-tls attributes

syslog-over-tls attributes

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.140 terminal

Objects:

2.140.1 terminal

Set Terminal Startup Parameters

terminal Specification

Parameter	Value
Type	*Configuration Resource*
Element Name	terminal
Element URI	/axapi/v3/terminal
Element Attributes	terminal_attributes
Partition Visibility	shared
Schema	`terminal schema`

Operations Allowed:

Create Object

POST

/axapi/v3/terminal

terminal attributes

```
POST /axapi/v3/terminal
Payload:
{
    "terminal": {
        "auto-size": 1
    }
}
```

Get Object

GET

/axapi/v3/terminal

terminal attributes

```
GET /axapi/v3/terminal
Reponse:
{
    "terminal": {
        "auto-size": 0,
        "editing": 1,
        "gslb-cfg": {
            "gslb-prompt": 0
        },
        "history-cfg": {
            "enable": 1,
            "size": 256
        },
        "idle-timeout": 0,
        "length": 0,
        "prompt-cfg": {
            "prompt": 0
        },
        "width": 0,
        "uuid": "898e6a3e-b6a6-11ef-b71b-ae71681635d0",
        "a10-url": "/axapi/v3/terminal"
    }
}
```

Modify Object

POST

/axapi/v3/terminal

terminal attributes

Replace Object

PUT

/axapi/v3/terminal

terminal attributes

Delete Object

DELETE

/axapi/v3/terminal

terminal attributes

terminal attributes

auto-size

Description Enable terminal length and width automatically (not work if width or length set to 0)

Type: boolean

Supported Values: true, false, 1, 0

Default: 1

Mutual Exclusion: auto-size, length, and width are mutually exclusive

editing

Description Enable command line editing

Type: boolean

Supported Values: true, false, 1, 0

Default: 1

gslb-cfg

Description: gslb-cfg is a **JSON Block**. Please see below for *gslb-cfg*

Type: Object

history-cfg

Description: history-cfg is a **JSON Block**. Please see below for *history-cfg*

Type: Object

idle-timeout

Description Set interval for closing connection when there is no input detected (Timeout in minutes, 0 means never timeout, default is 15)

Type: number

Range: 0-60

Default: 15

length

Description Set number of lines on a screen(0 for no pausing) (Number of lines on screen, 0 for no pausing, default is 24)

Type: number

Range: 0-512

Default: 24

Mutual Exclusion: length and auto-size are mutually exclusive

prompt-cfg

Description: prompt-cfg is a **JSON Block**. Please see below for *prompt-cfg*

Type: Object

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

width

Description Set width of the display terminal (Number of characters on a screen line, 0 means infinite, default is 80)

Type: number

Range: 0-512

Default: 80

Mutual Exclusion: width and auto-size are mutually exclusive

gslb-cfg

Specification	Value
Type	*object*

disable

Description Group status show disable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

group-role

Description Show GSLB group role on CLI prompt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gslb-prompt

Description The gslb status prompt function set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

symbol

Description Show “gslb” symbol on CLI prompt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

history-cfg

Specification	Value
Type	*object*

enable

Description Enable terminal history

Type: boolean

Supported Values: true, false, 1, 0

Default: 1

size

Description Set history buffer size (Size of history buffer, default is 256)

Type: number

Range: 0-1000

Default: 256

prompt-cfg

Specification	Value
Type	*object*

ha-status

Description Display HA status in prompt, eg. Active, Standby, ForcedStandby

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hostname

Description Display hostname in prompt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

prompt

Description Configure the normal prompt format

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

vcs-cfg

Description: vcs-cfg is a **JSON Block**. Please see below for *prompt-cfg_vcs-cfg*

Type: Object

prompt-cfg_vcs-cfg

Specification	Value
Type	*object*

vcs-status

Description Display VCS status in prompt, eg. vMaster, vBlade

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

2.141 tftp

Objects:

2.141.1 tftp

TFTP client configuration

tftp Specification

Parameter	Value
Type	*Configuration Resource*
Element Name	tftp
Element URI	/axapi/v3/tftp
Element Attributes	tftp_attributes
Partition Visibility	shared
Schema	`tftp schema`

Operations Allowed:

Create Object

POST

/axapi/v3/tftp

tftp attributes

```
POST /axapi/v3/tftp
Payload:
{
```

(continues on next page)

(continued from previous page)

    "response": {
        "http-status": 200,
        "status": "OK",
        "msg": "Success"
    }
}
```

tftp attributes

blksize

Description TFTP client block size value (Block size (Blksize/Max file size. Example: 1K/64M, 8K/512M, 32K/2048M),default is 32768)

Type: number

Range: 512-32768

Default: 32768

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.142 threat-intel

Objects:

2.142.1 threat-intel

Threat Intelligence module

threat-intel Specification

Parameter	Value
Type	*Intermediate Resource*

Description: webroot-ip-category is a **JSON Block**. Please see below for *webroot-ip-category*

Type: Object

Reference Object: */axapi/v3/threat-intel/webroot-ip-category*

webroot-log

Description: webroot-log is a **JSON Block**. Please see below for *webroot-log*

Type: Object

Reference Object: */axapi/v3/threat-intel/webroot-log*

threat-list-list

Specification	Value
Type	*list*
Block object keys	

all-categories

Description Enable all categories

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: all-categories,spam-sources, windows-exploits, web-attacks, botnets, scanners, dos-attacks, reputation, phishing, proxy, mobile-threats, and tor-proxy are mutually exclusive

botnets

Description Botnet C&C channels, and infected zombie machines controlled by Bot master

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: botnets and all-categories are mutually exclusive

dos-attacks

Description IP's participating in DOS, DDOS, anomalous sync flood, and anomalous traffic detection

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: dos-attacks and all-categories are mutually exclusive

mobile-threats

Description IP's associated with mobile threats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: mobile-threats and all-categories are mutually exclusive

name

Description Threat category List name

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

phishing

Description IP addresses hosting phishing sites, ad click fraud or gaming fraud

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: phishing and all-categories are mutually exclusive

proxy

Description IP addresses providing proxy services

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: proxy and all-categories are mutually exclusive

reputation

Description IP addresses currently known to be infected with malware

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: reputation and all-categories are mutually exclusive

sampling-enable

Type: List

scanners

Description IP's associated with probes, host scan, domain scan, and password brute force attack

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: scanners and all-categories are mutually exclusive

spam-sources

Description IP's tunneling spam messages through a proxy, anomalous SMTP activities, and forum spam activities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: spam-sources and all-categories are mutually exclusive

tor-proxy

Description IP's providing tor proxy services

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: tor-proxy and all-categories are mutually exclusive

type

Description 'webroot': Configure Webroot threat categories;

Type: string

Supported Values: webroot

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

web-attacks

Description IP's associated with cross site scripting, iFrame injection, SQL injection, cross domain injection, or domain password brute fo

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: web-attacks and all-categories are mutually exclusive

windows-exploits

Description IP's associated with malware, shell code, rootkits, worms or viruses

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: windows-exploits and all-categories are mutually exclusive

threat-list-list_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'spam-sources': Hits for spam sources; 'windows-exploits': Hits for windows exploits; 'web-attacks': Hits for web attacks; 'botnets': Hits for botnets; 'scanners': Hits for scanners; 'dos-attacks': Hits for dos attacks; 'reputation': Hits for reputation; 'phishing':

Hits for phishing; ‘proxy’: Hits for proxy; ‘mobile-threats’: Hits for mobile threats; ‘tor-proxy’: Hits for tor-proxy; ‘total-hits’: Total hits for threat-list;

Type: string

Supported Values: all, spam-sources, windows-exploits, web-attacks, botnets, scanners, dos-attacks, reputation, phishing, proxy, mobile-threats, tor-proxy, total-hits

webroot-log

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

webroot-global

Specification	Value
Type	*object*

sampling-enable

Type: List

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

webroot-global_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description ‘all’: all; ‘spam-sources’: Hits for spam sources; ‘windows-exploits’: Hits for windows exploits; ‘web-attacks’: Hits for web attacks; ‘botnets’: Hits for botnets; ‘scanners’: Hits for scanners; ‘dos-attacks’: Hits for dos attacks; ‘reputation’: Hits for reputation; ‘phishing’: Hits for phishing; ‘proxy’: Hits for proxy; ‘mobile-threats’: Hits for mobile threats; ‘tor-proxy’:

Hits for tor-proxy; 'rtu-lookup': Number of lookups in RTU cache; 'database-lookup': Number of lookups in database; 'non-malicious-ips': IP's not found in database or RTU cache;

Type: string

Supported Values: all, spam-sources, windows-exploits, web-attacks, botnets, scanners, dos-attacks, reputation, phishing, proxy, mobile-threats, tor-proxy, rtu-lookup, database-lookup, non-malicious-ips

webroot-database

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

threat-feed-list

Specification	Value
Type	*list*
Block object keys	

domain

Description Realm for NTLM authentication

Type: string

Maximum Length: 127 characters

Maximum Length: 1 characters

enable

Description Enable module

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

encrypted

Description Do NOT use this option manually. (This is an A10 reserved keyword.) (The ENCRYPTED secret string)

log-level

Description 'disable': Disable all logging; 'error': Log error events; 'warning': Log warning events and above; 'info': Log info events and above; 'debug': Log debug events and above; 'trace': enable all logs;

Type: string

Supported Values: disable, error, warning, info, debug, trace

Default: warning

port

Description Port to query server(default 443)

Type: number

Range: 1-65535

Default: 443

proxy-auth-type

Description 'ntlm': NTLM authentication(default); 'basic': Basic authentication;

Type: string

Supported Values: ntlm, basic

Default: ntlm

proxy-host

Description Proxy server hostname or IP address

Type: string

Maximum Length: 255 characters

Maximum Length: 1 characters

proxy-password

Description Password for proxy authentication

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

proxy-port

Description Port to connect on proxy server

Type: number

Range: 1-65535

proxy-username

Description Username for proxy authentication

Type: string

Maximum Length: 127 characters

Maximum Length: 1 characters

rtu-update-disable

Description Disables real time updates(default enable)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

secret-string

Description password value

Type: string

Format: password

Maximum Length: 127 characters

Maximum Length: 1 characters

server

Description Server IP or Hostname

Type: string

Maximum Length: 255 characters

Maximum Length: 1 characters

server-timeout

Description Server Timeout in seconds (default: 15s)

Type: number

Range: 1-30

Default: 15

type

Description 'webroot': Configure Webroot module options;

Type: string

Supported Values: webroot

update-interval

Description Interval to check for database or RTU updates(default 120 mins)

Type: number

Range: 10-14400

Default: 120

use-mgmt-port

Description Use management interface for all communication with threat-intel server

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

webroot-ip-category

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.142.2 threat-intel threat-feed

Configure vendor specific module control options

threat-feed Specification

threat-feed-list

threat-feed-list is **JSON List** of *threat-feed attributes*

threat-feed-list : [

{ *threat-feed attributes* },

{ *threat-feed attributes* },

...

]

threat-feed attributes

domain

Description Realm for NTLM authentication

Type: string

Maximum Length: 127 characters

Maximum Length: 1 characters

enable

Description Enable module

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

encrypted

Description Do NOT use this option manually. (This is an A10 reserved keyword.) (The ENCRYPTED secret string)

log-level

Description 'disable': Disable all logging; 'error': Log error events; 'warning': Log warning events and above; 'info': Log info events and above; 'debug': Log debug events and above; 'trace': enable all logs;

Type: string

Supported Values: disable, error, warning, info, debug, trace

Default: warning

port

Description Port to query server(default 443)

Type: number

Range: 1-65535

Default: 443

proxy-auth-type

Description 'ntlm': NTLM authentication(default); 'basic': Basic authentication;

Type: string

Supported Values: ntlm, basic

Default: ntlm

proxy-host

Description Proxy server hostname or IP address

Type: string

Maximum Length: 255 characters

Maximum Length: 1 characters

proxy-password

Description Password for proxy authentication

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

proxy-port

Description Port to connect on proxy server

Type: number

Range: 1-65535

proxy-username

Description Username for proxy authentication

Type: string

Maximum Length: 127 characters

Maximum Length: 1 characters

rtu-update-disable

Description Disables real time updates(default enable)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

secret-string

Description password value

Type: string

Format: password

Maximum Length: 127 characters

Maximum Length: 1 characters

server

Description Server IP or Hostname

Type: string

Maximum Length: 255 characters

Maximum Length: 1 characters

server-timeout

Description Server Timeout in seconds (default: 15s)

Type: number

Range: 1-30

Default: 15

type

Description 'webroot': Configure Webroot module options;

Type: string

Supported Values: webroot

update-interval

Description Interval to check for database or RTU updates(default 120 mins)

Type: number

Range: 10-14400

Default: 120

use-mgmt-port

Description Use management interface for all communication with threat-intel server

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

        "status": "OK",
        "msg": "Success"
    }
}
```

threat-list-list

threat-list-list is **JSON List** of *threat-list attributes*

threat-list-list : [

{ *threat-list attributes* },

{ *threat-list attributes* },

...

]

threat-list attributes

all-categories

Description Enable all categories

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: all-categories,spam-sources, windows-exploits, web-attacks, botnets, scanners, dos-attacks, reputation, phishing, proxy, mobile-threats, and tor-proxy are mutually exclusive

botnets

Description Botnet C&C channels, and infected zombie machines controlled by Bot master

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: botnets and all-categories are mutually exclusive

dos-attacks

Description IP's participating in DOS, DDOS, anomalous sync flood, and anomalous traffic detection

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: dos-attacks and all-categories are mutually exclusive

mobile-threats

Description IP's associated with mobile threats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: mobile-threats and all-categories are mutually exclusive

name

Description Threat category List name

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

phishing

Description IP addresses hosting phishing sites, ad click fraud or gaming fraud

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: phishing and all-categories are mutually exclusive

proxy

Description IP addresses providing proxy services

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: proxy and all-categories are mutually exclusive

reputation

Description IP addresses currently known to be infected with malware

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: reputation and all-categories are mutually exclusive

sampling-enable

Type: List

scanners

Description IP's associated with probes, host scan, domain scan, and password brute force attack

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: scanners and all-categories are mutually exclusive

spam-sources

Description IP's tunneling spam messages through a proxy, anomalous SMTP activities, and forum spam activities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: spam-sources and all-categories are mutually exclusive

tor-proxy

Description IP's providing tor proxy services

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: tor-proxy and all-categories are mutually exclusive

type

Description 'webroot': Configure Webroot threat categories;

Type: string

Supported Values: webroot

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

web-attacks

Description IP's associated with cross site scripting, iFrame injection, SQL injection, cross domain injection, or domain password brute fo

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: web-attacks and all-categories are mutually exclusive

windows-exploits

Description IP's associated with malware, shell code, rootkits, worms or viruses

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: windows-exploits and all-categories are mutually exclusive

sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'spam-sources': Hits for spam sources; 'windows-exploits': Hits for windows exploits; 'web-attacks': Hits for web attacks; 'botnets': Hits for botnets; 'scanners': Hits for scanners; 'dos-attacks': Hits for dos attacks; 'reputation': Hits for reputation; 'phishing': Hits for phishing; 'proxy': Hits for proxy; 'mobile-threats': Hits for mobile threats; 'tor-proxy': Hits for tor-proxy; 'total-hits': Total hits for threat-list;

Type: string

Supported Values: all, spam-sources, windows-exploits, web-attacks, botnets, scanners, dos-attacks, reputation, phishing, proxy, mobile-threats, tor-proxy, total-hits

app-list

Type: List

application-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: application-any,obj-grp-application, protocol, and protocol-tag are mutually exclusive

derived-attribute

Description 'usergroup': Match the value from the derived attribute of user group in the class-list.; 'userid': Match the value from the derived attribute of user ID in the class-list.;

Type: string

Supported Values: usergroup, userid

dest-list

Type: List

dst-class-list

Description Match destination IP against class-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-class-list,dst-ipv4-any, dst-ipv6-any, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

Reference Object: */axapi/v3/class-list*

dst-domain-list

Description Match destination IP against domain-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-domain-list, dst-ipv4-any, and dst-ipv6-any are mutually exclusive

Reference Object: */axapi/v3/domain-list*

dst-geoloc-list

Description Geolocation name list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-geoloc-list,dst-geoloc-name, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

dst-geoloc-list-shared

Description Use Geolocation list from shared partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst-geoloc-name

Description Single geolocation name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-geoloc-name,dst-geoloc-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

dst-ipv4-any

Description 'any': Any IPv4 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-ipv4-any,dst-ipv6-any, dst-class-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, dst-slb-vserver, and dst-domain-list are mutually exclusive

dst-ipv6-any

Description 'any': Any IPv6 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-ipv6-any,dst-ipv4-any, dst-class-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, dst-slb-vserver, and dst-domain-list are mutually exclusive

dst-zone

Description Zone name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-zone and dst-zone-any are mutually exclusive

Reference Object: */axapi/v3/zone*

dst-zone-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-zone-any and dst-zone are mutually exclusive

ip-version

Description 'v4': IPv4 rule; 'v6': IPv6 rule;

Type: string

Supported Values: v4, v6, any

Default: v4

move-rule

Description: move-rule is a **JSON Block**. Please see below for *rule-set-list_rule-list_move-rule*

Type: Object

Reference Object: */axapi/v3/traffic-control/rule-set/{name}/rule/{name}/move-rule*

name

Description Rule name

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

remark

Description Rule entry comment (Notes for this rule)

Type: string

Format: string-rlx

Maximum Length: 255 characters

Maximum Length: 1 characters

sampling-enable

Type: List

service-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: service-any,protocols, proto-id, obj-grp-service, icmp, and icmpv6 are mutually exclusive

service-list

Type: List

source-list

Type: List

src-class-list

Description Match source IP against class-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-class-list,src-ipv4-any, src-ipv6-any, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

Reference Object: */axapi/v3/class-list*

src-class-list-type

Description 'radius': Match the value of specified RADIUS attribute in the class-list.;

Type: string

Supported Values: radius

src-geoloc-list

Description Geolocation name list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-geoloc-list,src-geoloc-name, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-geoloc-list-shared

Description Use Geolocation list from shared partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src-geoloc-name

Description Single geolocation name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: src-geoloc-name,src-geoloc-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-ipv4-any

Description 'any': Any IPv4 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-ipv4-any,src-ipv6-any, src-class-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-ipv6-any

Description 'any': Any IPv6 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-ipv6-any,src-ipv4-any, src-class-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-zone

Description Zone name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Mutual Exclusion: src-zone and src-zone-any are mutually exclusive

Reference Object: */axapi/v3/zone*

src-zone-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-zone-any and src-zone are mutually exclusive

status

Description 'enable': Enable rule; 'disable': Disable rule;

Type: string

Supported Values: enable, disable

Default: enable

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

rule-set-list_rule-list_app-list

Specification	Value
Type	*list*
Block object keys	

obj-grp-application

Description Application object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: obj-grp-application and application-any are mutually exclusive

Reference Object: */axapi/v3/object-group/application*

protocol

Description Specify application(s)

Type: string

Format: string-rlx

Maximum Length: 31 characters

Maximum Length: 1 characters

Mutual Exclusion: protocol and application-any are mutually exclusive

protocol-tag

Description 'aaa': Protocol/application used for AAA (Authentification, Authorization and Accounting) purposes.; 'adult-content': Adult content protocol/application.; 'advertising': Advertising networks and applications.; 'application-enforcing-tls': Application known to enforce HSTS and thus use of TLS.; 'analytics-and-statistics': User analytics and statistics protocol/application.; 'anonymizers-and-proxies': Traffic-anonymization protocol/application.; 'audio-chat': Protocol/application used for Audio Chat.; 'basic': Covers all protocols required for basic classification, including most networking protocols as well as standard protocols like HTTP.; 'blog': Blogging platform protocol/application.; 'cdn': Protocol/application used for Content-Delivery Networks.; 'certification-authority': Certification Authority for SSL/TLS certificate.; 'chat': Protocol/application used for Text Chat.; 'classified-ads': Protocol/application used for Classified Advertisements.; 'cloud-based-services': SaaS and/or PaaS cloud based services.; 'crowdfunding': Service for funding a project or venture by raising small amounts of money from a large number of people, typically via the Internet.; 'cryptocurrency': Services for mining cryptocurrencies, for example a Crypto Web Browser (an application that mines crypto currency in the background while its user browses the web).; 'database': Database-specific protocols.; 'disposable-email': Service offering Disposable Email Accounts (DEA). DEA is a technique to share temporary email address between many users.; 'ebook-reader': Services for e-book readers, i.e. connected devices that display electronic books (typically using e-ink displays to reduce glare and eye strain).; 'education': Protocols offering education services and online courses.; 'email': Native email protocol.; 'enterprise': Protocol/application used in an enterprise network.; 'file-management': Protocol/application designed specifically for file management and exchange. This can include bona fide network protocols (like SMB) as well as web/cloud services (like Dropbox).; 'file-transfer': Protocol that offers file transferring as a secondary feature. This typically includes IM, Web-Mail, and other protocols that allow file transfers in addition to their principal function.; 'forum': Online forum protocol/application.; 'gaming': Protocol/application used by games.; 'healthcare': Protocols offering medical services, i.e protocols used in medical environment.; 'instant-messaging-and-multimedia-conferencing': Protocol/application used for Instant Messaging or Multi-Conferencing.; 'internet-of-things': Internet Of Things protocol/application.; 'map-service': Digital Maps service (web site and their related API).; 'mobile': Mobile-specific protocol/application.; 'multimedia-streaming': Protocol/application used for multimedia streaming.; 'networking': Protocol used for (inter) networking purpose.; 'news-portal': Protocol/application used for News Portals.; 'payment-service': Application offering online services for accepting electronic payments by a variety of payment methods (credit card, bank-based payments such as direct debit, bank transfer, etc).; 'peer-to-peer': Protocol/application

used for Peer-to-peer purposes.; 'remote-access': Protocol/application used for remote access.; 'scada': SCADA (Supervisory control and data acquisition) protocols, all generations.; 'social-networks': Social networking application.; 'software-update': Auto-update protocol.; 'speedtest': Speedtest application allowing to access quality of Internet connection (upload, download, latency, etc).; 'standards-based': Protocol issued from standardized bodies such as IETF, ITU, IEEE, ETSI, OIF.; 'transportation': Transportation services, for example smartphone applications that allow users to hail a taxi.; 'video-chat': Protocol/application used for Video Chat.; 'voip': Application used for Voice-Over-IP.; 'vpn-tunnels': Protocol/application used for VPN or tunneling purposes.; 'web': Application based on HTTP/HTTPS.; 'web-e-commerce': Protocol/application used for E-commerce websites.; 'web-search-engines': Protocol/application used for Web search portals.; 'web-websites': Protocol/application used for Company Websites.; 'webmails': Web-based e-mail application.; 'web-ext-adult': Web Extension Adult; 'web-ext-auctions': Web Extension Auctions; 'web-ext-blogs': Web Extension Blogs; 'web-ext-business-and-economy': Web Extension Business and Economy; 'web-ext-cdns': Web Extension CDNs; 'web-ext-collaboration': Web Extension Collaboration; 'web-ext-computer-and-internet-info': Web Extension Computer and Internet Info; 'web-ext-computer-and-internet-security': Web Extension Computer and Internet Security; 'web-ext-dating': Web Extension Dating; 'web-ext-educational-institutions': Web Extension Educational Institutions; 'web-ext-entertainment-and-arts': Web Extension Entertainment and Arts; 'web-ext-fashion-and-beauty': Web Extension Fashion and Beauty; 'web-ext-file-share': Web Extension File Share; 'web-ext-financial-services': Web Extension Financial Services; 'web-ext-gambling': Web Extension Gambling; 'web-ext-games': Web Extension Games; 'web-ext-government': Web Extension Government; 'web-ext-health-and-medicine': Web Extension Health and Medicine; 'web-ext-individual-stock-advice-and-tools': Web Extension Individual Stock Advice and Tools; 'web-ext-internet-portals': Web Extension Internet Portals; 'web-ext-job-search': Web Extension Job Search; 'web-ext-local-information': Web Extension Local Information; 'web-ext-malware': Web Extension Malware; 'web-ext-motor-vehicles': Web Extension Motor Vehicles; 'web-ext-music': Web Extension Music; 'web-ext-news': Web Extension News; 'web-ext-p2p': Web Extension P2P; 'web-ext-parked-sites': Web Extension Parked Sites; 'web-ext-proxy-avoid-and-anonymizers': Web Extension Proxy Avoid and Anonymizers; 'web-ext-real-estate': Web Extension Real Estate; 'web-ext-reference-and-research': Web Extension Reference and Research; 'web-ext-search-engines': Web Extension Search Engines; 'web-ext-shopping': Web Extension Shopping; 'web-ext-social-network': Web Extension Social Network; 'web-ext-society': Web Extension Society; 'web-ext-software': Web Extension Software; 'web-ext-sports': Web Extension Sports; 'web-ext-streaming-media': Web Extension Streaming Media; 'web-ext-training-and-tools': Web Extension Training and Tools; 'web-ext-translation': Web Extension Translation; 'web-ext-travel': Web Extension Travel; 'web-ext-web-advertisements': Web Extension Web Advertisements; 'web-ext-web-based-email': Web Extension Web based Email; 'web-ext-web-hosting': Web Extension Web Hosting; 'web-ext-web-service': Web Extension Web Service;

Format: ipv6-address-plen

Mutual Exclusion: src-ipv6-subnet,src-geoloc-name, src-geoloc-list, src-ipv4-any, src-ipv6-any, src-class-list, and src-ip-subnet are mutually exclusive

src-obj-grp-network

Description Network object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-obj-grp-network,src-geoloc-name, src-geoloc-list, src-ipv4-any, src-ipv6-any, and src-class-list are mutually exclusive

Reference Object: */axapi/v3/object-group/network*

src-obj-network

Description Network object

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-obj-network,src-geoloc-name, src-geoloc-list, src-ipv4-any, src-ipv6-any, and src-class-list are mutually exclusive

Reference Object: */axapi/v3/object/network*

rule-set-list_rule-list_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'hit-count': Hit counts;

Type: string

Supported Values: all, hit-count

rule-set-list_rule-list_dest-list

Specification	Value
Type	*list*
Block object keys	

dst-ip-subnet

Description IPv4 IP Address

Type: string

Format: ipv4-cidr

Mutual Exclusion: dst-ip-subnet,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, dst-class-list, and dst-ipv6-subnet are mutually exclusive

dst-ipv6-subnet

Description IPv6 IP Address

Type: string

Format: ipv6-address-plen

Mutual Exclusion: dst-ipv6-subnet,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, dst-class-list, and dst-ip-subnet are mutually exclusive

dst-obj-grp-network

Description Network object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-obj-grp-network,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, and dst-class-list are mutually exclusive

Reference Object: */axapi/v3/object-group/network*

dst-obj-network

Description Network object

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-obj-network,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, and dst-class-list are mutually exclusive

Reference Object: */axapi/v3/object/network*

dst-slb-vserver

Description SLB Virtual server name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-slb-vserver,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, and dst-class-list are mutually exclusive

Reference Object: */axapi/v3/slb/virtual-server*

rule-set-list_rule-list_service-list

Specification	Value
Type	*list*
Block object keys	

eq-dst-port

Description Equal to the port number

Type: number

Range: 1-65535

eq-src-port

Description Equal to the port number

Type: number

Range: 1-65535

gt-dst-port

Description Greater than the port number

Type: number

Range: 1-65534

gt-src-port

Description Greater than the port number

Type: number

Range: 1-65534

icmp

Description ICMP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: icmp, service-any, and icmpv6 are mutually exclusive

icmp-code

Description ICMP code number

Type: number

Range: 0-254

Mutual Exclusion: icmp-code and special-code are mutually exclusive

icmp-type

Description ICMP type number

Type: number

Range: 0-254

Mutual Exclusion: icmp-type and special-type are mutually exclusive

icmpv6

Description ICMPv6

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: icmpv6, service-any, and icmp are mutually exclusive

icmpv6-code

Description ICMPv6 code number

Type: number

Range: 0-254

Mutual Exclusion: icmpv6-code and special-v6-code are mutually exclusive

icmpv6-type

Description ICMPv6 type number

Type: number

Range: 0-254

Mutual Exclusion: icmpv6-type and special-v6-type are mutually exclusive

lt-dst-port

Description Lower than the port number

Type: number

Range: 2-65535

lt-src-port

Description Lower than the port number

Type: number

Range: 2-65535

obj-grp-service

Description service object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: obj-grp-service and service-any are mutually exclusive

Reference Object: */axapi/v3/object-group/service*

port-num-end-dst

Description Ending Port Number

Type: number

Range: 1-65535

port-num-end-src

Description Ending Port Number

Type: number

Range: 1-65535

proto-id

Description Protocol ID

Type: number

Range: 0-255

Mutual Exclusion: proto-id and service-any are mutually exclusive

protocols

Description 'tcp': tcp; 'udp': udp; 'sctp': sctp;

Type: string

Supported Values: tcp, udp, sctp

Mutual Exclusion: protocols and service-any are mutually exclusive

range-dst-port

Description Port range (Starting Port Number)

Type: number

Range: 1-65535

range-src-port

Description Port range (Starting Port Number)

Type: number

Range: 1-65535

sctp-template

Description SCTP Template

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/template/sctp*

special-code

Description 'any-code': Any ICMP code; 'frag-required': Code 4, fragmentation required; 'host-unreachable': Code 1, destination host unreachable; 'network-unreachable': Code 0, destination network unreachable; 'port-unreachable': Code 3, destination port unreachable; 'proto-unreachable': Code 2, destination protocol unreachable; 'route-failed': Code 5, source route failed;

Type: string

Supported Values: any-code, frag-required, host-unreachable, network-unreachable, port-unreachable, proto-unreachable, route-failed

Mutual Exclusion: special-code and icmp-code are mutually exclusive

special-type

Description 'any-type': Any ICMP type; 'echo-reply': Type 0, echo reply; 'echo-request': Type 8, echo request; 'info-reply': Type 16, information reply; 'info-request': Type 15, information request; 'mask-reply': Type 18, address mask reply; 'mask-request': Type 17, address mask request; 'parameter-problem': Type 12, parameter problem; 'redirect': Type 5, redirect message; 'source-quench': Type 4, source quench; 'time-exceeded': Type 11, time exceeded; 'timestamp': Type 13, timestamp; 'timestamp-reply': Type 14, timestamp reply; 'dest-unreachable': Type 3, destination unreachable;

Type: string

Supported Values: any-type, echo-reply, echo-request, info-reply, info-request, mask-reply, mask-request, parameter-problem, redirect, source-quench, time-exceeded, timestamp, timestamp-reply, dest-unreachable

Mutual Exclusion: special-type and icmp-type are mutually exclusive

special-v6-code

Description 'any-code': Any ICMPv6 code; 'addr-unreachable': Code 3, address unreachable; 'admin-prohibited': Code 1, admin prohibited; 'no-route': Code 0, no route to destination; 'not-neighbour': Code 2, not neighbor; 'port-unreachable': Code 4, destination port unreachable;

Type: string

Supported Values: any-code, addr-unreachable, admin-prohibited, no-route, not-neighbour, port-unreachable

Mutual Exclusion: special-v6-code and icmpv6-code are mutually exclusive

special-v6-type

Description 'any-type': Any ICMPv6 type; 'dest-unreachable': Type 1, destination unreachable; 'echo-reply': Type 129, echo reply; 'echo-request': Type 128, echo request; 'packet-too-big': Type 2, packet too big; 'param-prob': Type 4, parameter problem; 'time-exceeded': Type 3, time exceeded;

Type: string

Supported Values: any-type, dest-unreachable, echo-reply, echo-request, packet-too-big, param-prob, time-exceeded

Mutual Exclusion: special-v6-type and icmpv6-type are mutually exclusive

rule-set-list_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'hit-count': Hit counts;

Type: string

Supported Values: all, hit-count

2.144.2 traffic-control active-rule-set

Active traffic-control policy

active-rule-set Specification

Parameter	Value

rule-set-list

rule-set-list is **JSON List** of *rule-set attributes*

rule-set-list : [

{ *rule-set attributes* },

{ *rule-set attributes* },

...

]

rule-set attributes

name

Description Rule set name

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

remark

Description Rule set entry comment (Notes for this rule set)

Type: string

Format: string-rlx

Maximum Length: 255 characters

Maximum Length: 1 characters

rule-list

Type: List

Reference Object: */axapi/v3/traffic-control/rule-set/{name}/rule/{name}*

sampling-enable

Type: List

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

rule-list

Specification	Value
Type	*list*
Block object keys	

action-group

Description: action-group is a **JSON Block**. Please see below for *rule-list_action-group*

Type: Object

Reference Object: */axapi/v3/traffic-control/rule-set/{name}/rule/{name}/action-group*

app-list

Type: List

application-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: application-any,obj-grp-application, protocol, and protocol-tag are mutually exclusive

derived-attribute

Description 'usergroup': Match the value from the derived attribute of user group in the class-list.; 'userid': Match the value from the derived attribute of user ID in the class-list.;

Type: string

Supported Values: usergroup, userid

dest-list

Type: List

dst-class-list

Description Match destination IP against class-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-class-list,dst-ipv4-any, dst-ipv6-any, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

Reference Object: */axapi/v3/class-list*

dst-domain-list

Description Match destination IP against domain-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-domain-list, dst-ipv4-any, and dst-ipv6-any are mutually exclusive

Reference Object: */axapi/v3/domain-list*

dst-geoloc-list

Description Geolocation name list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-geoloc-list,dst-geoloc-name, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

dst-geoloc-list-shared

Description Use Geolocation list from shared partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst-geoloc-name

Description Single geolocation name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-geoloc-name,dst-geoloc-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

dst-ipv4-any

Description 'any': Any IPv4 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-ipv4-any,dst-ipv6-any, dst-class-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, dst-slb-vserver, and dst-domain-list are mutually exclusive

dst-ipv6-any

Description 'any': Any IPv6 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-ipv6-any,dst-ipv4-any, dst-class-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, dst-slb-vserver, and dst-domain-list are mutually exclusive

dst-zone

Description Zone name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-zone and dst-zone-any are mutually exclusive

Reference Object: */axapi/v3/zone*

dst-zone-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-zone-any and dst-zone are mutually exclusive

ip-version

Description 'v4': IPv4 rule; 'v6': IPv6 rule;

Type: string

Supported Values: v4, v6, any

Default: v4

move-rule

Description: move-rule is a **JSON Block**. Please see below for *rule-list_move-rule*

Type: Object

Reference Object: */axapi/v3/traffic-control/rule-set/{name}/rule/{name}/move-rule*

name

Description Rule name

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

remark

Description Rule entry comment (Notes for this rule)

Type: string

Format: string-rlx

Maximum Length: 255 characters

Maximum Length: 1 characters

sampling-enable

Type: List

service-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: service-any,protocols, proto-id, obj-grp-service, icmp, and icmpv6 are mutually exclusive

service-list

Type: List

source-list

Type: List

src-class-list

Description Match source IP against class-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-class-list,src-ipv4-any, src-ipv6-any, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

Reference Object: */axapi/v3/class-list*

src-class-list-type

Description 'radius': Match the value of specified RADIUS attribute in the class-list.;

Type: string

Supported Values: radius

src-geoloc-list

Description Geolocation name list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-geoloc-list,src-geoloc-name, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-geoloc-list-shared

Description Use Geolocation list from shared partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src-geoloc-name

Description Single geolocation name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: src-geoloc-name,src-geoloc-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-ipv4-any

Description 'any': Any IPv4 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-ipv4-any,src-ipv6-any, src-class-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-ipv6-any

Description 'any': Any IPv6 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-ipv6-any,src-ipv4-any, src-class-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-zone

Description Zone name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Mutual Exclusion: src-zone and src-zone-any are mutually exclusive

Reference Object: */axapi/v3/zone*

src-zone-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-zone-any and src-zone are mutually exclusive

status

Description 'enable': Enable rule; 'disable': Disable rule;

Type: string

Supported Values: enable, disable

Default: enable

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

rule-list_app-list

Specification	Value
Type	*list*
Block object keys	

obj-grp-application

Description Application object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: obj-grp-application and application-any are mutually exclusive

Reference Object: */axapi/v3/object-group/application*

protocol

Description Specify application(s)

Type: string

Format: string-rlx

Maximum Length: 31 characters

Maximum Length: 1 characters

Mutual Exclusion: protocol and application-any are mutually exclusive

protocol-tag

Description 'aaa': Protocol/application used for AAA (Authentification, Authorization and Accounting) purposes.; 'adult-content': Adult content protocol/application.; 'advertising': Advertising networks and applications.; 'application-enforcing-tls': Application known to enforce HSTS and thus use of TLS.; 'analytics-and-statistics': User analytics and statistics protocol/application.; 'anonymizers-and-proxies': Traffic-anonymization protocol/application.; 'audio-chat': Protocol/application used for Audio Chat.; 'basic': Covers all protocols required for basic classification, including most networking protocols as well as standard protocols like HTTP.; 'blog': Blogging platform protocol/application.; 'cdn': Protocol/application used for Content-Delivery Networks.; 'certification-authority': Certification Authority for SSL/TLS certificate.; 'chat': Protocol/application used for Text Chat.; 'classified-ads': Protocol/application used for Classified Advertisements.; 'cloud-based-services': SaaS and/or PaaS cloud based services.; 'crowdfunding': Service for funding a project or venture by raising small amounts of money from a large number of people, typically via the Internet.; 'cryptocurrency': Services for mining cryptocurrencies, for example a Crypto Web Browser (an application that mines crypto currency in the background while its user browses the web).; 'database': Database-specific protocols.; 'disposable-email': Service offering Disposable Email Accounts (DEA). DEA is a technique to share temporary email address between many users.; 'ebook-reader': Services for e-book readers, i.e. connected devices that display electronic books (typically using e-ink displays to reduce glare and eye strain).; 'education': Protocols offering education services and online courses.; 'email': Native email protocol.; 'enterprise': Protocol/application used in an enterprise network.; 'file-management': Protocol/application designed specifically for file management and exchange. This can include bona fide network protocols (like SMB) as well as web/cloud services (like Dropbox).; 'file-transfer': Protocol that offers file transferring as a secondary feature. This typically includes IM, Web-Mail, and other protocols that allow file transfers in addition to their principal function.; 'forum': Online forum protocol/application.; 'gaming': Protocol/application used by games.; 'healthcare': Protocols offering medical services, i.e protocols used in medical environment.; 'instant-messaging-and-multimedia-conferencing': Protocol/application used for Instant Messaging or Multi-Conferencing.; 'internet-of-things': Internet Of Things protocol/application.; 'map-service': Digital Maps service (web site and their related API).; 'mobile': Mobile-specific protocol/application.; 'multimedia-streaming': Protocol/application used for multimedia streaming.; 'networking': Protocol used for (inter) networking purpose.; 'news-portal': Protocol/application used for News Portals.; 'payment-service': Application offering online services for accepting electronic payments by a variety of payment methods (credit card, bank-based payments such as direct debit, bank transfer, etc).; 'peer-to-peer': Protocol/application used for Peer-to-peer purposes.; 'remote-access': Protocol/application used for remote access.; 'scada': SCADA (Supervisory control and data acquisition) protocols, all generations.; 'social-networks': Social networking application.; 'software-update': Auto-update protocol.; 'speedtest': Speedtest application allowing to access quality of Internet connection (upload, download, latency, etc).; 'standards-based': Protocol issued from standardized bodies such as IETF, ITU, IEEE, ETSI, OIF.; 'transportation': Transportation services, for example smartphone applications that allow users to hail a taxi.; 'video-chat': Protocol/application used for Video Chat.; 'voip': Application used for Voice-Over-IP.; 'vpn-tunnels': Protocol/application used for VPN or tunneling purposes.; 'web': Application based on HTTP/HTTPS.; 'web-e-commerce': Protocol/application used for E-commerce websites.; 'web-search-engines': Protocol/application used for Web search portals.; 'web-websites': Protocol/application used for Company Websites.; 'webmails': Web-based e-mail application.; 'web-ext-adult': Web Extension Adult; 'web-ext-auctions': Web Extension Auctions; 'web-ext-blogs': Web Extension Blogs; 'web-ext-business-and-economy': Web Extension Business and Economy; 'web-ext-cdns': Web Extension CDNs; 'web-ext-collaboration': Web Extension Collaboration; 'web-ext-computer-and-internet-info': Web Extension Computer and Internet Info; 'web-ext-computer-and-internet-security': Web Extension Computer and Internet Security; 'web-ext-

dating': Web Extension Dating; 'web-ext-educational-institutions': Web Extension Educational Institutions; 'web-ext-entertainment-and-arts': Web Extension Entertainment and Arts; 'web-ext-fashion-and-beauty': Web Extension Fashion and Beauty; 'web-ext-file-share': Web Extension File Share; 'web-ext-financial-services': Web Extension Financial Services; 'web-ext-gambling': Web Extension Gambling; 'web-ext-games': Web Extension Games; 'web-ext-government': Web Extension Government; 'web-ext-health-and-medicine': Web Extension Health and Medicine; 'web-ext-individual-stock-advice-and-tools': Web Extension Individual Stock Advice and Tools; 'web-ext-internet-portals': Web Extension Internet Portals; 'web-ext-job-search': Web Extension Job Search; 'web-ext-local-information': Web Extension Local Information; 'web-ext-malware': Web Extension Malware; 'web-ext-motor-vehicles': Web Extension Motor Vehicles; 'web-ext-music': Web Extension Music; 'web-ext-news': Web Extension News; 'web-ext-p2p': Web Extension P2P; 'web-ext-parked-sites': Web Extension Parked Sites; 'web-ext-proxy-avoid-and-anonymizers': Web Extension Proxy Avoid and Anonymizers; 'web-ext-real-estate': Web Extension Real Estate; 'web-ext-reference-and-research': Web Extension Reference and Research; 'web-ext-search-engines': Web Extension Search Engines; 'web-ext-shopping': Web Extension Shopping; 'web-ext-social-network': Web Extension Social Network; 'web-ext-society': Web Extension Society; 'web-ext-software': Web Extension Software; 'web-ext-sports': Web Extension Sports; 'web-ext-streaming-media': Web Extension Streaming Media; 'web-ext-training-and-tools': Web Extension Training and Tools; 'web-ext-translation': Web Extension Translation; 'web-ext-travel': Web Extension Travel; 'web-ext-web-advertisements': Web Extension Web Advertisements; 'web-ext-web-based-email': Web Extension Web based Email; 'web-ext-web-hosting': Web Extension Web Hosting; 'web-ext-web-service': Web Extension Web Service;

Type: string

Supported Values: aaa, adult-content, advertising, application-enforcing-tls, analytics-and-statistics, anonymizers-and-proxies, audio-chat, basic, blog, cdn, certification-authority, chat, classified-ads, cloud-based-services, crowdfunding, cryptocurrency, database, disposable-email, ebook-reader, education, email, enterprise, file-management, file-transfer, forum, gaming, healthcare, instant-messaging-and-multimedia-conferencing, internet-of-things, map-service, mobile, multimedia-streaming, networking, news-portal, payment-service, peer-to-peer, remote-access, scada, social-networks, software-update, speedtest, standards-based, transportation, video-chat, voip, vpn-tunnels, web, web-e-commerce, web-search-engines, web-websites, webmails, web-ext-adult, web-ext-auctions, web-ext-blogs, web-ext-business-and-economy, web-ext-cdns, web-ext-collaboration, web-ext-computer-and-internet-info, web-ext-computer-and-internet-security, web-ext-dating, web-ext-educational-institutions, web-ext-entertainment-and-arts, web-ext-fashion-and-beauty, web-ext-file-share, web-ext-financial-services, web-ext-gambling, web-ext-games, web-ext-government, web-ext-health-and-medicine, web-ext-individual-stock-advice-and-tools, web-ext-internet-portals, web-ext-job-search, web-ext-local-information, web-ext-malware, web-ext-motor-vehicles, web-ext-music, web-ext-news, web-ext-p2p, web-ext-parked-sites, web-ext-proxy-avoid-and-anonymizers, web-ext-real-estate, web-ext-reference-and-research, web-ext-search-engines, web-ext-shopping, web-ext-social-network, web-ext-society, web-ext-software, web-ext-sports, web-ext-streaming-media, web-ext-training-and-tools, web-ext-translation, web-ext-travel, web-ext-web-advertisements, web-ext-web-based-email, web-ext-web-hosting, web-ext-web-service

Mutual Exclusion: protocol-tag and application-any are mutually exclusive

eq-dst-port

Description Equal to the port number

Type: number

Range: 1-65535

eq-src-port

Description Equal to the port number

Type: number

Range: 1-65535

gt-dst-port

Description Greater than the port number

Type: number

Range: 1-65534

gt-src-port

Description Greater than the port number

Type: number

Range: 1-65534

icmp

Description ICMP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: icmp, service-any, and icmpv6 are mutually exclusive

icmp-code

Description ICMP code number

Type: number

Range: 0-254

Mutual Exclusion: icmp-code and special-code are mutually exclusive

icmp-type

Description ICMP type number

Type: number

Range: 0-254

Mutual Exclusion: icmp-type and special-type are mutually exclusive

icmpv6

Description ICMPv6

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: icmpv6, service-any, and icmp are mutually exclusive

icmpv6-code

Description ICMPv6 code number

Type: number

Range: 0-254

Mutual Exclusion: icmpv6-code and special-v6-code are mutually exclusive

icmpv6-type

Description ICMPv6 type number

Type: number

Range: 0-254

Mutual Exclusion: icmpv6-type and special-v6-type are mutually exclusive

lt-dst-port

Description Lower than the port number

Type: number

Range: 2-65535

lt-src-port

Description Lower than the port number

Type: number

Range: 2-65535

obj-grp-service

Description service object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: obj-grp-service and service-any are mutually exclusive

Reference Object: */axapi/v3/object-group/service*

port-num-end-dst

Description Ending Port Number

Type: number

Range: 1-65535

port-num-end-src

Description Ending Port Number

Type: number

Range: 1-65535

proto-id

Description Protocol ID

Type: number

Range: 0-255

Mutual Exclusion: proto-id and service-any are mutually exclusive

protocols

Description ‘tcp’: tcp; ‘udp’: udp; ‘sctp’: sctp;

Type: string

Supported Values: tcp, udp, sctp

Mutual Exclusion: protocols and service-any are mutually exclusive

range-dst-port

Description Port range (Starting Port Number)

Type: number

Range: 1-65535

range-src-port

Description Port range (Starting Port Number)

Type: number

Range: 1-65535

sctp-template

Description SCTP Template

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/template/sctp*

special-code

Description 'any-code': Any ICMP code; 'frag-required': Code 4, fragmentation required; 'host-unreachable': Code 1, destination host unreachable; 'network-unreachable': Code 0, destination network unreachable; 'port-unreachable': Code 3, destination port unreachable; 'proto-unreachable': Code 2, destination protocol unreachable; 'route-failed': Code 5, source route failed;

Type: string

Supported Values: any-code, frag-required, host-unreachable, network-unreachable, port-unreachable, proto-unreachable, route-failed

Mutual Exclusion: special-code and icmp-code are mutually exclusive

special-type

Description 'any-type': Any ICMP type; 'echo-reply': Type 0, echo reply; 'echo-request': Type 8, echo request; 'info-reply': Type 16, information reply; 'info-request': Type 15, information request; 'mask-reply': Type 18, address mask reply; 'mask-request': Type 17, address mask request; 'parameter-problem': Type 12, parameter problem; 'redirect': Type 5, redirect message; 'source-quench': Type 4, source quench; 'time-exceeded': Type 11, time exceeded; 'timestamp': Type 13, timestamp; 'timestamp-reply': Type 14, timestamp reply; 'dest-unreachable': Type 3, destination unreachable;

Type: string

Supported Values: any-type, echo-reply, echo-request, info-reply, info-request, mask-reply, mask-request, parameter-problem, redirect, source-quench, time-exceeded, timestamp, timestamp-reply, dest-unreachable

Mutual Exclusion: special-type and icmp-type are mutually exclusive

special-v6-code

Description 'any-code': Any ICMPv6 code; 'addr-unreachable': Code 3, address unreachable; 'admin-prohibited': Code 1, admin prohibited; 'no-route': Code 0, no route to destination; 'not-neighbour': Code 2, not neighbor; 'port-unreachable': Code 4, destination port unreachable;

Type: string

Supported Values: any-code, addr-unreachable, admin-prohibited, no-route, not-neighbour, port-unreachable

Mutual Exclusion: special-v6-code and icmpv6-code are mutually exclusive

special-v6-type

Description 'any-type': Any ICMPv6 type; 'dest-unreachable': Type 1, destination unreachable; 'echo-reply': Type 129, echo reply; 'echo-request': Type 128, echo request; 'packet-too-big': Type 2, packet too big; 'param-prob': Type 4, parameter problem; 'time-exceeded': Type 3, time exceeded;

Type: string

Supported Values: any-type, dest-unreachable, echo-reply, echo-request, packet-too-big, param-prob, time-exceeded

Mutual Exclusion: special-v6-type and icmpv6-type are mutually exclusive

sampling-enable

app-list

Type: List

application-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: application-any,obj-grp-application, protocol, and protocol-tag are mutually exclusive

derived-attribute

Description 'usergroup': Match the value from the derived attribute of user group in the class-list.; 'userid': Match the value from the derived attribute of user ID in the class-list.;

Type: string

Supported Values: usergroup, userid

dest-list

Type: List

dst-class-list

Description Match destination IP against class-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-class-list,dst-ipv4-any, dst-ipv6-any, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

Reference Object: */axapi/v3/class-list*

dst-domain-list

Description Match destination IP against domain-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-domain-list, dst-ipv4-any, and dst-ipv6-any are mutually exclusive

Reference Object: */axapi/v3/domain-list*

dst-geoloc-list

Description Geolocation name list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-geoloc-list,dst-geoloc-name, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

dst-geoloc-list-shared

Description Use Geolocation list from shared partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst-geoloc-name

Description Single geolocation name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-geoloc-name,dst-geoloc-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, and dst-slb-vserver are mutually exclusive

dst-ipv4-any

Description 'any': Any IPv4 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-ipv4-any,dst-ipv6-any, dst-class-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, dst-slb-vserver, and dst-domain-list are mutually exclusive

dst-ipv6-any

Description 'any': Any IPv6 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-ipv6-any,dst-ipv4-any, dst-class-list, dst-ip-subnet, dst-ipv6-subnet, dst-obj-network, dst-obj-grp-network, dst-slb-vserver, and dst-domain-list are mutually exclusive

dst-zone

Description Zone name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-zone and dst-zone-any are mutually exclusive

Reference Object: */axapi/v3/zone*

dst-zone-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: dst-zone-any and dst-zone are mutually exclusive

ip-version

Description 'v4': IPv4 rule; 'v6': IPv6 rule;

Type: string

Supported Values: v4, v6, any

Default: v4

move-rule

Description: move-rule is a **JSON Block**. Please see below for *move-rule*

Type: Object

Reference Object: */axapi/v3/traffic-control/rule-set/{name}/rule/{name}/move-rule*

name

Description Rule name

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

remark

Description Rule entry comment (Notes for this rule)

Type: string

Format: string-rlx

Maximum Length: 255 characters

Maximum Length: 1 characters

sampling-enable

Type: List

service-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: service-any,protocols, proto-id, obj-grp-service, icmp, and icmpv6 are mutually exclusive

service-list

Type: List

source-list

Type: List

src-class-list

Description Match source IP against class-list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-class-list,src-ipv4-any, src-ipv6-any, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

Reference Object: */axapi/v3/class-list*

src-class-list-type

Description 'radius': Match the value of specified RADIUS attribute in the class-list.;

Type: string

Supported Values: radius

src-geoloc-list

Description Geolocation name list

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-geoloc-list,src-geoloc-name, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-geoloc-list-shared

Description Use Geolocation list from shared partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src-geoloc-name

Description Single geolocation name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: src-geoloc-name,src-geoloc-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-ipv4-any

Description 'any': Any IPv4 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-ipv4-any,src-ipv6-any, src-class-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-ipv6-any

Description 'any': Any IPv6 address;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-ipv6-any,src-ipv4-any, src-class-list, src-ip-subnet, src-ipv6-subnet, src-obj-network, and src-obj-grp-network are mutually exclusive

src-zone

Description Zone name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Mutual Exclusion: src-zone and src-zone-any are mutually exclusive

Reference Object: */axapi/v3/zone*

src-zone-any

Description 'any': any;

Type: string

Supported Values: any

Default: any

Mutual Exclusion: src-zone-any and src-zone are mutually exclusive

status

Description 'enable': Enable rule; 'disable': Disable rule;

Type: string

Supported Values: enable, disable

Default: enable

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

app-list

Specification	Value
Type	*list*
Block object keys	

obj-grp-application

Description Application object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: obj-grp-application and application-any are mutually exclusive

Reference Object: */axapi/v3/object-group/application*

protocol

Description Specify application(s)

Type: string

Format: string-rlx

Maximum Length: 31 characters

Maximum Length: 1 characters

Mutual Exclusion: protocol and application-any are mutually exclusive

protocol-tag

Description 'aaa': Protocol/application used for AAA (Authentification, Authorization and Accounting) purposes.; 'adult-content': Adult content protocol/application.; 'advertising': Advertising networks and applications.; 'application-enforcing-tls': Application known to enforce HSTS and thus use of TLS.; 'analytics-and-statistics': User analytics and statistics protocol/application.; 'anonymizers-and-proxies': Traffic-anonymization protocol/application.; 'audio-chat': Protocol/application used for Audio Chat.; 'basic': Covers all protocols required for basic classification, including most networking protocols as well as standard protocols like HTTP.; 'blog': Blogging platform protocol/application.; 'cdn': Protocol/application used for Content-Delivery Networks.; 'certification-authority': Certification Authority for SSL/TLS certificate.; 'chat': Protocol/application used for Text Chat.; 'classified-ads': Protocol/application used for Classified Advertisements.; 'cloud-based-services': SaaS and/or PaaS cloud based services.; 'crowdfunding': Service for funding a project or venture by raising small amounts of money from a large number of people, typically via the Internet.; 'cryptocurrency': Services for mining cryptocurrencies, for example a Crypto Web Browser (an application that mines crypto currency in the background while its user browses the web).; 'database': Database-specific protocols.; 'disposable-email': Service offering Disposable Email Accounts (DEA). DEA is a technique to share temporary email address between many users.; 'ebook-reader': Services for e-book readers, i.e. connected devices that display electronic books (typically using e-ink displays to reduce glare and eye strain).; 'education': Protocols offering education services and online courses.; 'email': Native email protocol.; 'enterprise': Protocol/application used in an enterprise network.; 'file-management': Protocol/application designed specifically for file management and exchange. This can include bona fide network

protocols (like SMB) as well as web/cloud services (like Dropbox).; 'file-transfer': Protocol that offers file transferring as a secondary feature. This typically includes IM, Web-Mail, and other protocols that allow file transfers in addition to their principal function.; 'forum': Online forum protocol/application.; 'gaming': Protocol/application used by games.; 'healthcare': Protocols offering medical services, i.e protocols used in medical environment.; 'instant-messaging-and-multimedia-conferencing': Protocol/application used for Instant Messaging or Multi-Conferencing.; 'internet-of-things': Internet Of Things protocol/application.; 'map-service': Digital Maps service (web site and their related API).; 'mobile': Mobile-specific protocol/application.; 'multimedia-streaming': Protocol/application used for multimedia streaming.; 'networking': Protocol used for (inter) networking purpose.; 'news-portal': Protocol/application used for News Portals.; 'payment-service': Application offering online services for accepting electronic payments by a variety of payment methods (credit card, bank-based payments such as direct debit, bank transfer, etc).; 'peer-to-peer': Protocol/application used for Peer-to-peer purposes.; 'remote-access': Protocol/application used for remote access.; 'scada': SCADA (Supervisory control and data acquisition) protocols, all generations.; 'social-networks': Social networking application.; 'software-update': Auto-update protocol.; 'speedtest': Speedtest application allowing to access quality of Internet connection (upload, download, latency, etc).; 'standards-based': Protocol issued from standardized bodies such as IETF, ITU, IEEE, ETSI, OIF.; 'transportation': Transportation services, for example smartphone applications that allow users to hail a taxi.; 'video-chat': Protocol/application used for Video Chat.; 'voip': Application used for Voice-Over-IP.; 'vpn-tunnels': Protocol/application used for VPN or tunneling purposes.; 'web': Application based on HTTP/HTTPS.; 'web-e-commerce': Protocol/application used for E-commerce websites.; 'web-search-engines': Protocol/application used for Web search portals.; 'web-websites': Protocol/application used for Company Websites.; 'webmails': Web-based e-mail application.; 'web-ext-adult': Web Extension Adult; 'web-ext-auctions': Web Extension Auctions; 'web-ext-blogs': Web Extension Blogs; 'web-ext-business-and-economy': Web Extension Business and Economy; 'web-ext-cdns': Web Extension CDNs; 'web-ext-collaboration': Web Extension Collaboration; 'web-ext-computer-and-internet-info': Web Extension Computer and Internet Info; 'web-ext-computer-and-internet-security': Web Extension Computer and Internet Security; 'web-ext-dating': Web Extension Dating; 'web-ext-educational-institutions': Web Extension Educational Institutions; 'web-ext-entertainment-and-arts': Web Extension Entertainment and Arts; 'web-ext-fashion-and-beauty': Web Extension Fashion and Beauty; 'web-ext-file-share': Web Extension File Share; 'web-ext-financial-services': Web Extension Financial Services; 'web-ext-gambling': Web Extension Gambling; 'web-ext-games': Web Extension Games; 'web-ext-government': Web Extension Government; 'web-ext-health-and-medicine': Web Extension Health and Medicine; 'web-ext-individual-stock-advice-and-tools': Web Extension Individual Stock Advice and Tools; 'web-ext-internet-portals': Web Extension Internet Portals; 'web-ext-job-search': Web Extension Job Search; 'web-ext-local-information': Web Extension Local Information; 'web-ext-malware': Web Extension Malware; 'web-ext-motor-vehicles': Web Extension Motor Vehicles; 'web-ext-music': Web Extension Music; 'web-ext-news': Web Extension News; 'web-ext-p2p': Web Extension P2P; 'web-ext-parked-sites': Web Extension Parked Sites; 'web-ext-proxy-avoid-and-anonymizers': Web Extension Proxy Avoid and Anonymizers; 'web-ext-real-estate': Web Extension Real Estate; 'web-ext-reference-and-research': Web Extension Reference and Research; 'web-ext-search-engines': Web Extension Search Engines; 'web-ext-shopping': Web Extension Shopping; 'web-ext-social-network': Web Extension Social Network; 'web-ext-society': Web Extension Society; 'web-ext-software': Web Extension Software; 'web-ext-sports': Web Extension Sports; 'web-ext-streaming-media': Web Extension Streaming Media; 'web-ext-training-and-tools': Web Extension Training and Tools; 'web-ext-translation': Web Extension Translation; 'web-ext-travel': Web Extension Travel; 'web-ext-web-advertisements': Web Extension Web Advertisements; 'web-ext-web-based-email': Web Extension Web based Email; 'web-ext-web-hosting': Web Extension Web Hosting; 'web-ext-web-service': Web Extension Web Service;

Type: string

Supported Values: aaa, adult-content, advertising, application-enforcing-tls, analytics-and-statistics, anonymizers-and-proxies, audio-chat, basic, blog, cdn, certification-authority, chat, classified-ads, cloud-based-services, crowdfunding, cryptocurrency, database, disposable-email, ebook-reader, education, email, enterprise, file-management, file-transfer, forum, gaming, healthcare, instant-messaging-and-multimedia-conferencing, internet-of-things, map-service, mobile, multimedia-streaming, networking, news-portal, payment-service, peer-to-peer, remote-access, scada, social-networks, software-update, speedtest, standards-based, transportation, video-chat, voip, vpn-tunnels, web, web-e-commerce, web-search-engines, web-websites, webmails, web-ext-adult, web-ext-auctions, web-ext-blogs, web-ext-business-and-economy, web-ext-cdns, web-ext-collaboration, web-ext-computer-and-internet-info, web-ext-computer-and-internet-security, web-ext-dating, web-ext-educational-institutions, web-ext-entertainment-and-arts, web-ext-fashion-and-beauty, web-ext-file-share, web-ext-financial-services, web-ext-gambling, web-ext-games, web-ext-government, web-ext-health-and-medicine, web-ext-individual-stock-advice-and-tools, web-ext-internet-portals, web-ext-job-search, web-ext-local-information, web-ext-malware, web-ext-motor-vehicles, web-ext-music, web-ext-news, web-ext-p2p, web-ext-parked-sites, web-ext-proxy-avoid-and-anonymizers, web-ext-real-estate, web-ext-reference-and-research, web-ext-search-engines, web-ext-shopping, web-ext-social-network, web-ext-society, web-ext-software, web-ext-sports, web-ext-streaming-media, web-ext-training-and-tools, web-ext-translation, web-ext-travel, web-ext-web-advertisements, web-ext-web-based-email, web-ext-web-hosting, web-ext-web-service

Mutual Exclusion: protocol-tag and application-any are mutually exclusive

action-group

Specification	Value
Type	*object*

limit-policy

Description Limit policy Template

Type: number

Range: 1-1023

Reference Object: */axapi/v3/template/limit-policy*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

move-rule

Specification	Value
Type	*object*

location

Description 'top': top; 'before': before; 'after': after; 'bottom': bottom;

Type: string

Supported Values: top, before, after, bottom

Default: bottom

target-rule

Description

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

source-list

Specification	Value
Type	*list*
Block object keys	

src-ip-subnet

Description IPv4 IP Address

Type: string

Format: ipv4-cidr

Mutual Exclusion: src-ip-subnet,src-geoloc-name, src-geoloc-list, src-ipv4-any, src-ipv6-any, src-class-list, and src-ipv6-subnet are mutually exclusive

src-ipv6-subnet

Description IPv6 IP Address

Type: string

Format: ipv6-address-plen

Mutual Exclusion: src-ipv6-subnet,src-geoloc-name, src-geoloc-list, src-ipv4-any, src-ipv6-any, src-class-list, and src-ip-subnet are mutually exclusive

src-obj-grp-network

Description Network object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-obj-grp-network,src-geoloc-name, src-geoloc-list, src-ipv4-any, src-ipv6-any, and src-class-list are mutually exclusive

Reference Object: */axapi/v3/object-group/network*

src-obj-network

Description Network object

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: src-obj-network,src-geoloc-name, src-geoloc-list, src-ipv4-any, src-ipv6-any, and src-class-list are mutually exclusive

Reference Object: */axapi/v3/object/network*

sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'hit-count': Hit counts;

Type: string

Supported Values: all, hit-count

dest-list

Specification	Value
Type	*list*
Block object keys	

dst-ip-subnet

Description IPv4 IP Address

Type: string

Format: ipv4-cidr

Mutual Exclusion: dst-ip-subnet,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, dst-class-list, and dst-ipv6-subnet are mutually exclusive

dst-ipv6-subnet

Description IPv6 IP Address

Type: string

Format: ipv6-address-plen

Mutual Exclusion: dst-ipv6-subnet,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, dst-class-list, and dst-ip-subnet are mutually exclusive

dst-obj-grp-network

Description Network object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-obj-grp-network,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, and dst-class-list are mutually exclusive

Reference Object: */axapi/v3/object-group/network*

dst-obj-network

Description Network object

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-obj-network,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, and dst-class-list are mutually exclusive

Reference Object: */axapi/v3/object/network*

dst-slb-vserver

Description SLB Virtual server name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: dst-slb-vserver,dst-geoloc-name, dst-geoloc-list, dst-ipv4-any, dst-ipv6-any, and dst-class-list are mutually exclusive

Reference Object: */axapi/v3/slb/virtual-server*

service-list

Specification	Value
Type	*list*
Block object keys	

eq-dst-port

Description Equal to the port number

Type: number

Range: 1-65535

eq-src-port

Description Equal to the port number

Type: number

Range: 1-65535

gt-dst-port

Description Greater than the port number

Type: number

Range: 1-65534

gt-src-port

Description Greater than the port number

Type: number

Range: 1-65534

icmp

Description ICMP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: icmp, service-any, and icmpv6 are mutually exclusive

icmp-code

Description ICMP code number

Type: number

Range: 0-254

Mutual Exclusion: icmp-code and special-code are mutually exclusive

icmp-type

Description ICMP type number

Type: number

Range: 0-254

Mutual Exclusion: icmp-type and special-type are mutually exclusive

icmpv6

Description ICMPv6

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: icmpv6, service-any, and icmp are mutually exclusive

icmpv6-code

Description ICMPv6 code number

Type: number

Range: 0-254

Mutual Exclusion: icmpv6-code and special-v6-code are mutually exclusive

icmpv6-type

Description ICMPv6 type number

Type: number

Range: 0-254

Mutual Exclusion: icmpv6-type and special-v6-type are mutually exclusive

lt-dst-port

Description Lower than the port number

Type: number

Range: 2-65535

lt-src-port

Description Lower than the port number

Type: number

Range: 2-65535

obj-grp-service

Description service object group

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Mutual Exclusion: obj-grp-service and service-any are mutually exclusive

Reference Object: */axapi/v3/object-group/service*

port-num-end-dst

Description Ending Port Number

Type: number

Range: 1-65535

port-num-end-src

Description Ending Port Number

Type: number

Range: 1-65535

proto-id

Description Protocol ID

Type: number

Range: 0-255

Mutual Exclusion: proto-id and service-any are mutually exclusive

protocols

Description 'tcp': tcp; 'udp': udp; 'sctp': sctp;

Type: string

Supported Values: tcp, udp, sctp

Mutual Exclusion: protocols and service-any are mutually exclusive

range-dst-port

Description Port range (Starting Port Number)

Type: number

Range: 1-65535

range-src-port

Description Port range (Starting Port Number)

Type: number

Range: 1-65535

sctp-template

Description SCTP Template

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/template/sctp*

special-code

Description 'any-code': Any ICMP code; 'frag-required': Code 4, fragmentation required; 'host-unreachable': Code 1, destination host unreachable; 'network-unreachable': Code 0, destination network unreachable; 'port-unreachable': Code 3, destination port unreachable; 'proto-unreachable': Code 2, destination protocol unreachable; 'route-failed': Code 5, source route failed;

Type: string

Supported Values: any-code, frag-required, host-unreachable, network-unreachable, port-unreachable, proto-unreachable, route-failed

Mutual Exclusion: special-code and icmp-code are mutually exclusive

special-type

Description 'any-type': Any ICMP type; 'echo-reply': Type 0, echo reply; 'echo-request': Type 8, echo request; 'info-reply': Type 16, information reply; 'info-request': Type 15, information request; 'mask-reply': Type 18, address mask reply; 'mask-request': Type 17, address mask request; 'parameter-problem': Type 12, parameter problem; 'redirect': Type 5,

redirect message; 'source-quench': Type 4, source quench; 'time-exceeded': Type 11, time exceeded; 'timestamp': Type 13, timestamp; 'timestamp-reply': Type 14, timestamp reply; 'dest-unreachable': Type 3, destination unreachable;

Type: string

Supported Values: any-type, echo-reply, echo-request, info-reply, info-request, mask-reply, mask-request, parameter-problem, redirect, source-quench, time-exceeded, timestamp, timestamp-reply, dest-unreachable

Mutual Exclusion: special-type and icmp-type are mutually exclusive

special-v6-code

Description 'any-code': Any ICMPv6 code; 'addr-unreachable': Code 3, address unreachable; 'admin-prohibited': Code 1, admin prohibited; 'no-route': Code 0, no route to destination; 'not-neighbour': Code 2, not neighbor; 'port-unreachable': Code 4, destination port unreachable;

Type: string

Supported Values: any-code, addr-unreachable, admin-prohibited, no-route, not-neighbour, port-unreachable

Mutual Exclusion: special-v6-code and icmpv6-code are mutually exclusive

special-v6-type

Description 'any-type': Any ICMPv6 type; 'dest-unreachable': Type 1, destination unreachable; 'echo-reply': Type 129, echo reply; 'echo-request': Type 128, echo request; 'packet-too-big': Type 2, packet too big; 'param-prob': Type 4, parameter problem; 'time-exceeded': Type 3, time exceeded;

Type: string

Supported Values: any-type, dest-unreachable, echo-reply, echo-request, packet-too-big, param-prob, time-exceeded

Mutual Exclusion: special-v6-type and icmpv6-type are mutually exclusive

2.144.6 traffic-control rule-set rule action-group

Configure action-group

action-group Specification

Parameter	Value
Type	*Configuration Resource*
Element Name	action-group
Element URI	/axapi/v3/traffic-control/rule-set/{name}/rule/{name}/action-group

]

filter-rule attributes

dst-addr

Description Destination IPv4 address with prefix

Type: string

Format: ipv4-cidr

dst-port

Description Destination port

Type: number

Range: 1-65535

dst-v6-addr

Description Destination IPv6 address with prefix

Type: string

Format: ipv6-address-plen

dst-v6-port

Description Destination port

Type: number

Range: 1-65535

id

Description filter rule id

Type: number

Range: 1-4

src-addr

Description Source IPv4 address with prefix

Type: string

Format: ipv4-cidr

src-port

Description Source port

Type: number

Range: 1-65535

src-v6-addr

Description Source IPv6 address with prefix

Type: string

Format: ipv6-address-plen

src-v6-port

Description Source port

Type: number

Range: 1-65535

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

offload-list

Specification	Value
Type	*list*
Block object keys	

application

Description 'upgrade': Image transfer during upgrade;

Type: string

Supported Values: upgrade

protocol

Description 'scp': Use scp;

Type: string

Supported Values: scp

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vcs-summary

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vmaster-take-over

Specification	Value
Type	*object*

vmaster-take-over

Description vMaster take over priority

Type: number

Range: 1-255

vcs-para

Specification	Value
Type	*object*

chassis-id

Description Chassis ID

Type: number

Range: 1-8

config-info

Description Configuration information (Configuration tag)

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

config-seq

Description Configuration sequence number

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

dead-interval

Description The node will be considered dead as lack of hearbeats after this time (in unit of second, 10 by default)

Type: number

Range: 0-240

Default: 10

dead-interval-mseconds

Description The node will be considered dead as lack of hearbeats after this time (milisecond) (in unit of msecond, default is 0)

Type: number

Range: 100-900

failure-retry-count-value

Description 0-255, default is 2

Type: number

Range: 0-255

Default: 2

Mutual Exclusion: failure-retry-count-value and forever are mutually exclusive

floating-ip-cfg

Type: List

floating-ipv6-cfg

Type: List

force-wait-interval

Description The node will wait the specified time interval before it start aVCS (in unit of second (default is 5))

Type: number

Range: 5-240

Default: 5

forever

Description VCS retry forever if fails to join the chassis

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: forever and failure-retry-count-value are mutually exclusive

hold-preemption-interval

Description The VCS Node will hold specified time interval before it start to challenge peer(s) for Mastership (in unit of second (default is 60))

Type: number

Range: 30-600

Default: 60

link-poll-timeout

Description

Type: number

Range: 500-10000

memory-stat-interval

Description Interval of aVCS memory statistics record (minutes)

Type: number

Range: 0-120

Default: 30

multicast-ip

Description Multicast (group) IP address (Multicast IP address)

Type: string

Format: ipv4-address

Default: 224.0.0.211

Mutual Exclusion: multicast-ip and multicast-ipv6 are mutually exclusive

multicast-ipv6

Description Multicast (group) IPv6 address (Multicast IPv6 address)

Type: string

Format: ipv6-address

Mutual Exclusion: multicast-ipv6 and multicast-ip are mutually exclusive

multicast-port

Description Port used in multicast communication (Port number)

Type: number

Range: 1-65535

Default: 41217

size

Description file size (MBytes) to transmit to monitor the TCP channel

Type: number

Range: 10-2000

slog-level

Description Set the level of slog for aVCS

Type: number

Range: 1-8

Default: 7

slog-method

Description Set the print method of slog for aVCS

Type: number

Range: 0-2

Default: 1

speed_limit

Description speed (KByte/s) limitation for the transmit monitor

Type: number

Range: 5-1000

ssl-cert

Description Specify the cert file name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

ssl-config

Description Configure SSL

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-enable

Description Enable SSL

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-key

Description Specify the key file name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

tcp-channel-monitor

Description Enable vBlade TCP channel monitor

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

time-interval

Description how long between heartbeats (in unit of second, default is 3)

Type: number

Range: 0-60

Default: 3

time-interval-mseconds

Description how long between heartbeats (mseconds) (in unit of milisecond, default is 0)

Type: number

Range: 200-900

transmit-fragment-size

Description Set the fragment size (KByte) of the aVCS transmit

Type: number

Range: 500-20000

Default: 6000

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vcs-para_floating-ipv6-cfg

Specification	Value
Type	*list*
Block object keys	

floating-ipv6

Description Floating IPv6 address

Type: string

Format: ipv6-address-plen

vcs-para_floating-ip-cfg

Specification	Value
Type	*list*
Block object keys	

floating-ip

Description Floating IP address (IPv4 address)

Type: string

Format: ipv4-address

floating-ip-mask

Description Netmask

Type: string

Format: ipv4-netmask

showdebug

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

reload

Specification	Value
Type	*object*

cluster-discovery

Description apply the configuration change on the aVCS cluster

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

complete

Description

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

db-safe

Description keep database safe

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

device

Description Reload a specific device when VCS is enabled (device id)

Type: number

disable-merge

Description don't merge this vBlade's configuration to aVCS chassis

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

force

Description force to complete

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

start

Description

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

timeout

Description automatically complete the db-safe mode when timeout

Type: number

Range: 5-300

debug

Specification	Value
Type	*object*

daemon

Description Daemon component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

daemon_msg

Description Daemon message component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

election

Description Election component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

election_pdu

Description Election pdu component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

encoder

Description Encoder component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

handler

Description Handler component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

info

Description Information component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

lib

Description Lib component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

net

Description Net component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl

Description SSL component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

util

Description Utility component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

vblade

Description vBlade component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

vblade_msg

Description vBlade Message component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

vmaster

Description vMaster component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

vmaster_msg

Description vMaster Message component

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stat

Specification	Value
Type	*object*

sampling-enable

Type: List

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

stat_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'elect_recv_err': Receive error counter of aVCS election; 'elect_send_err': Send error counter of aVCS election; 'elect_recv_byte': Receive bytes counter of aVCS election; 'elect_send_byte': Send bytes counter of aVCS election; 'elect_pdu_master_recv': Received vMaster-PDU counter of aVCS election; 'elect_pdu_master_cand_recv': Received MC-PDU counter of aVCS election; 'elect_pdu_slave_recv': Received vBlade-PDU counter of aVCS election; 'elect_pdu_master_take_over_recv': Received MTO-PDU counter of aVCS election; 'elect_pdu_unknown_recv': Received Unknown-PDU counter of aVCS election; 'elect_pdu_master_sent': Sent vMaster-PDU counter of aVCS election; 'elect_pdu_master_cand_sent': Sent MC-PDU counter of aVCS election; 'elect_pdu_slave_sent': Sent vBlade-PDU counter of aVCS election; 'elect_pdu_master_take_over_sent': Sent MTO-PDU counter of aVCS election;

'elect_pdu_unknown_sent': Sent Unknown-PDU counter of aVCS election; 'elect_pdu_inval': Invalid PDU counter of aVCS election; 'elect_pdu_hw_mismatch': PDU HW mismatch counter of aVCS election; 'elect_pdu_cluster_mismatch': PDU Chassis-ID mismatch counter of aVCS election; 'elect_pdu_dev_id_collision': PDU Device-ID collision counter of aVCS election; 'elect_mc_discard_master': MC discarded vMaster-PDU counter of aVCS election; 'elect_mc_replace_master': MC replaced vMaster-PDU counter of aVCS election; 'elect_mc_dup_masterr': MC duplicate vMaster-PDU counter of aVCS election; 'elect_mc_reset_timer_by_mc': MC timers reset by MC-PDU counter of aVCS election; 'elect_mc_reset_timer_by_mto': MC timers reset by MTO-PDU counter of aVCS election; 'elect_slave_dup_master': vBlade duplicate vMaster-PDU counter of aVCS election; 'elect_slave_discard_challenger': vBlade discard challenger counter of aVCS election; 'elect_slave_replace_challenger': vBlade replace challenger counter of aVCS election; 'elect_slave_dup_challenger': vBlade duplicate challenger counter of aVCS election; 'elect_slave_discard_neighbour': vBlade discard neighbour counter of aVCS election; 'elect_slave_too_many_neighbour': vBlade too many neighbours counter of aVCS election; 'elect_slave_dup_neighbour': send vBlade duplicate neighbours of aVCS election; 'elect_master_discard_challenger': vMaster discard challenger counter of aVCS election; 'elect_master_new_challenger': vMaster new challenger counter of aVCS election; 'elect_master_replace_challenger': vMaster replace challenger counter of aVCS election; 'elect_master_dup_challenger': vMaster duplicate challenger counter of aVCS election; 'elect_master_discard_neighbour': vMaster discard neighbour counter of aVCS election; 'elect_master_too_many_neighbour': vMaster too many neighbours counter of aVCS election; 'elect_master_dup_neighbour': vMaster duplicate neighbours counter of aVCS election; 'elect_enter_master_cand_stat': Enter MC counter of aVCS election; 'elect_enter_slave': Enter vBlade counter of aVCS election; 'elect_enter_master': Enter vMaster counter of aVCS election; 'elect_enter_master_take_over': Enter MTO counter of aVCS election; 'elect_leave_master_cand': Leave MC counter of aVCS election; 'elect_leave_slave': Leave vBlade counter of aVCS election; 'elect_leave_master': Leave vMaster counter of aVCS election; 'elect_leave_master_take_over': Leave MTO counter of aVCS election; 'master_slave_start_err': vMaster Start vBlade Errors counter of aVCS election; 'master_slave_start': vMaster vBlades Started counter of aVCS election; 'master_slave_stop': vMaster vBlades stopped counter of aVCS election; 'master_cfg_upd': Received vMaster Configuration Updates counter of aVCS election; 'master_cfg_upd_l_fail': vMaster Local Configuration Update Errors counter of aVCS election; 'master_cfg_upd_r_fail': vMaster Remote Configuration Update Errors counter of aVCS election; 'master_cfg_upd_notif_err': vMaster Configuration Update Notif Errors counter of aVCS election; 'master_cfg_upd_result_err': vMaster Configuration Update Result Errors counter of aVCS election; 'slave_recv_err': vBlade Receive Errors counter of aVCS election; 'slave_send_err': vBlade Send Errors counter of aVCS election; 'slave_recv_bytes': vBlade Received Bytes counter of aVCS election; 'slave_sent_bytes': vBlade Sent Bytes counter of aVCS election; 'slave_n_recv': vBlade Received Messages counter of aVCS election; 'slave_n_sent': vBlade Sent Messages counter of aVCS election; 'slave_msg_inval': vBlade Invalid Messages counter of aVCS election; 'slave_keepalive': vBlade Received Keepalives counter of aVCS election; 'slave_cfg_upd': vBlade Received Configuration Updates counter of aVCS election; 'slave_cfg_upd_fail': vBlade Configuration Update Failures counter of aVCS election; 'daemon_n_elec_start': times of aVCS election start; 'daemon_n_elec_stop': times of aVCS election stop; 'daemon_recv_err': counter of aVCS daemon receive error; 'daemon_send_err': counter of aVCS daemon sent error; 'daemon_recv_bytes': bytes of aVCS daemon receive; 'daemon_sent_bytes': bytes of aVCS daemon sent; 'daemon_n_recv': counter of aVCS daemon receive; 'daemon_n_sent': counter of aVCS daemon sent; 'daemon_msg_inval': counter of aVCS daemon invalid message; 'daemon_msg_handle_failure': counter of aVCS daemon message handle failure;

Type: string

Supported Values: all, elect_recv_err, elect_send_err, elect_recv_byte, elect_send_byte, elect_pdu_master_recv, elect_pdu_master_cand_recv, elect_pdu_slave_recv, elect_pdu_master_take_over_recv, elect_pdu_unknown_recv, elect_pdu_master_sent, elect_pdu_master_cand_sent, elect_pdu_slave_sent, elect_pdu_master_take_over_sent, elect_pdu_unknown_sent, elect_pdu_inval, elect_pdu_hw_mismatch, elect_pdu_cluster_mismatch, elect_pdu_dev_id_collision, elect_mc_discard_master, elect_mc_replace_master, elect_mc_dup_masterr, elect_mc_reset_timer_by_mc, elect_mc_reset_timer_by_mto, elect_slave_dup_master, elect_slave_discard_challenger, elect_slave_replace_challenger, elect_slave_dup_challenger, elect_slave_discard_neighbour, elect_slave_too_many_neighbour, elect_slave_dup_neighbour, elect_master_discard_challenger, elect_master_new_challenger, elect_master_replace_challenger, elect_master_dup_challenger, elect_master_discard_neighbour, elect_master_too_many_neighbour, elect_master_dup_neighbour, elect_enter_master_cand_stat, elect_enter_slave, elect_enter_master, elect_enter_master_take_over, elect_leave_master_cand, elect_leave_slave, elect_leave_master, elect_leave_master_take_over, master_slave_start_err, master_slave_start, master_slave_stop, master_cfg_upd, master_cfg_upd_l_fail, master_cfg_upd_r_fail, master_cfg_upd_notif_err, master_cfg_upd_result_err, slave_recv_err, slave_send_err, slave_recv_bytes, slave_sent_bytes, slave_n_recv, slave_n_sent, slave_msg_inval, slave_keepalive, slave_cfg_upd, slave_cfg_upd_fail, daemon_n_elec_start, daemon_n_elec_stop, daemon_recv_err, daemon_send_err, daemon_recv_bytes, daemon_sent_bytes, daemon_n_recv, daemon_n_sent, daemon_msg_inval, daemon_msg_handle_failure

device-list

Specification	Value
Type	*list*
Block object keys	

affinity-vrrp-a-vrid

Description vrid-group

Type: number

Range: 0-31

device

Description Device ID

Type: number

enable

Description Enable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ethernet-cfg

Type: List

management

Description Management interface

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

priority

Description Device priority

Type: number

Range: 1-255

trunk-cfg

Type: List

ttl

Description TTL of the VCS packet

Type: number

Range: 1-128

Default: 64

unicast-port

Description Port used in unicast communication (Port number)

Type: number

Range: 1024-65535

Default: 41216

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

ve-cfg

Type: List

device-list_ethernet-cfg

Specification	Value
Type	*list*
Block object keys	

ethernet

Description Ethernet (Ethernet interface number)

Type: number

Format: interface

Maximum Length: 1 characters

unicast-election_members_ip-address-cfg

Specification	Value
Type	*list*
Block object keys	

ip-address

Description IP Address of the member

Type: string

Format: ipv4-address

Mutual Exclusion: ip-address and ipv6-address are mutually exclusive

use-mgmt-port

Description Use management port for connections in different subnet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unicast-election_members_ipv6-address-cfg

Specification	Value
Type	*list*
Block object keys	

ipv6-address

Description IPV6 address of the member

Type: string

Format: ipv6-address

Mutual Exclusion: ipv6-address and ip-address are mutually exclusive

use-mgmt-port

Description Use management port for connections in different subnet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

discovery-mode

Specification	Value
Type	*object*

action

Description 'Unicast': enable VCS Unicast election; 'Mcast': enable VCS Multicast election; 'Mixed': enable VCS Multicast/Unicastelection;

Type: string

Supported Values: Unicast, Mcast, Mixed

Default: Mcast

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

action

Specification	Value
Type	*object*

action

Description 'enable': enable VCS; 'disable': disable VCS;

Type: string

Supported Values: enable, disable

Default: disable

database-distribution

Description 'enable': enable database cluster distribution; 'disable': disable database cluster distribution;

Type: string

Supported Values: enable, disable

Default: disable

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vMaster-maintenance

Specification	Value
Type	*object*

vMaster-maintenance

Description the seconds vMaster will be maintained, 60 by default

Type: number

Range: 0-3600

Default: 60

Maximum Length: 1 characters

members_ip-address-cfg

Specification	Value
Type	*list*
Block object keys	

ip-address

Description IP Address of the member

Type: string

Format: ipv4-address

Mutual Exclusion: ip-address and ipv6-address are mutually exclusive

use-mgmt-port

Description Use management port for connections in different subnet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

members_ipv6-address-cfg

Specification	Value
Type	*list*
Block object keys	

ipv6-address

Description IPV6 address of the member

Type: string

Format: ipv6-address

Mutual Exclusion: ipv6-address and ip-address are mutually exclusive

use-mgmt-port

Description Use management port for connections in different subnet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

vcs-para attributes

chassis-id

Description Chassis ID

Type: number

Range: 1-8

config-info

Description Configuration information (Configuration tag)

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

config-seq

Description Configuration sequence number

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

dead-interval

Description The node will be considered dead as lack of hearbeats after this time (in unit of second, 10 by default)

Type: number

Range: 0-240

Default: 10

dead-interval-mseconds

Description The node will be considered dead as lack of hearbeats after this time (milisecond) (in unit of msecond, default is 0)

Type: number

Range: 100-900

failure-retry-count-value

Description 0-255, default is 2

Type: number

Range: 0-255

Default: 2

Mutual Exclusion: failure-retry-count-value and forever are mutually exclusive

floating-ip-cfg

Type: List

floating-ipv6-cfg

Type: List

force-wait-interval

Description The node will wait the specified time interval before it start aVCS (in unit of second (default is 5))

Type: number

Range: 5-240

Default: 5

forever

Description VCS retry forever if fails to join the chassis

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Mutual Exclusion: forever and failure-retry-count-value are mutually exclusive

hold-preemption-interval

Description The VCS Node will hold specified time interval before it start to challenge peer(s) for Mastership (in unit of second (default is 60))

Type: number

Range: 30-600

Default: 60

link-poll-timeout

Description

Type: number

Range: 500-10000

memory-stat-interval

Description Interval of aVCS memory statistics record (minutes)

Type: number

Range: 0-120

Default: 30

multicast-ip

Description Multicast (group) IP address (Multicast IP address)

Type: string

Format: ipv4-address

Default: 224.0.0.211

Mutual Exclusion: multicast-ip and multicast-ipv6 are mutually exclusive

multicast-ipv6

Description Multicast (group) IPv6 address (Multicast IPv6 address)

Type: string

Format: ipv6-address

Mutual Exclusion: multicast-ipv6 and multicast-ip are mutually exclusive

multicast-port

Description Port used in multicast communication (Port number)

Type: number

Range: 1-65535

Default: 41217

size

Description file size (MBytes) to transmit to monitor the TCP channel

Type: number

Range: 10-2000

slog-level

Description Set the level of slog for aVCS

Type: number

Range: 1-8

Default: 7

slog-method

Description Set the print method of slog for aVCS

Type: number

Range: 0-2

Default: 1

speed_limit

Description speed (KByte/s) limitation for the transmit monitor

Type: number

Range: 5-1000

ssl-cert

Description Specify the cert file name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

ssl-config

Description Configure SSL

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-enable

Description Enable SSL

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-key

Description Specify the key file name

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

tcp-channel-monitor

Description Enable vBlade TCP channel monitor

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

time-interval

Description how long between heartbeats (in unit of second, default is 3)

Type: number

Range: 0-60

Default: 3

time-interval-mseconds

Description how long between heartbeats (mseconds) (in unit of milisecond, default is 0)

Type: number

Range: 200-900

transmit-fragment-size

Description Set the fragment size (KByte) of the aVCS transmit

Type: number

Range: 500-20000

Default: 6000

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

floating-ipv6-cfg

Specification	Value
Type	*list*
Block object keys	

floating-ipv6

Description Floating IPv6 address

Type: string

Format: ipv6-address-plen

floating-ip-cfg

Specification	Value
Type	*list*
Block object keys	

floating-ip

Description Floating IP address (IPv4 address)

Type: string

Format: ipv4-address

floating-ip-mask

Description Netmask

Type: string

Format: ipv4-netmask

Description: zbar is a **JSON Block**. Please see below for *zbar*

Type: Object

Reference Object: */axapi/v3/visibility/zbar*

flow-collector

Specification	Value
Type	*object*

netflow

Description: netflow is a **JSON Block**. Please see below for *flow-collector_netflow*

Type: Object

Reference Object: */axapi/v3/visibility/flow-collector/netflow*

sflow

Description: sflow is a **JSON Block**. Please see below for *flow-collector_sflow*

Type: Object

Reference Object: */axapi/v3/visibility/flow-collector/sflow*

flow-collector_netflow

Specification	Value
Type	*object*

sampling-enable

Type: List

template

Description: template is a **JSON Block**. Please see below for *flow-collector_netflow_template*

Type: Object

Reference Object: */axapi/v3/visibility/flow-collector/netflow/template*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

flow-collector_netflow_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'pkts-rcvd': Total nflow packets received; 'v9-templates-created': Total v9 templates created; 'v9-templates-deleted': Total v9 templates deleted; 'v10-templates-created': Total v10(IPFIX) templates created; 'v10-templates-deleted': Total v10(IPFIX) templates deleted; 'template-drop-exceeded': Total templates dropped because of maximum limit; 'template-drop-out-of-memory': Total templates dropped becuase of out of memory; 'frag-dropped': Total nflow fragment packets dropped; 'agent-not-found': nflow pkts from not configured agents; 'version-not-supported': nflow version not supported; 'unknown-dir': nflow sample direction is unknown;

Type: string

Supported Values: all, pkts-rcvd, v9-templates-created, v9-templates-deleted, v10-templates-created, v10-templates-deleted, template-drop-exceeded, template-drop-out-of-memory, frag-dropped, agent-not-found, version-not-supported, unknown-dir

flow-collector_netflow_template

Specification	Value
Type	*object*

detail

Description: detail is a **JSON Block**. Please see below for *flow-collector_netflow_template_detail*

Type: Object

Reference Object: */axapi/v3/visibility/flow-collector/netflow/template/detail*

sampling-enable

Type: List

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

flow-collector_netflow_template_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'templates-added-to-delq': Netflow templates added to the delete queue; 'templates-removed-from-delq': Netflow templates removed from the delete queue;

Type: string

Supported Values: all, templates-added-to-delq, templates-removed-from-delq

flow-collector_netflow_template_detail

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

flow-collector_sflow

Specification	Value
Type	*object*

sampling-enable

Type: List

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

flow-collector_sflow_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'pkts-received': Total sflow pkts received; 'frag-dropped': Total sflow fragment packets droppped; 'agent-not-found': sflow pkts from not configured agents; 'version-not-supported': sflow version not supported; 'unknown-dir': sflow sample direction is unknown;

Type: string

Supported Values: all, pkts-received, frag-dropped, agent-not-found, version-not-supported, unknown-dir

resource-usage

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

reporting

Specification	Value
Type	*object*

sampling-enable

Type: List

session-logging

Description 'enable': Enable session logging; 'disable': Disable session logging(default);

Type: string

Supported Values: enable, disable

Default: disable

telemetry-export-interval

Description: telemetry-export-interval is a **JSON Block**. Please see below for *reporting_telemetry-export-interval*

Type: Object

Reference Object: */axapi/v3/visibility/reporting/telemetry-export-interval*

template

Description: template is a **JSON Block**. Please see below for *reporting_template*

Type: Object

Reference Object: */axapi/v3/visibility/reporting/template*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

reporting_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'log-transmit-failure': Total log transmit failures; 'buffer-alloc-failure': Total reporting buffer allocation failures; 'notif-jobs-in-queue': Total notification jobs in queue; 'enqueue-fail': Total enqueue jobs failed; 'enqueue-pass': Total enqueue jobs passed; 'dequeued': Total jobs dequeued;

Type: string

Supported Values: all, log-transmit-failure, buffer-alloc-failure, notif-jobs-in-queue, enqueue-fail, enqueue-pass, dequeued

reporting_template

Specification	Value
Type	*object*

notification

Description: notification is a **JSON Block**. Please see below for *reporting_template_notification*

Type: Object

Reference Object: */axapi/v3/visibility/reporting/template/notification*

reporting_template_notification

Specification	Value
Type	*object*

debug

Description: debug is a **JSON Block**. Please see below for *reporting_template_notification_debug*

Type: Object

Reference Object: */axapi/v3/visibility/reporting/template/notification/debug*

template-name-list

Type: List

Reference Object: */axapi/v3/visibility/reporting/template/notification/template-name/{name}*

reporting_template_notification_debug

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

reporting_template_notification_template-name-list

Specification	Value
Type	*list*
Block object keys	

action

Description 'enable': Enable; 'disable': Disable;

Type: string

Supported Values: enable, disable

Default: enable

authentication

Description: authentication is a **JSON Block**. Please see below for *reporting_template_notification_template-name-list_authentication*

Type: Object

Reference Object: */axapi/v3/visibility/reporting/template/notification/template-name/{name}/authentication*

debug-mode

Description Enable debug mode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

host-name

Description Configure the host name(e.g www.a10networks.com)

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Mutual Exclusion: host-name, ipv4-address, and ipv6-address are mutually exclusive

http-port

Description Configure the http port to use(default 80) (http port(default 80))

Type: number

Range: 1-65535

Default: 80

https-port

Description Configure the https port to use(default 443) (http port(default 443))

Type: number

Range: 1-65535

Default: 443

ipv4-address

Description Configure the host IPv4 address

Type: string

Format: ipv4-address

Mutual Exclusion: ipv4-address, ipv6-address, and host-name are mutually exclusive

ipv6-address

Description Configure the host IPv6 address

Type: string

Format: ipv6-address

Mutual Exclusion: ipv6-address, ipv4-address, and host-name are mutually exclusive

name

Description Notification template name

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

protocol

Description 'http': Use http protocol; 'https': Use https protocol(default); (http protocol)

Type: string

Supported Values: http, https

Default: https

relative-uri

Description Configure the relative uri(e.g /example , default /)

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Default: /

sampling-enable

Type: List

test-connectivity

Description Test connectivity to notification receiver

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

use-mgmt-port

Description Use management port for notifications

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

reporting_template_notification_template-name-list_authentication

Specification	Value
Type	*object*

api-key

Description Configure api-key as a mode of authentication

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

api-key-encrypted

Description Do NOT use this option manually. (This is an A10 reserved keyword.) (The ENCRYPTED secret string)

api-key-string

Description Configure api-key as a mode of authentication

Type: string

Format: password

Maximum Length: 64 characters

Maximum Length: 1 characters

auth-password

Description Configure the authentication user password (Authentication password)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

auth-password-string

Description Configure the authentication user password (Authentication password)

Type: string

Format: password

Maximum Length: 63 characters

Maximum Length: 1 characters

auth-username

Description Configure the authentication user name

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

encrypted

Description Do NOT use this option manually. (This is an A10 reserved keyword.) (The ENCRYPTED secret string)

relative-login-uri

Description Configure the authentication login uri

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

relative-logoff-uri

Description Configure the authentication logoff uri

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

reporting_template_notification_template-name-list_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'sent_successful': Sent successful; 'send_fail': Send failures; 'response_fail': Response failures;

Type: string

Supported Values: all, sent_successful, send_fail, response_fail

reporting_telemetry-export-interval

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

value

Description Monitored entity telemetry data export interval in mins (Default 5 mins)

Type: number

Range: 1-5

Default: 5

mon-entity-telemetry-data

Specification	Value
Type	*object*

sampling-enable

Type: List

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

mon-entity-telemetry-data_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'in_pkts': Monitored Entity telemetry Metric IN pkts; 'out_pkts': Monitored Entity telemetry Metric OUT pkts; 'in_bytes': Monitored Entity telemetry Metric IN bytes; 'out_bytes': Monitored Entity telemetry Metric OUT bytes; 'errors': Monitored Entity telemetry Metric ERRORS; 'in_small_pkt': Monitored Entity telemetry Metric IN SMALL pkt; 'in_frag': Monitored Entity telemetry Metric IN frag; 'out_small_pkt': Monitored Entity telemetry Metric OUT SMALL pkt; 'out_frag': Monitored Entity telemetry Metric OUT frag; 'new-conn': Monitored Entity telemetry Metric New Sessions; 'avg_data_cpu_util': Monitored Entity telemetry Metric Average data CPU utilization; 'outside_intf_util': Monitored Entity telemetry Metric Outside interface utilization; 'concurrent-conn': some help string; 'in_bytes_per_out_bytes': Monitored Entity telemetry Metric IN bytes per OUT bytes; 'drop_pkts_per_pkts': Monitored Entity telemetry Metric Drop pkts per pkts; 'tcp_in_syn': Monitored Entity telemetry Metric TCP IN syn; 'tcp_out_syn': Monitored Entity telemetry Metric TCP OUT syn; 'tcp_in_fin': Monitored Entity telemetry Metric TCP IN fin; 'tcp_out_fin': Monitored Entity telemetry Metric TCP OUT fin; 'tcp_in_payload': Monitored Entity telemetry Metric TCP IN payload; 'tcp_out_payload': Monitored Entity telemetry Metric TCP OUT payload; 'tcp_in_rexmit': Monitored Entity telemetry Metric TCP IN rexmit; 'tcp_out_rexmit': Monitored Entity telemetry Metric TCP OUT rexmit; 'tcp_in_rst': Monitored Entity telemetry Metric TCP IN rst; 'tcp_out_rst': Monitored Entity telemetry Metric TCP OUT rst; 'tcp_in_empty_ack': Monitored Entity telemetry Metric TCP_IN EMPTY ack; 'tcp_out_empty_ack': Monitored Entity telemetry Metric TCP OUT EMPTY ack; 'tcp_in_zero_wnd': Monitored Entity telemetry Metric TCP IN ZERO wnd; 'tcp_out_zero_wnd': Monitored Entity telemetry Metric TCP OUT ZERO wnd; 'tcp_conn_miss': Monitored Entity telemetry Metric TCP connection miss; 'tcp_fwd_syn_per_fin': Monitored Entity telemetry Metric TCP FWD SYN per FIN;

Type: string

Supported Values: all, in_pkts, out_pkts, in_bytes, out_bytes, errors, in_small_pkt, in_frag, out_small_pkt, out_frag, new-conn, avg_data_cpu_util, outside_intf_util, concurrent-conn, in_bytes_per_out_bytes, drop_pkts_per_pkts, tcp_in_syn, tcp_out_syn, tcp_in_fin, tcp_out_fin, tcp_in_payload, tcp_out_payload, tcp_in_rexmit, tcp_out_rexmit, tcp_in_rst, tcp_out_rst, tcp_in_empty_ack, tcp_out_empty_ack, tcp_in_zero_wnd, tcp_out_zero_wnd, tcp_conn_miss, tcp_fwd_syn_per_fin

port-scan-detection

Specification	Value
Type	*object*

events

Description Number of scanned port events (default 10)

Type: number

Range: 10-300

Default: 10

interval

Description Time interval for port scan detection (default 60)

Type: number

Range: 1-300

Default: 60

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

v4-list

Description Class list of ipv4 addresses to be whitelisted

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/class-list*

v6-list

Description Class list of ipv6 addresses to be whitelisted

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/class-list*

ping-sweep-detection

Specification	Value
Type	*object*

events

Description Number of scanned ip events (default 10)

Type: number

Range: 10-300

Default: 10

interval

Description Time interval for ip sweep detection (default 60)

Type: number

Range: 1-300

Default: 60

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

v4-list

Description Class list of ipv4 addresses to be whitelisted

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/class-list*

v6-list

Description Class list of ipv6 addresses to be whitelisted

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/class-list*

mon-topk

Specification	Value
Type	*object*

sources

Description: sources is a **JSON Block**. Please see below for *mon-topk_sources*

Type: Object

Reference Object: */axapi/v3/visibility/mon-topk/sources*

mon-topk_sources

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitored-entity

Specification	Value
Type	*object*

detail

Description: detail is a **JSON Block**. Please see below for *monitored-entity_detail*

Type: Object

Reference Object: */axapi/v3/visibility/monitored-entity/detail*

mon-topk

Description: mon-topk is a **JSON Block**. Please see below for *monitored-entity_mon-topk*

Type: Object

Reference Object: */axapi/v3/visibility/monitored-entity/mon-topk*

secondary

Description: secondary is a **JSON Block**. Please see below for *monitored-entity_secondary*

Type: Object

Reference Object: */axapi/v3/visibility/monitored-entity/secondary*

sessions

Description: sessions is a **JSON Block**. Please see below for *monitored-entity_sessions*

Type: Object

Reference Object: */axapi/v3/visibility/monitored-entity/sessions*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitored-entity_mon-topk

Specification	Value

Maximum Length: 1 characters

topn-size

Description Congure value of N for topn

Type: number

Range: 10-200

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

topn_gtp-apn-prefix-topn-tmpl-list_metrics

Specification	Value
Type	*object*

downlink-bytes

Description Track Top-N entities for Downlink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

downlink-pkts

Description Track Top-N entities for Downlink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-apn-filtering

Description Track Top-N entities for Filtering Drop: APN IMSI Filtering

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-gtp-in-gtp

Description Track Top-N entities for Filtering Drop: GTP in GTP Tunnel Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-message-filtering

Description Track Top-N entities for Filtering Drop: Message Type Not Permitted on Interface

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-msisdn-filtering

Description Track Top-N entities for Filtering Drop: MSISDN Filtering

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-rat-type-filtering

Description Track Top-N entities for Filtering Drop: RAT Type Filtering

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-downlink-byte

Description Track Top-N entities for Rate-limit Drop: GTP-U Downlink byte rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-downlink-packet

Description Track Top-N entities for Rate-limit Drop: GTP-U Downlink packet rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-max-concurrent-tunnels

Description Track Top-N entities for Rate-limit Drop: GTP-U Concurrent Tunnels

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-total-byte

Description Track Top-N entities for Rate-limit Drop: GTP-U Total byte rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-total-packet

Description Track Top-N entities for Rate-limit Drop: GTP-U Total packet rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-tunnel-create

Description Track Top-N entities for Rate-limit Drop: GTP-U Tunnel Creation rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-uplink-byte

Description Track Top-N entities for Rate-limit Drop: GTP-U Uplink byte rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-uplink-packet

Description Track Top-N entities for Rate-limit Drop: GTP-U Uplink packet rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v0-c-agg

Description Track Top-N entities for Rate-limit Drop: Maximum GTPv0-C messages rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v1-c-agg

Description Track Top-N entities for Rate-limit Drop: Maximum GTPv1-C messages rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v1-c-create-pdp-request

Description Track Top-N entities for Rate-limit Drop: GTPv1-C Create PDP Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v1-c-update-pdp-request

Description Track Top-N entities for Rate-limit Drop: GTPv1-C Update PDP Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v2-c-agg

Description Track Top-N entities for Rate-limit Drop: Maximum GTPv2-C messages rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v2-c-create-session-request

Description Track Top-N entities for Rate-limit Drop: GTPv2-C Create Session Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v2-c-modify-bearer-request

Description Track Top-N entities for Rate-limit Drop: GTPv2-C Modify Bearer Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-country-code-mismatch

Description Track Top-N entities for Validation Drop: Country Code Mismatch in IMSI and MSISDN

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-cross-layer-correlation

Description Track Top-N entities for Validation Drop: Cross Layer IP Address Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-bearer-count-exceed

Description Track Top-N entities for Validation Drop: GTP Bearer count exceeded max (11)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-apn-len-drop

Description Track Top-N entities for Validation Drop: GTP-C Invalid APN Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-imsi-len-drop

Description Track Top-N entities for Validation Drop: GTP-C Invalid IMSI Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-u-spoofed-source-address

Description Track Top-N entities for Validation Drop: GTP-U IP Address Spoofed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-v2-wrong-lbi-create-bearer

Description Track Top-N entities for Validation Drop: GTPV2-C Wrong LBI in Create Bearer Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv0-seqnum-buffer-full

Description Track Top-N entities for Validation Drop: GTPV0-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv1-seqnum-buffer-full

Description Track Top-N entities for Validation Drop: GTPV1-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv2-seqnum-buffer-full

Description Track Top-N entities for Validation Drop: GTPV2-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-flow-label-v0

Description Track Top-N entities for Validation Drop: Invalid Flow Label in GTPv0-C Header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-pkt-len-piggyback

Description Track Top-N entities for Validation Drop: Piggyback message invalid packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-teid

Description Track Top-N entities for Validation Drop: Invalid TEID Value

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-mandatory-information-element

Description Track Top-N entities for Validation Drop: Mandatory IE Not Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-message-length

Description Track Top-N entities for Validation Drop: Message Length Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-order-ie

Description Track Top-N entities for Validation Drop: GTPv1-C Message Out of Order IE

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state

Description Track Top-N entities for Validation Drop: Out Of State GTP Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state-ie

Description Track Top-N entities for Validation Drop: Unexpected IE Present in Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-protocol-flag-unset

Description Track Top-N entities for Validation Drop: Protocol flag in Header Field not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-field-set

Description Track Top-N entities for Validation Drop: Reserved Header Field Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-information-element

Description Track Top-N entities for Validation Drop: Reserved IE Field Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sanity-failed-piggyback

Description Track Top-N entities for Validation Drop: piggyback message anomaly failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sequence-num-correlation

Description Track Top-N entities for Validation Drop: GTP-C Sequence number Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-tunnel-id-flag

Description Track Top-N entities for Validation Drop: Tunnel Header Flag Not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-unsupported-message-type

Description Track Top-N entities for Validation Drop: Message type not supported by GTP Version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-version-not-supported

Description Track Top-N entities for Validation Drop: Invalid GTP version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-c-handover-in-progress-with-conn

Description Track Top-N entities for GTP-C matching a conn with Handover In Progress

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-path-management-message

Description Track Top-N entities for GTP Path Management Messages Received

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-tunnel-created

Description Track Top-N entities for GTP-U Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-tunnel-deleted

Description Track Top-N entities for GTP-U Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-create-pdp-resp-unsuccess

Description Track Top-N entities for GTPV0-C Create PDP Context Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-half-open-tunnel-closed

Description Track Top-N entities for GTPv0-C Half open tunnel closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-closed

Description Track Top-N entities for GTPv0-C Tunnel Marked Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-created

Description Track Top-N entities for GTPv0-C Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-deleted

Description Track Top-N entities for GTPv0-C Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-deleted-restart

Description Track Top-N entities for GTPv0-C Tunnel Deleted with Restart/failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-half-closed

Description Track Top-N entities for GTPv0-C Tunnel Delete Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-half-open

Description Track Top-N entities for GTPv0-C Half open tunnel created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-update-pdp-resp-unsuccess

Description Track Top-N entities for GTPV0-C Update PDP Context Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-create-pdp-resp-unsuccess

Description Track Top-N entities for GTPV1-C Create PDP Context Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-half-open-tunnel-closed

Description Track Top-N entities for GTPv1-C Half open tunnel closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-closed

Description Track Top-N entities for GTPv1-C Tunnel Marked Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-created

Description Track Top-N entities for GTPv1-C Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-deleted

Description Track Top-N entities for GTPv1-C Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-deleted-restart

Description Track Top-N entities for GTPv1-C Tunnel Deleted with Restart/failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-half-closed

Description Track Top-N entities for GTPv1-C Tunnel Delete Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-half-open

Description Track Top-N entities for GTPv1-C Half open tunnel created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-update-pdp-resp-unsuccess

Description Track Top-N entities for GTPV1-C Update PDP Context response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-create-sess-resp-unsuccess

Description Track Top-N entities for GTPV2-C Create Session Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-half-open-tunnel-closed

Description Track Top-N entities for GTPv2-C Half open tunnel closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-mod_bearer-resp-unsuccess

Description Track Top-N entities for GTPV2-C Modify Bearer Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-piggyback-message

Description Track Top-N entities for GTPv2-C Piggyback Messages seen

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-closed

Description Track Top-N entities for GTPv2-C Tunnel Marked Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-created

Description Track Top-N entities for GTPv2-C Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-deleted

Description Track Top-N entities for GTPv2-C Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-deleted-restart

Description Track Top-N entities for GTPv2-C Tunnel Deleted with Restart/failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-half-closed

Description Track Top-N entities for GTPv2-C Tunnel Delete Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-half-open

Description Track Top-N entities for GTPv2-C Half open tunnel created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rl-message-monitor

Description Track Top-N entities for GTP Message forwarded via monitor mode at rate-limit policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-downlink-bytes

Description Track Top-N entities for Downlink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-downlink-pkts

Description Track Top-N entities for GTP-U Downlink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-uplink-bytes

Description Track Top-N entities for Uplink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-uplink-pkts

Description Track Top-N entities for Uplink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uplink-bytes

Description Track Top-N entities for Uplink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uplink-pkts

Description Track Top-N entities for Uplink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

topn_gtp-network-element-topn-tmpl-list

Specification	Value
Type	*list*
Block object keys	

interval

Description '5': 5 minutes; '15': 15 minutes; '30': 30 minutes; '60': 60 minutes; 'all-time': Since template is activated;

Type: string

Supported Values: 5, 15, 30, 60, all-time

metrics

Description: metrics is a **JSON Block**. Please see below for *topn_gtp-network-element-topn-tmpl-list_metrics*

Type: Object

Reference Object: */axapi/v3/visibility/topn/gtp-network-element-topn-tmpl/{name}/metrics*

name

Description Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

topn-size

Description Congure value of N for topn

Type: number

Range: 10-200

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

topn_gtp-network-element-topn-tmpl-list_metrics

Specification	Value
Type	*object*

downlink-bytes

Description Track Top-N entities for Downlink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

downlink-pkts

Description Track Top-N entities for Downlink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-apn-filtering

Description Track Top-N entities for Filtering Drop: APN IMSI Filtering

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-gtp-in-gtp

Description Track Top-N entities for Filtering Drop: GTP in GTP Tunnel Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-message-filtering

Description Track Top-N entities for Filtering Drop: Message Type Not Permitted on Interface

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-msisdn-filtering

Description Track Top-N entities for Filtering Drop: MSISDN Filtering

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-flt-rat-type-filtering

Description Track Top-N entities for Filtering Drop: RAT Type Filtering

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-downlink-byte

Description Track Top-N entities for Rate-limit Drop: GTP-U Downlink byte rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-downlink-packet

Description Track Top-N entities for Rate-limit Drop: GTP-U Downlink packet rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-max-concurrent-tunnels

Description Track Top-N entities for Rate-limit Drop: GTP-U Concurrent Tunnels

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-total-byte

Description Track Top-N entities for Rate-limit Drop: GTP-U Total byte rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-total-packet

Description Track Top-N entities for Rate-limit Drop: GTP-U Total packet rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-tunnel-create

Description Track Top-N entities for Rate-limit Drop: GTP-U Tunnel Creation rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-uplink-byte

Description Track Top-N entities for Rate-limit Drop: GTP-U Uplink byte rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-u-uplink-packet

Description Track Top-N entities for Rate-limit Drop: GTP-U Uplink packet rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v0-c-agg

Description Track Top-N entities for Rate-limit Drop: Maximum GTPv0-C messages rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v1-c-agg

Description Track Top-N entities for Rate-limit Drop: Maximum GTPv1-C messages rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v1-c-create-pdp-request

Description Track Top-N entities for Rate-limit Drop: GTPv1-C Create PDP Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v1-c-update-pdp-request

Description Track Top-N entities for Rate-limit Drop: GTPv1-C Update PDP Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v2-c-agg

Description Track Top-N entities for Rate-limit Drop: Maximum GTPv2-C messages rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v2-c-create-session-request

Description Track Top-N entities for Rate-limit Drop: GTPv2-C Create Session Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-rl-gtp-v2-c-modify-bearer-request

Description Track Top-N entities for Rate-limit Drop: GTPv2-C Modify Bearer Req rate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-country-code-mismatch

Description Track Top-N entities for Validation Drop: Country Code Mismatch in IMSI and MSISDN

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-cross-layer-correlation

Description Track Top-N entities for Validation Drop: Cross Layer IP Address Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-apn-len-drop

Description Track Top-N entities for Validation Drop: GTP-C Invalid APN Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-imsi-len-drop

Description Track Top-N entities for Validation Drop: GTP-C Invalid IMSI Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-u-spoofed-source-address

Description Track Top-N entities for Validation Drop: GTP-U IP Address Spoofed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-v2-wrong-lbi-create-bearer

Description Track Top-N entities for Validation Drop: GTPV2-C Wrong LBI in Create Bearer Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv0-seqnum-buffer-full

Description Track Top-N entities for Validation Drop: GTPV0-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv1-seqnum-buffer-full

Description Track Top-N entities for Validation Drop: GTPV1-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv2-seqnum-buffer-full

Description Track Top-N entities for Validation Drop: GTPV2-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-flow-label-v0

Description Track Top-N entities for Validation Drop: Invalid Flow Label in GTPv0-C Header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-pkt-len-piggyback

Description Track Top-N entities for Validation Drop: Piggyback message invalid packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-teid

Description Track Top-N entities for Validation Drop: Invalid TEID Value

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-mandatory-information-element

Description Track Top-N entities for Validation Drop: Mandatory IE Not Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-message-length

Description Track Top-N entities for Validation Drop: Message Length Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-order-ie

Description Track Top-N entities for Validation Drop: GTPv1-C Message Out of Order IE

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state

Description Track Top-N entities for Validation Drop: Out Of State GTP Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state-ie

Description Track Top-N entities for Validation Drop: Unexpected IE Present in Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-protocol-flag-unset

Description Track Top-N entities for Validation Drop: Protocol flag in Header Field not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-field-set

Description Track Top-N entities for Validation Drop: Reserved Header Field Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-information-element

Description Track Top-N entities for Validation Drop: Reserved IE Field Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sanity-failed-piggyback

Description Track Top-N entities for Validation Drop: piggyback message anomaly failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sequence-num-correlation

Description Track Top-N entities for Validation Drop: GTP-C Sequence number Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-tunnel-id-flag

Description Track Top-N entities for Validation Drop: Tunnel Header Flag Not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-unsupported-message-type

Description Track Top-N entities for Validation Drop: Message type not supported by GTP Version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-version-not-supported

Description Track Top-N entities for Validation Drop: Invalid GTP version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop_vld-gtp-bearer-count-exceed

Description Track Top-N entities for Validation Drop: GTP Bearer count exceeded max (11)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-c-handover-in-progress-with-conn

Description Track Top-N entities for GTP-C matching a conn with Handover In Progress

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-path-management-message

Description Track Top-N entities for GTP Path Management Messages Received

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-tunnel-created

Description Track Top-N entities for GTP-U Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-tunnel-deleted

Description Track Top-N entities for GTP-U Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-create-pdp-resp-unsuccess

Description Track Top-N entities for GTPv0-C Create PDP Context Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-half-open-tunnel-closed

Description Track Top-N entities for GTPv0-C Half open tunnel closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-reserved-message-allow

Description Track Top-N entities for GTPv0-C Reserved Message Allow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-closed

Description Track Top-N entities for GTPv0-C Tunnel Marked Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-created

Description Track Top-N entities for GTPv0-C Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-deleted

Description Track Top-N entities for GTPv0-C Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-deleted-restart

Description Track Top-N entities for GTPv0-C Tunnel Deleted with Restart/failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-half-closed

Description Track Top-N entities for GTPv0-C Tunnel Delete Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-tunnel-half-open

Description Track Top-N entities for GTPv0-C Half open tunnel created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v0-c-update-pdp-resp-unsuccess

Description Track Top-N entities for GTPv0-C Update PDP Context Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-create-pdp-resp-unsuccess

Description Track Top-N entities for GTPv1-C Create PDP Context Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-half-open-tunnel-closed

Description Track Top-N entities for GTPv1-C Half open tunnel closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-reserved-message-allow

Description Track Top-N entities for GTPv1-C Reserved Message Allow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-closed

Description Track Top-N entities for GTPv1-C Tunnel Marked Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-created

Description Track Top-N entities for GTPv1-C Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-deleted

Description Track Top-N entities for GTPv1-C Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-deleted-restart

Description Track Top-N entities for GTPv1-C Tunnel Deleted with Restart/failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-half-closed

Description Track Top-N entities for GTPv1-C Tunnel Delete Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-tunnel-half-open

Description Track Top-N entities for GTPv1-C Half open tunnel created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v1-c-update-pdp-resp-unsuccess

Description Track Top-N entities for GTPv1-C Update PDP Context Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-create-sess-resp-unsuccess

Description Track Top-N entities for GTPv2-C Create Session Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-half-open-tunnel-closed

Description Track Top-N entities for GTPv2-C Half open tunnel closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-mod_bearer-resp-unsuccess

Description Track Top-N entities for GTPv2-C Modify Bearer Response Unsuccessful

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-piggyback-message

Description Track Top-N entities for GTPv2-C Piggyback Messages

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-reserved-message-allow

Description Track Top-N entities for GTPv2-C Reserved Message Allow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-closed

Description Track Top-N entities for GTPv2-C Tunnel Marked Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-created

Description Track Top-N entities for GTPv2-C Tunnel Created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-deleted

Description Track Top-N entities for GTPv2-C Tunnel Deleted

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-deleted-restart

Description Track Top-N entities for GTPv2-C Tunnel Deleted with Restart/failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-half-closed

Description Track Top-N entities for GTPv2-C Tunnel Delete Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-v2-c-tunnel-half-open

Description Track Top-N entities for GTPv2-C Half open tunnel created

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rl-message-monitor

Description Track Top-N entities for GTP Message forwarded via monitor mode at rate-limit policy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-downlink-bytes

Description Track Top-N entities for Downlink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-downlink-pkts

Description Track Top-N entities for GTP-U Downlink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-uplink-bytes

Description Track Top-N entities for Uplink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

u-uplink-pkts

Description Track Top-N entities for Uplink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uplink-bytes

Description Track Top-N entities for Uplink Bytes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uplink-pkts

Description Track Top-N entities for Uplink Packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'mon-entity-limit-exceed': Total monitor entity limit exceed failures; 'ha-entity-create-sent': Total montior entity HA create messages sent; 'ha-entity-delete-sent': Total montior entity HA delete messages sent; 'ha-entity-anomaly-on-sent': Total anomaly on HA messages sent; 'ha-entity-anomaly-off-sent': Total anomaly off HA messages sent; 'ha-entity-periodic-sync-sent': Total monitor entity periodic sync messages sent; 'out-of-memory-alloc-failures': Out of memory allocation failures; 'lw-mon-entity-created': Total Light-weight entities created; 'lw-mon-entity-deleted': Total Light-weight entities deleted; 'lw-mon-entity-limit-exceed': Light weight limit exceeded errors; 'lw-out-of-memory-alloc-failures': Light Weight Out-of-memory allocation failures; 'mon-entity-rrd-file-timestamp-err': Total monitor entity rrd file timestamp errors; 'mon-entity-rrd-update-err': Total monitor entity rrd update error; 'mon-entity-rrd-last-update-fetch-failed-err': Total monitor entity rrd last update fetch failed error; 'mon-entity-rrd-tune-err': Total monitor entity rrd tune error; 'mon-entity-rrd-out-of-memory-err': Total monitor entity rrd load failed, out of memory error; 'mon-entity-rrd-file-create-err': Total monitor entity rrd file create error;

Type: string

Supported Values: all, mon-entity-limit-exceed, ha-entity-create-sent, ha-entity-delete-sent, ha-entity-anomaly-on-sent, ha-entity-anomaly-off-sent, ha-entity-periodic-sync-sent, out-of-memory-alloc-failures, lw-mon-entity-created, lw-mon-entity-deleted, lw-mon-entity-limit-exceed, lw-out-of-memory-alloc-failures, mon-entity-rrd-file-timestamp-err, mon-entity-rrd-update-err, mon-entity-rrd-last-update-fetch-failed-err, mon-entity-rrd-tune-err, mon-entity-rrd-out-of-memory-err, mon-entity-rrd-file-create-err

packet-capture

Specification	Value

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-relay-ws-fed-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

failure

Description Enable automatic packet-capture for Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-relay-ws-fed-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

failure

Description Enable automatic packet-capture for Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-jwt-authorization-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_aam-jwt-authorization-tmpl-list_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-jwt-authorization-tmpl/{name}/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_object-templates_aam-jwt-authorization-tmpl-list_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-jwt-authorization-tmpl/{name}/trigger-stats-rate*

trigger-stats-severity

Description: trigger-stats-severity is a **JSON Block**. Please see below for *packet-capture_object-templates_aam-jwt-authorization-tmpl-list_trigger-stats-severity*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-jwt-authorization-tmpl/{name}/trigger-stats-severity*

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 1 characters

packet-capture_object-templates_aam-jwt-authorization-tmpl-list_trigger-stats-severity

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-jwt-authorization-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

jwt-authorize-failure

Description Enable automatic packet-capture for JWT Authorize Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-missing-claim

Description Enable automatic packet-capture for JWT Missing Claim

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-missing-token

Description Enable automatic packet-capture for JWT Missing Token

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-other-error

Description Enable automatic packet-capture for JWT Other Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-signature-failure

Description Enable automatic packet-capture for JWT Signature Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-token-expired

Description Enable automatic packet-capture for JWT Token Expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Default: 0

dns_filter_type_mx_drop

Description Enable automatic packet-capture for counters DNS Filter Type MX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_ns_drop

Description Enable automatic packet-capture for counters DNS Filter Type NS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_others_drop

Description Enable automatic packet-capture for counters DNS Filter Type OTHERS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_ptr_drop

Description Enable automatic packet-capture for counters DNS Filter Type PTR Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_soa_drop

Description Enable automatic packet-capture for counters DNS Filter Type SOA Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_srv_drop

Description Enable automatic packet-capture for counters DNS Filter Type SRV Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_txt_drop

Description Enable automatic packet-capture for counters DNS Filter Type TXT Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_rpz_action_drop

Description Enable automatic packet-capture for DNS RPZ Action Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dnsrrl_bad_fqdn

Description Enable automatic packet-capture for DNS Response-Rate-Limiting Bad FQDN

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dnsrrl_total_dropped

Description Enable automatic packet-capture for dns rrl drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gslb_query_bad

Description Enable automatic packet-capture for gslb query bad

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gslb_response_bad

Description Enable automatic packet-capture for gslb response bad

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rcode_notimpl_receive

Description Enable automatic packet-capture for response rcode type error receive

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rcode_notimpl_response

Description Enable automatic packet-capture for rcode type error response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_dns_filter_class_drop

Description Enable automatic packet-capture for counters Total DNS Filter Class Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_dns_filter_type_drop

Description Enable automatic packet-capture for counters Total DNS Filter Type Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_filter_drop

Description Enable automatic packet-capture for query filter drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_max_query_len_drop

Description Enable automatic packet-capture for query too long drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_dns_vport-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

dns_filter_class_any_drop

Description Enable automatic packet-capture for counters DNS Filter Class ANY Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_class_chaos_drop

Description Enable automatic packet-capture for counters DNS Filter Class CHAOS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_class_hesiod_drop

Description Enable automatic packet-capture for counters DNS Filter Class HESIOD Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_class_internet_drop

Description Enable automatic packet-capture for counters DNS Filter Class INTERNET Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_class_none_drop

Description Enable automatic packet-capture for counters DNS Filter Class NONE Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_class_others_drop

Description Enable automatic packet-capture for counters DNS Filter Class OTHER Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_tld_drop

Description Enable automatic packet-capture for counters Total DNS Filter TLD Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_a_drop

Description Enable automatic packet-capture for counters DNS Filter Type A Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_aaaa_drop

Description Enable automatic packet-capture for counters DNS Filter Type AAAA Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_any_drop

Description Enable automatic packet-capture for counters DNS Filter Type Any Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_cname_drop

Description Enable automatic packet-capture for counters DNS Filter Type CNAME Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_mx_drop

Description Enable automatic packet-capture for counters DNS Filter Type MX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_ns_drop

Description Enable automatic packet-capture for counters DNS Filter Type NS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_others_drop

Description Enable automatic packet-capture for counters DNS Filter Type OTHERS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_ptr_drop

Description Enable automatic packet-capture for counters DNS Filter Type PTR Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_soa_drop

Description Enable automatic packet-capture for counters DNS Filter Type SOA Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_srv_drop

Description Enable automatic packet-capture for counters DNS Filter Type SRV Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_txt_drop

Description Enable automatic packet-capture for counters DNS Filter Type TXT Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_rpz_action_drop

Description Enable automatic packet-capture for DNS RPZ Action Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dnsrrl_bad_fqdn

Description Enable automatic packet-capture for DNS Response-Rate-Limiting Bad FQDN

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dnsrrl_total_dropped

Description Enable automatic packet-capture for dns rrl drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

gslb_query_bad

Description Enable automatic packet-capture for gslb query bad

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gslb_response_bad

Description Enable automatic packet-capture for gslb response bad

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rcode_notimpl_receive

Description Enable automatic packet-capture for response rcode type error receive

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rcode_notimpl_response

Description Enable automatic packet-capture for rcode type error response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

total_dns_filter_class_drop

Description Enable automatic packet-capture for counters Total DNS Filter Class Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_dns_filter_type_drop

Description Enable automatic packet-capture for counters Total DNS Filter Type Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_filter_drop

Description Enable automatic packet-capture for query filter drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_max_query_len_drop

Description Enable automatic packet-capture for query too long drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_smtp-vport-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_smtp-vport-tmpl-list_trigger-stats-inc*

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_smtp-vport-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

forward_req_data_fail

Description Enable automatic packet-capture for Forward REQ data failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

forward_req_fail

Description Enable automatic packet-capture for Forward request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

get_all_headers_fail

Description Enable automatic packet-capture for Get all headers fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_resonse_line_fail

Description Enable automatic packet-capture for Ins response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_extend_fail

Description Enable automatic packet-capture for Line extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_table_extend_fail

Description Enable automatic packet-capture for Table extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for Line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_proxy

Description Enable automatic packet-capture for No proxy error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_req_fail

Description Enable automatic packet-capture for Parse request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_request_line_fail

Description Enable automatic packet-capture for Parse request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_resonse_line_fail

Description Enable automatic packet-capture for Parse response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read_request_line_fail

Description Enable automatic packet-capture for Read request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

recv_server_unknow_reply_code

Description Enable automatic packet-capture for Recv server unknown-code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

remove_resonse_line_fail

Description Enable automatic packet-capture for Del response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

send_client_service_not_ready

Description Enable automatic packet-capture for Sent client serv-not-rdy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_STARTTLS_fail

Description Enable automatic packet-capture for Server side STARTTLS fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_select_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

too_many_headers

Description Enable automatic packet-capture for Too many headers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Description Enable automatic packet-capture for Custom Nat64 Port Map Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat64-deletion-reco

Description Enable automatic packet-capture for Custom Nat64 Port Map Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-dslite-creation-re

Description Enable automatic packet-capture for Custom Dslite Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-dslite-deletion-re

Description Enable automatic packet-capture for Custom Dslite Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw4-creation-recor

Description Enable automatic packet-capture for Custom FW4 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw4-deletion-recor

Description Enable automatic packet-capture for Custom FW4 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw6-creation-recor

Description Enable automatic packet-capture for Custom FW6 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw6-deletion-recor

Description Enable automatic packet-capture for Custom FW6 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat44-creation-rec

Description Enable automatic packet-capture for Custom Nat44 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat44-deletion-rec

Description Enable automatic packet-capture for Custom Nat44 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat64-creation-rec

Description Enable automatic packet-capture for Custom Nat64 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat64-deletion-rec

Description Enable automatic packet-capture for Custom Nat64 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-records-sent-failure

Description Enable automatic packet-capture for Dslite Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-records-sent-failure

Description Enable automatic packet-capture for NAT44 Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-records-sent-failure

Description Enable automatic packet-capture for NAT64 Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

netflow-v5-ext-records-sent-failure

Description Enable automatic packet-capture for Netflow v5 Ext Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

netflow-v5-records-sent-failure

Description Enable automatic packet-capture for Netflow v5 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-dslite-records-sent-failu

Description Enable automatic packet-capture for Port Batching Dslite Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-nat44-records-sent-failur

Description Enable automatic packet-capture for Port Batching Nat44 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-nat64-records-sent-failur

Description Enable automatic packet-capture for Port Batching Nat64 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-dslite-records-sent-fa

Description Enable automatic packet-capture for Port Batching V2 Dslite Records Falied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-nat44-records-sent-fai

Description Enable automatic packet-capture for Port Batching V2 Nat44 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-nat64-records-sent-fai

Description Enable automatic packet-capture for Port Batching V2 Nat64 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-dslite-records-sent-failur

Description Enable automatic packet-capture for Port Mapping Dslite Event Records failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-nat44-records-sent-failure

Description Enable automatic packet-capture for Port Mapping Nat44 Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-nat64-records-sent-failure

Description Enable automatic packet-capture for Port Mapping Nat64 Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-dslite-records-sent-failu

Description Enable automatic packet-capture for Dslite Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-fw4-records-sent-failure

Description Enable automatic packet-capture for FW4 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-fw6-records-sent-failure

Description Enable automatic packet-capture for FW6 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-nat44-records-sent-failur

Description Enable automatic packet-capture for Nat44 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-nat64-records-sent-failur

Description Enable automatic packet-capture for Nat64 Session Event Records Falied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_netflow-monitor-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

custom-deny-reset-event-fw4-records-sen

Description Enable automatic packet-capture for Custom FW4 Deny/Reset Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-deny-reset-event-fw6-records-sen

Description Enable automatic packet-capture for Custom FW6 Deny/Reset Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-iddos-entry-created-records-s

Description Enable automatic packet-capture for Custom FW iDDoS Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-iddos-entry-deleted-records-s

Description Enable automatic packet-capture for Custom FW iDDoS Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-sesn-limit-exceeded-records-s

Description Enable automatic packet-capture for Custom FW Session Limit Exceeded Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-c-tunnel-event-records-sent-

Description Enable automatic packet-capture for Custom GTP C Tunnel Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-deny-event-records-sent-fail

Description Enable automatic packet-capture for Custom GTP Deny Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-info-event-records-sent-fail

Description Enable automatic packet-capture for Custom GTP Info Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-u-tunnel-event-records-sent-

Description Enable automatic packet-capture for Custom GTP U Tunnel Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l3-entry-created-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L3 Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l3-entry-deleted-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L3 Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l4-entry-created-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L4 Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l4-entry-deleted-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L4 Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-dslite-creation-re

Description Enable automatic packet-capture for Custom Dslite Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-dslite-deletion-re

Description Enable automatic packet-capture for Custom Dslite Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat44-creation-rec

Description Enable automatic packet-capture for Custom Nat44 Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat44-deletion-rec

Description Enable automatic packet-capture for Custom Nat44 Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat64-creation-rec

Description Enable automatic packet-capture for Custom Nat64 Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat64-deletion-rec

Description Enable automatic packet-capture for Custom Nat64 Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-dslite-creation

Description Enable automatic packet-capture for Custom Dslite Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-dslite-deletion

Description Enable automatic packet-capture for Custom Dslite Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat44-creation-

Description Enable automatic packet-capture for Custom Nat44 Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat44-deletion-

Description Enable automatic packet-capture for Custom Nat44 Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat64-creation-

Description Enable automatic packet-capture for Custom Nat64 Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat64-deletion-

Description Enable automatic packet-capture for Custom Nat64 Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-dslite-creation-rec

Description Enable automatic packet-capture for Custom Dslite Port Map Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-dslite-deletion-rec

Description Enable automatic packet-capture for Custom Dslite Port Map Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat44-creation-reco

Description Enable automatic packet-capture for Custom Nat44 Port Map Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat44-deletion-reco

Description Enable automatic packet-capture for Custom Nat44 Port Map Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat64-creation-reco

Description Enable automatic packet-capture for Custom Nat64 Port Map Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat64-deletion-reco

Description Enable automatic packet-capture for Custom Nat64 Port Map Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-dslite-creation-re

Description Enable automatic packet-capture for Custom Dslite Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-dslite-deletion-re

Description Enable automatic packet-capture for Custom Dslite Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Default: 0

not-found

Description Enable automatic packet-capture for Not Found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server-error

Description Enable automatic packet-capture for Internal Server Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unauth

Description Enable automatic packet-capture for Unauthorized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unavailable

Description Enable automatic packet-capture for Service Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_slb-service-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_slb-service-tmpl-list_trigger-stats-inc*

Description Enable automatic packet-capture for Kerberos KDC Validation Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-server-win-inst-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

krb_other_error

Description Enable automatic packet-capture for Kerberos Other Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb_pw_change_failure

Description Enable automatic packet-capture for Kerberos password change failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb_pw_expiry

Description Enable automatic packet-capture for Kerberos password expiry

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb_timeout_error

Description Enable automatic packet-capture for Kerberos Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb_validate_kdc_failure

Description Enable automatic packet-capture for Kerberos KDC Validation Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_slb-templ-cache-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_slb-templ-cache-tmpl-list_trigger-stats-inc*

Type: Object

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_slb-templ-cache-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

content_toobig

Description Enable automatic packet-capture for slbTemplateCacheContentToobig, help content_toobig

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

content_toosmall

Description Enable automatic packet-capture for slbTemplateCacheContentToosmall, help content_toosmall

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

entry_create_failures

Description Enable automatic packet-capture for slbTemplateCacheEntryCreateFailures, help entry_create_failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_save_error

Description Enable automatic packet-capture for some help string

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nc_req_header

Description Enable automatic packet-capture for slbTemplateCacheNcReqHeader, help nc_req_header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nc_res_header

Description Enable automatic packet-capture for slbTemplateCacheNcResHeader, help nc_res_header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rv_failure

Description Enable automatic packet-capture for slbTemplateCacheRvFailure, help rv_failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_create_fail

Description Enable automatic packet-capture for smp create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_pbsz_value

Description Enable automatic packet-capture for Unsupported PBSZ

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_prot_value

Description Enable automatic packet-capture for Unsupported PROT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_imap-vport-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

auth_unsupported

Description Enable automatic packet-capture for Unsupported auth

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_epsv

Description Enable automatic packet-capture for cant find epsv

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_pasv

Description Enable automatic packet-capture for cant find pasv

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_request_err

Description Enable automatic packet-capture for Client RQ state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_send_fail

Description Enable automatic packet-capture for data send fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_server_conn_fail

Description Enable automatic packet-capture for data svr conn fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_start_line

Description Enable automatic packet-capture for invalid start line

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_create_fail

Description Enable automatic packet-capture for smp create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unsupported_pbsz_value

Description Enable automatic packet-capture for Unsupported PBSZ

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_prot_value

Description Enable automatic packet-capture for Unsupported PROT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-service-group-mem-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_aam-auth-service-group-mem-tmpl-list_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-auth-service-group-mem-tmpl/{name}/trigger-stats-inc*

trigger-stats-rate

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Description Enable automatic packet-capture for Packet Exceeded MTU

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_fw-service-group-mem-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_fw-service-group-mem-tmpl-list_trigger-stats-inc*

Type	*object*

drop-vld-country-code-mismatch

Description Enable automatic packet-capture for Validation Drop: Country Code Mismatch in IMSI and MSISDN

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-cross-layer-correlation

Description Enable automatic packet-capture for Validation Drop: Cross Layer IP Address Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-bearer-count-exceed

Description Enable automatic packet-capture for Validation Drop: GTP Bearer count exceeded max (11)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-ie-repeat-count-exceed

Description Enable automatic packet-capture for Validation Drop: GTP repeated IE count exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-apn-len-drop

Description Enable automatic packet-capture for Validation Drop: GTP-C Invalid APN Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-imsi-len-drop

Description Enable automatic packet-capture for Validation Drop: GTP-C Invalid IMSI Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-u-spoofed-source-address

Description Enable automatic packet-capture for Validation Drop: GTP-U IP Address Spoofed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-v2-wrong-lbi-create-bearer

Description Enable automatic packet-capture for Validation Drop: GTPV2-C Wrong LBI in Create Bearer Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv0-seqnum-buffer-full

Description Enable automatic packet-capture for Validation Drop: GTPV0-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv1-seqnum-buffer-full

Description Enable automatic packet-capture for Validation Drop: GTPV1-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv2-seqnum-buffer-full

Description Enable automatic packet-capture for Validation Drop: GTPV2-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-flow-label-v0

Description Enable automatic packet-capture for Validation Drop: Invalid Flow Label in GTPv0-C Header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-pkt-len-piggyback

Description Enable automatic packet-capture for Validation Drop: Piggyback message invalid packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-teid

Description Enable automatic packet-capture for Validation Drop: Invalid TEID Value

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-mandatory-ie-in-grouped-ie

Description Enable automatic packet-capture for Validation Drop: Mandatory IE in Grouped IE Not Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-mandatory-information-element

Description Enable automatic packet-capture for Validation Drop: Mandatory IE Not Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-message-length

Description Enable automatic packet-capture for Validation Drop: Message Length Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-order-ie

Description Enable automatic packet-capture for Validation Drop: GTPv1-C Message Out of Order IE

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state

Description Enable automatic packet-capture for Validation Drop: Out Of State GTP Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state-ie

Description Enable automatic packet-capture for Validation Drop: Unexpected IE Present in Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-protocol-flag-unset

Description Enable automatic packet-capture for Validation Drop: Protocol flag in Header Field not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-field-set

Description Enable automatic packet-capture for Validation Drop: Reserved Header Field Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-information-element

Description Enable automatic packet-capture for Validation Drop: Reserved IE Field Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sanity-failed-piggyback

Description Enable automatic packet-capture for Validation Drop: piggyback message anomaly failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sequence-num-correlation

Description Enable automatic packet-capture for Validation Drop: GTP-C Sequence number Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-tunnel-id-flag

Description Enable automatic packet-capture for Validation Drop: Tunnel Header Flag Not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-v0-reserved-message-drop

Description Enable automatic packet-capture for Validation Drop: GTPv0-C Reserved Message Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-v1-reserved-message-drop

Description Enable automatic packet-capture for Validation Drop: GTPv1-C Reserved Message Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-v2-reserved-message-drop

Description Enable automatic packet-capture for Validation Drop: GTPv2-C Reserved Message Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-version-not-supported

Description Enable automatic packet-capture for Validation Drop: Invalid GTP version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_interface-ethernet-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

collisions

Description Enable automatic packet-capture for Collisions

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crc

Description Enable automatic packet-capture for CRC

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

giants

Description Enable automatic packet-capture for Giants

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

giants_output

Description Enable automatic packet-capture for Output Giants

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

input_errors

Description Enable automatic packet-capture for Input errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

output_errors

Description Enable automatic packet-capture for Output errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runts

Description Enable automatic packet-capture for Runts

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_interface-ethernet-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

collisions

Description Enable automatic packet-capture for Collisions

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crc

Description Enable automatic packet-capture for CRC

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

giants

Description Enable automatic packet-capture for Giants

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

giants_output

Description Enable automatic packet-capture for Output Giants

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

input_errors

Description Enable automatic packet-capture for Input errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

output_errors

Description Enable automatic packet-capture for Output errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runts

Description Enable automatic packet-capture for Runts

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_rule-set-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_rule-set-tmpl-list_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/rule-set-tmpl/{name}/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_object-templates_rule-set-tmpl-list_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/rule-set-tmpl/{name}/trigger-stats-rate*

trigger-stats-severity

Description: trigger-stats-severity is a **JSON Block**. Please see below for *packet-capture_object-templates_rule-set-tmpl-list_trigger-stats-severity*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/rule-set-tmpl/{name}/trigger-stats-severity*

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_rule-set-tmpl-list_trigger-stats-severity

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_rule-set-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

deny

Description Enable automatic packet-capture for Denied counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reset

Description Enable automatic packet-capture for Reset counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unmatched-drops

Description Enable automatic packet-capture for Unmatched drops counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_rule-set-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

deny

Description Enable automatic packet-capture for Denied counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

reset

Description Enable automatic packet-capture for Reset counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unmatched-drops

Description Enable automatic packet-capture for Unmatched drops counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-server-ocsp-inst-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-auth-server-ocsp-inst-tmpl/{name}/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-auth-server-ocsp-inst-tmpl/{name}/trigger-stats-rate*

trigger-stats-severity

Description: trigger-stats-severity is a **JSON Block**. Please see below for *packet-capture_object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-severity*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-auth-server-ocsp-inst-tmpl/{name}/trigger-stats-severity*

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-severity

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-timeout

Description Enable automatic packet-capture for OCSP Stapling Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

timeout

Description Enable automatic packet-capture for Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-timeout

Description Enable automatic packet-capture for OCSP Stapling Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

timeout

Description Enable automatic packet-capture for Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_delete-packet-capture-file

Specification	Value
Type	*object*

all

Description Delete all files in this partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

file-name

Description Specify the name of the packet capture file to be deleted

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

packet-capture_global-templates

Specification	Value
Type	*object*

activate

Description: activate is a **JSON Block**. Please see below for *packet-capture_global-templates_activate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/activate*

template-list

Type: List

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_activate

Specification	Value
Type	*object*

template

Description Name of the global templated to be activated

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-sys-obj-stats-change

Description: trigger-sys-obj-stats-change is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-icmp_trigger-stats-inc

Specification	Value
Type	*object*

icmp-to-icmp-err

Description Enable automatic packet-capture for ICMP to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmp-to-icmpv6-err

Description Enable automatic packet-capture for ICMP to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmp-err

Description Enable automatic packet-capture for ICMPv6 to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmpv6-err

Description Enable automatic packet-capture for ICMPv6 to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-icmp_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

icmp-to-icmp-err

Description Enable automatic packet-capture for ICMP to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmp-to-icmpv6-err

Description Enable automatic packet-capture for ICMP to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmp-err

Description Enable automatic packet-capture for ICMPv6 to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmpv6-err

Description Enable automatic packet-capture for ICMPv6 to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-pcp/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-pcp/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp_trigger-stats-inc

Specification	Value
Type	*object*

address-mismatch

Description Enable automatic packet-capture for PCP Client Address Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cannot-provide-suggest

Description Enable automatic packet-capture for Cannot Provide Suggested Port When PREFER_FAILURE

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

excessive-remote-peers

Description Enable automatic packet-capture for Excessive Remote Peers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

internal-error-drop

Description Enable automatic packet-capture for Internal Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4-process-error

Description Enable automatic packet-capture for L3/L4 Process Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

malform-option

Description Enable automatic packet-capture for PCP Option Malformed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

malform-request

Description Enable automatic packet-capture for PCP Request Malformed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-resources

Description Enable automatic packet-capture for No System or NAT Resources

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

noroute-drop

Description Enable automatic packet-capture for Response No Route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

not-authorized

Description Enable automatic packet-capture for PCP Request Not Authorized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-not-from-nat-inside

Description Enable automatic packet-capture for Packet Dropped For Not Coming From NAT Inside

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-not-request-drop

Description Enable automatic packet-capture for Packet Not a PCP Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-too-short-drop

Description Enable automatic packet-capture for Packet Too Short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsol_ance_sent_fail

Description Enable automatic packet-capture for Unsolicited Announce Send Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-opcode

Description Enable automatic packet-capture for Unsupported PCP Opcode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-option

Description Enable automatic packet-capture for Unsupported PCP Option

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-protocol

Description Enable automatic packet-capture for Unsupported Mapping Protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-version

Description Enable automatic packet-capture for Unsupported PCP version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp_trigger-stats-rate

Specification	Value
Type	*object*

address-mismatch

Description Enable automatic packet-capture for PCP Client Address Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cannot-provide-suggest

Description Enable automatic packet-capture for Cannot Provide Suggested Port When PREFER_FAILURE

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

excessive-remote-peers

Description Enable automatic packet-capture for Excessive Remote Peers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

internal-error-drop

Description Enable automatic packet-capture for Internal Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4-process-error

Description Enable automatic packet-capture for L3/L4 Process Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

malform-option

Description Enable automatic packet-capture for PCP Option Malformed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

malform-request

Description Enable automatic packet-capture for PCP Request Malformed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-resources

Description Enable automatic packet-capture for No System or NAT Resources

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

noroute-drop

Description Enable automatic packet-capture for Response No Route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

not-authorized

Description Enable automatic packet-capture for PCP Request Not Authorized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-not-from-nat-inside

Description Enable automatic packet-capture for Packet Dropped For Not Coming From NAT Inside

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-not-request-drop

Description Enable automatic packet-capture for Packet Not a PCP Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-too-short-drop

Description Enable automatic packet-capture for Packet Too Short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unsol_ance_sent_fail

Description Enable automatic packet-capture for Unsolicited Announce Send Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-opcode

Description Enable automatic packet-capture for Unsupported PCP Opcode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-option

Description Enable automatic packet-capture for Unsupported PCP Option

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-protocol

Description Enable automatic packet-capture for Unsupported Mapping Protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-version

Description Enable automatic packet-capture for Unsupported PCP version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-smtp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-smtp_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-smtp/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-smtp_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-smtp/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-smtp_trigger-stats-inc

Specification	Value
Type	*object*

forward_req_data_fail

Description Enable automatic packet-capture for Forward REQ data failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

forward_req_fail

Description Enable automatic packet-capture for Forward request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

get_all_headers_fail

Description Enable automatic packet-capture for Get all headers fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_resonse_line_fail

Description Enable automatic packet-capture for Ins response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_extend_fail

Description Enable automatic packet-capture for Line extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_table_extend_fail

Description Enable automatic packet-capture for Table extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for Line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_proxy

Description Enable automatic packet-capture for No proxy error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_req_fail

Description Enable automatic packet-capture for Parse request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_request_line_fail

Description Enable automatic packet-capture for Parse request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_resonse_line_fail

Description Enable automatic packet-capture for Parse response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read_request_line_fail

Description Enable automatic packet-capture for Read request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

recv_server_unknow_reply_code

Description Enable automatic packet-capture for Recv server unknown-code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

remove_resonse_line_fail

Description Enable automatic packet-capture for Del response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

send_client_service_not_ready

Description Enable automatic packet-capture for Sent client serv-not-rdy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_STARTTLS_fail

Description Enable automatic packet-capture for Server side STARTTLS fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_select_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

too_many_headers

Description Enable automatic packet-capture for Too many headers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-smtp_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

forward_req_data_fail

Description Enable automatic packet-capture for Forward REQ data failure

Type: boolean

err_entry_create_failed

Description Enable automatic packet-capture for Entry Creation Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_entry_create_oom

Description Enable automatic packet-capture for Entry Creation Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_entry_insert_failed

Description Enable automatic packet-capture for Entry Insert Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_l4_sess_alloc

Description Enable automatic packet-capture for Error allocating L4 session for probe

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_probe_tcp_conn_send

Description Enable automatic packet-capture for Error in initiating TCP connection for probe

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_smart_nat_alloc

Description Enable automatic packet-capture for Error creating Smart NAT Instance

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_smart_nat_port_alloc

Description Enable automatic packet-capture for Error obtaining Smart NAT source port

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_tmpl_probe_create_failed

Description Enable automatic packet-capture for Probe Template Creation Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_tmpl_probe_create_oom

Description Enable automatic packet-capture for Probe Template Creation Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_http_response_bad

Description Enable automatic packet-capture for Total HTTP responses not matching probe template config

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_tcp_err

Description Enable automatic packet-capture for Total TCP errors in probes sent out

Type: boolean

Supported Values: true, false, 1, 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-pop3-proxy_trigger-stats-inc

Specification	Value
Type	*object*

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_start_line

Description Enable automatic packet-capture for invalid start line

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_command

Description Enable automatic packet-capture for Unsupported cmd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-pop3-proxy_trigger-stats-rate

Specification	Value
Type	*object*

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_start_line

Description Enable automatic packet-capture for invalid start line

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unsupported_command

Description Enable automatic packet-capture for Unsupported cmd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-fix

Specification	Value
Type	*object*

trigger-stats-inc

Specification	Value
Type	*object*

app-data-in-handshake

Description Enable automatic packet-capture for app data in handshake

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

attempt-to-reuse-sess-in-diff-context

Description Enable automatic packet-capture for attempt to reuse sess in diff context

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-alert-record

Description Enable automatic packet-capture for bad alert record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-authentication-type

Description Enable automatic packet-capture for bad authentication type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-change-cipher-spec

Description Enable automatic packet-capture for bad change cipher spec

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-checksum

Description Enable automatic packet-capture for bad checksum

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-data-returned-by-callback

Description Enable automatic packet-capture for bad data returned by callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-decompression

Description Enable automatic packet-capture for bad decompression

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-g-length

Description Enable automatic packet-capture for bad dh g length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-p-length

Description Enable automatic packet-capture for bad dh p length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-pub-key-length

Description Enable automatic packet-capture for bad dh pub key length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-digest-length

Description Enable automatic packet-capture for bad digest length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dsa-signature

Description Enable automatic packet-capture for bad dsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecc-cert

Description Enable automatic packet-capture for bad ecc cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecdsa-sig

Description Enable automatic packet-capture for bad ecdsa sig

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecpoint

Description Enable automatic packet-capture for bad ecpoint

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-handshake-length

Description Enable automatic packet-capture for bad handshake length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-hello-request

Description Enable automatic packet-capture for bad hello request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-length

Description Enable automatic packet-capture for bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-mac-decode

Description Enable automatic packet-capture for bad mac decode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-message-type

Description Enable automatic packet-capture for bad message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-packet-length

Description Enable automatic packet-capture for bad packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-protocol-version-counter

Description Enable automatic packet-capture for bad protocol version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-response-argument

Description Enable automatic packet-capture for bad response argument

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-decrypt

Description Enable automatic packet-capture for bad rsa decrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-e-length

Description Enable automatic packet-capture for bad rsa e length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-encrypt

Description Enable automatic packet-capture for bad rsa encrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-modulus-length

Description Enable automatic packet-capture for bad rsa modulus length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-signature

Description Enable automatic packet-capture for bad rsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-signature

Description Enable automatic packet-capture for bad signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-filetype

Description Enable automatic packet-capture for bad ssl filetype

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-session-id-length

Description Enable automatic packet-capture for bad ssl session id length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-state

Description Enable automatic packet-capture for bad state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-write-retry

Description Enable automatic packet-capture for bad write retry

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bio-not-set

Description Enable automatic packet-capture for bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

block-cipher-pad-is-wrong

Description Enable automatic packet-capture for block cipher pad is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bn-lib

Description Enable automatic packet-capture for bn lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-length-mismatch

Description Enable automatic packet-capture for ca dn length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-too-long

Description Enable automatic packet-capture for ca dn too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ccs-received-early

Description Enable automatic packet-capture for ccs received early

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cert-length-mismatch

Description Enable automatic packet-capture for cert length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

certificate-verify-failed

Description Enable automatic packet-capture for certificate verify failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

challenge-is-different

Description Enable automatic packet-capture for challenge is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-code-wrong-length

Description Enable automatic packet-capture for cipher code wrong length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-or-hash-unavailable

Description Enable automatic packet-capture for cipher or hash unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-table-src-error

Description Enable automatic packet-capture for cipher table src error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

clienthello-tlsext

Description Enable automatic packet-capture for clienthello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compressed-length-too-long

Description Enable automatic packet-capture for compressed length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-failure

Description Enable automatic packet-capture for compression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-library-error

Description Enable automatic packet-capture for compression library error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-id-is-different

Description Enable automatic packet-capture for connection id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-type-not-set

Description Enable automatic packet-capture for connection type not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie-mismatch

Description Enable automatic packet-capture for cookie mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-between-ccs-and-finished

Description Enable automatic packet-capture for data between ccs and finished

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-length-too-long

Description Enable automatic packet-capture for data length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed

Description Enable automatic packet-capture for decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed-or-bad-record-mac

Description Enable automatic packet-capture for decryption failed or bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dh-public-value-length-is-wrong

Description Enable automatic packet-capture for dh public value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

digest-check-failed

Description Enable automatic packet-capture for digest check failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

encrypted-length-too-long

Description Enable automatic packet-capture for encrypted length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-generating-tmp-rsa-key

Description Enable automatic packet-capture for error generating tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-in-received-cipher-list

Description Enable automatic packet-capture for error in received cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

excessive-message-size

Description Enable automatic packet-capture for excessive message size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

extra-data-in-message

Description Enable automatic packet-capture for extra data in message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

got-a-fin-before-a-ccs

Description Enable automatic packet-capture for got a fin before a ccs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http-request

Description Enable automatic packet-capture for http request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

https-proxy-request

Description Enable automatic packet-capture for https proxy request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

illegal-padding

Description Enable automatic packet-capture for illegal padding

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inappropriate-fallback

Description Enable automatic packet-capture for inappropriate fallback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-challenge-length

Description Enable automatic packet-capture for invalid challenge length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-command

Description Enable automatic packet-capture for invalid command

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-purpose

Description Enable automatic packet-capture for invalid purpose

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-status-response

Description Enable automatic packet-capture for invalid status response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-trust

Description Enable automatic packet-capture for invalid trust

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

key-arg-too-long

Description Enable automatic packet-capture for key arg too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5

Description Enable automatic packet-capture for krb5

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-cc-principal

Description Enable automatic packet-capture for krb5 client cc principal

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-get-cred

Description Enable automatic packet-capture for krb5 client get cred

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-init

Description Enable automatic packet-capture for krb5 client init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-mk-req

Description Enable automatic packet-capture for krb5 client mk_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-bad-ticket

Description Enable automatic packet-capture for krb5 server bad ticket

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-init

Description Enable automatic packet-capture for krb5 server init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-rd-req

Description Enable automatic packet-capture for krb5 server rd_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-expired

Description Enable automatic packet-capture for krb5 server tkt expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-not-yet-valid

Description Enable automatic packet-capture for krb5 server tkt not yet valid

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-skew

Description Enable automatic packet-capture for krb5 server tkt skew

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-mismatch

Description Enable automatic packet-capture for length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-too-short

Description Enable automatic packet-capture for length too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-bug

Description Enable automatic packet-capture for library bug

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-has-no-ciphers

Description Enable automatic packet-capture for library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mast-key-too-long

Description Enable automatic packet-capture for mast key too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

message-too-long

Description Enable automatic packet-capture for message too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-dsa-cert

Description Enable automatic packet-capture for missing dh dsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-key

Description Enable automatic packet-capture for missing dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-rsa-cert

Description Enable automatic packet-capture for missing dh rsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dsa-signing-cert

Description Enable automatic packet-capture for missing dsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-dh-key

Description Enable automatic packet-capture for missing export tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-rsa-key

Description Enable automatic packet-capture for missing export tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-certificate

Description Enable automatic packet-capture for missing rsa certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-encrypting-cert

Description Enable automatic packet-capture for missing rsa encrypting cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-signing-cert

Description Enable automatic packet-capture for missing rsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-dh-key

Description Enable automatic packet-capture for missing tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-key

Description Enable automatic packet-capture for missing tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-pkey

Description Enable automatic packet-capture for missing tmp rsa pkey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-verify-message

Description Enable automatic packet-capture for missing verify message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

multiple-sgc-restarts

Description Enable automatic packet-capture for multiple sgc restarts

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-assigned

Description Enable automatic packet-capture for no certificate assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-returned

Description Enable automatic packet-capture for no certificate returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-set

Description Enable automatic packet-capture for no certificate set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-specified

Description Enable automatic packet-capture for no certificate specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificates-returned

Description Enable automatic packet-capture for no certificates returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-list

Description Enable automatic packet-capture for no cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-match

Description Enable automatic packet-capture for no cipher match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-available

Description Enable automatic packet-capture for no ciphers available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-passed

Description Enable automatic packet-capture for no ciphers passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-specified

Description Enable automatic packet-capture for no ciphers specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-client-cert-received

Description Enable automatic packet-capture for no client cert received

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-compression-specified

Description Enable automatic packet-capture for no compression specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-method-specified

Description Enable automatic packet-capture for no method specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-private-key-assigned

Description Enable automatic packet-capture for no private key assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-privatekey

Description Enable automatic packet-capture for no privatekey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-protocols-available

Description Enable automatic packet-capture for no protocols available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-publickey

Description Enable automatic packet-capture for no publickey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-required-digest

Description Enable automatic packet-capture for no required digest

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-shared-cipher

Description Enable automatic packet-capture for no shared cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-verify-callback

Description Enable automatic packet-capture for no verify callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

non-sslv2-initial-packet

Description Enable automatic packet-capture for non sslv2 initial packet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-ctx

Description Enable automatic packet-capture for null ssl ctx

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-method-passed

Description Enable automatic packet-capture for null ssl method passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

old-session-cipher-not-returned

Description Enable automatic packet-capture for old session cipher not returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-length-too-long

Description Enable automatic packet-capture for packet length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse-tlsext

Description Enable automatic packet-capture for parse tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

path-too-long

Description Enable automatic packet-capture for path too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-did-not-return-a-certificate

Description Enable automatic packet-capture for peer did not return a certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error

Description Enable automatic packet-capture for peer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-certificate

Description Enable automatic packet-capture for peer error certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-certificate

Description Enable automatic packet-capture for peer error no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-cipher

Description Enable automatic packet-capture for peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-unsupported-certificate-type

Description Enable automatic packet-capture for peer error unsupported certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pre-mac-length-too-long

Description Enable automatic packet-capture for pre mac length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

problems-mapping-cipher-functions

Description Enable automatic packet-capture for problems mapping cipher functions

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

protocol-is-shutdown

Description Enable automatic packet-capture for protocol is shutdown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-encrypt-error

Description Enable automatic packet-capture for public key encrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-is-not-rsa

Description Enable automatic packet-capture for public key is not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-not-rsa

Description Enable automatic packet-capture for public key not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-bio-not-set

Description Enable automatic packet-capture for read bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-wrong-packet-type

Description Enable automatic packet-capture for read wrong packet type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-length-mismatch

Description Enable automatic packet-capture for record length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-large

Description Enable automatic packet-capture for record too large

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-small

Description Enable automatic packet-capture for record too small

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

required-cipher-missing

Description Enable automatic packet-capture for required cipher missing

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-length-not-zero

Description Enable automatic packet-capture for reuse cert length not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-type-not-zero

Description Enable automatic packet-capture for reuse cert type not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cipher-list-not-zero

Description Enable automatic packet-capture for reuse cipher list not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

scsv-received-when-renegotiating

Description Enable automatic packet-capture for scsv received when renegotiating

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serverhello-tlsext

Description Enable automatic packet-capture for serverhello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-id-context-uninitialized

Description Enable automatic packet-capture for session id context uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

short-read

Description Enable automatic packet-capture for short read

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

signature-for-non-signing-certificate

Description Enable automatic packet-capture for signature for non signing certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-ctx-has-no-default-ssl-version

Description Enable automatic packet-capture for ssl ctx has no default ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-handshake-failure

Description Enable automatic packet-capture for ssl handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-library-has-no-ciphers

Description Enable automatic packet-capture for ssl library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-callback-failed

Description Enable automatic packet-capture for ssl session id callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-conflict

Description Enable automatic packet-capture for ssl session id conflict

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-context-too-long

Description Enable automatic packet-capture for ssl session id context too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-has-bad-length

Description Enable automatic packet-capture for ssl session id has bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-is-different

Description Enable automatic packet-capture for ssl session id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl2-connection-id-too-long

Description Enable automatic packet-capture for ssl2 connection id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl23-doing-session-id-reuse

Description Enable automatic packet-capture for ssl23 doing session id reuse

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername

Description Enable automatic packet-capture for ssl3 ext invalid servername

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername-type

Description Enable automatic packet-capture for ssl3 ext invalid servername type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-long

Description Enable automatic packet-capture for ssl3 session id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-short

Description Enable automatic packet-capture for ssl3 session id too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-certificate

Description Enable automatic packet-capture for sslv3 alert bad certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-record-mac

Description Enable automatic packet-capture for sslv3 alert bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-expired

Description Enable automatic packet-capture for sslv3 alert certificate expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-revoked

Description Enable automatic packet-capture for sslv3 alert certificate revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-unknown

Description Enable automatic packet-capture for sslv3 alert certificate unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-decompression-failure

Description Enable automatic packet-capture for sslv3 alert decompression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-handshake-failure

Description Enable automatic packet-capture for sslv3 alert handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-illegal-parameter

Description Enable automatic packet-capture for sslv3 alert illegal parameter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-no-certificate

Description Enable automatic packet-capture for sslv3 alert no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-cert

Description Enable automatic packet-capture for sslv3 alert peer error cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cert

Description Enable automatic packet-capture for sslv3 alert peer error no cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cipher

Description Enable automatic packet-capture for sslv3 alert peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-unsupp-cert-type

Description Enable automatic packet-capture for sslv3 alert peer error unsupp cert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unexpected-msg

Description Enable automatic packet-capture for sslv3 alert unexpected msg

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unknown-remote-err-type

Description Enable automatic packet-capture for sslv3 alert unknown remote err type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unspported-cert

Description Enable automatic packet-capture for sslv3 alert unspported cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-client-cert-req-with-anon-cipher

Description Enable automatic packet-capture for tls client cert req with anon cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-invalid-ecpointformat-list

Description Enable automatic packet-capture for tls invalid ecpointformat list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-peer-did-not-respond-with-cert-list

Description Enable automatic packet-capture for tls peer did not respond with cert list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-rsa-encrypted-value-length-is-wrong

Description Enable automatic packet-capture for tls rsa encrypted value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-access-denied

Description Enable automatic packet-capture for tlsv1 alert access denied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decode-error

Description Enable automatic packet-capture for tlsv1 alert decode error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decrypt-error

Description Enable automatic packet-capture for tlsv1 alert decrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decryption-failed

Description Enable automatic packet-capture for tlsv1 alert decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-export-restriction

Description Enable automatic packet-capture for tlsv1 alert export restriction

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-insufficient-security

Description Enable automatic packet-capture for tlsv1 alert insufficient security

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-internal-error

Description Enable automatic packet-capture for tlsv1 alert internal error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-no-renegotiation

Description Enable automatic packet-capture for tlsv1 alert no renegotiation

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-protocol-version

Description Enable automatic packet-capture for tlsv1 alert protocol version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-record-overflow

Description Enable automatic packet-capture for tlsv1 alert record overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-unknown-ca

Description Enable automatic packet-capture for tlsv1 alert unknown ca

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-user-cancelled

Description Enable automatic packet-capture for tlsv1 alert user cancelled

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tried-to-use-unsupported-cipher

Description Enable automatic packet-capture for tried to use unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-decode-dh-certs

Description Enable automatic packet-capture for unable to decode dh certs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-extract-public-key

Description Enable automatic packet-capture for unable to extract public key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-dh-parameters

Description Enable automatic packet-capture for unable to find dh parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-public-key-parameters

Description Enable automatic packet-capture for unable to find public key parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-ssl-method

Description Enable automatic packet-capture for unable to find ssl method

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl2-md5-routines

Description Enable automatic packet-capture for unable to load ssl2 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-md5-routines

Description Enable automatic packet-capture for unable to load ssl3 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-sha1-routines

Description Enable automatic packet-capture for unable to load ssl3 sha1 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-message

Description Enable automatic packet-capture for unexpected message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-record

Description Enable automatic packet-capture for unexpected record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uninitialized

Description Enable automatic packet-capture for uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-alert-type

Description Enable automatic packet-capture for unknown alert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-certificate-type

Description Enable automatic packet-capture for unknown certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-returned

Description Enable automatic packet-capture for unknown cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-type

Description Enable automatic packet-capture for unknown cipher type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-key-exchange-type

Description Enable automatic packet-capture for unknown key exchange type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-pkey-type

Description Enable automatic packet-capture for unknown pkey type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-protocol

Description Enable automatic packet-capture for unknown protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-remote-error-type

Description Enable automatic packet-capture for unknown remote error type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-ssl-version

Description Enable automatic packet-capture for unknown ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-state

Description Enable automatic packet-capture for unknown state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-cipher

Description Enable automatic packet-capture for unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-compression-algorithm

Description Enable automatic packet-capture for unsupported compression algorithm

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-digest-type

Description Enable automatic packet-capture for unsupported digest type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-elliptic-curve

Description Enable automatic packet-capture for unsupported elliptic curve

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-option

Description Enable automatic packet-capture for unsupported option

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-protocol

Description Enable automatic packet-capture for unsupported protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-ssl-version

Description Enable automatic packet-capture for unsupported ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-status-type

Description Enable automatic packet-capture for unsupported status type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

write-bio-not-set

Description Enable automatic packet-capture for write bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-cipher-returned

Description Enable automatic packet-capture for wrong cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-counter-of-key-bits

Description Enable automatic packet-capture for wrong counter of key bits

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-message-type

Description Enable automatic packet-capture for wrong message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-length

Description Enable automatic packet-capture for wrong signature length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-size

Description Enable automatic packet-capture for wrong signature size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-ssl-version

Description Enable automatic packet-capture for wrong ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-version-counter

Description Enable automatic packet-capture for wrong version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-lib

Description Enable automatic packet-capture for x509 lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-verification-setup-problems

Description Enable automatic packet-capture for x509 verification setup problems

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-error_trigger-stats-rate

Specification	Value
Type	*object*

app-data-in-handshake

Description Enable automatic packet-capture for app data in handshake

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

attempt-to-reuse-sess-in-diff-context

Description Enable automatic packet-capture for attempt to reuse sess in diff context

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-alert-record

Description Enable automatic packet-capture for bad alert record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-authentication-type

Description Enable automatic packet-capture for bad authentication type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-change-cipher-spec

Description Enable automatic packet-capture for bad change cipher spec

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-checksum

Description Enable automatic packet-capture for bad checksum

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-data-returned-by-callback

Description Enable automatic packet-capture for bad data returned by callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-decompression

Description Enable automatic packet-capture for bad decompression

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-g-length

Description Enable automatic packet-capture for bad dh g length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-p-length

Description Enable automatic packet-capture for bad dh p length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-pub-key-length

Description Enable automatic packet-capture for bad dh pub key length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-digest-length

Description Enable automatic packet-capture for bad digest length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dsa-signature

Description Enable automatic packet-capture for bad dsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecc-cert

Description Enable automatic packet-capture for bad ecc cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecdsa-sig

Description Enable automatic packet-capture for bad ecdsa sig

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecpoint

Description Enable automatic packet-capture for bad ecpoint

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-handshake-length

Description Enable automatic packet-capture for bad handshake length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-hello-request

Description Enable automatic packet-capture for bad hello request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-length

Description Enable automatic packet-capture for bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-mac-decode

Description Enable automatic packet-capture for bad mac decode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-message-type

Description Enable automatic packet-capture for bad message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-packet-length

Description Enable automatic packet-capture for bad packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-protocol-version-counter

Description Enable automatic packet-capture for bad protocol version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-response-argument

Description Enable automatic packet-capture for bad response argument

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-decrypt

Description Enable automatic packet-capture for bad rsa decrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-e-length

Description Enable automatic packet-capture for bad rsa e length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-encrypt

Description Enable automatic packet-capture for bad rsa encrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-modulus-length

Description Enable automatic packet-capture for bad rsa modulus length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-signature

Description Enable automatic packet-capture for bad rsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-signature

Description Enable automatic packet-capture for bad signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-filetype

Description Enable automatic packet-capture for bad ssl filetype

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-session-id-length

Description Enable automatic packet-capture for bad ssl session id length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-state

Description Enable automatic packet-capture for bad state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-write-retry

Description Enable automatic packet-capture for bad write retry

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bio-not-set

Description Enable automatic packet-capture for bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

block-cipher-pad-is-wrong

Description Enable automatic packet-capture for block cipher pad is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bn-lib

Description Enable automatic packet-capture for bn lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-length-mismatch

Description Enable automatic packet-capture for ca dn length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-too-long

Description Enable automatic packet-capture for ca dn too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ccs-received-early

Description Enable automatic packet-capture for ccs received early

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cert-length-mismatch

Description Enable automatic packet-capture for cert length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

certificate-verify-failed

Description Enable automatic packet-capture for certificate verify failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

challenge-is-different

Description Enable automatic packet-capture for challenge is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-code-wrong-length

Description Enable automatic packet-capture for cipher code wrong length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-or-hash-unavailable

Description Enable automatic packet-capture for cipher or hash unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-table-src-error

Description Enable automatic packet-capture for cipher table src error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

clienthello-tlsext

Description Enable automatic packet-capture for clienthello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compressed-length-too-long

Description Enable automatic packet-capture for compressed length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-failure

Description Enable automatic packet-capture for compression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-library-error

Description Enable automatic packet-capture for compression library error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-id-is-different

Description Enable automatic packet-capture for connection id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-type-not-set

Description Enable automatic packet-capture for connection type not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie-mismatch

Description Enable automatic packet-capture for cookie mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-between-ccs-and-finished

Description Enable automatic packet-capture for data between ccs and finished

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-length-too-long

Description Enable automatic packet-capture for data length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed

Description Enable automatic packet-capture for decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed-or-bad-record-mac

Description Enable automatic packet-capture for decryption failed or bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dh-public-value-length-is-wrong

Description Enable automatic packet-capture for dh public value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

digest-check-failed

Description Enable automatic packet-capture for digest check failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

encrypted-length-too-long

Description Enable automatic packet-capture for encrypted length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-generating-tmp-rsa-key

Description Enable automatic packet-capture for error generating tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-in-received-cipher-list

Description Enable automatic packet-capture for error in received cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

excessive-message-size

Description Enable automatic packet-capture for excessive message size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

extra-data-in-message

Description Enable automatic packet-capture for extra data in message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

got-a-fin-before-a-ccs

Description Enable automatic packet-capture for got a fin before a ccs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http-request

Description Enable automatic packet-capture for http request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

https-proxy-request

Description Enable automatic packet-capture for https proxy request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

illegal-padding

Description Enable automatic packet-capture for illegal padding

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inappropriate-fallback

Description Enable automatic packet-capture for inappropriate fallback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-challenge-length

Description Enable automatic packet-capture for invalid challenge length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-command

Description Enable automatic packet-capture for invalid command

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-purpose

Description Enable automatic packet-capture for invalid purpose

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-status-response

Description Enable automatic packet-capture for invalid status response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-trust

Description Enable automatic packet-capture for invalid trust

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

key-arg-too-long

Description Enable automatic packet-capture for key arg too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5

Description Enable automatic packet-capture for krb5

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-cc-principal

Description Enable automatic packet-capture for krb5 client cc principal

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-get-cred

Description Enable automatic packet-capture for krb5 client get cred

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-init

Description Enable automatic packet-capture for krb5 client init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-mk-req

Description Enable automatic packet-capture for krb5 client mk_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-bad-ticket

Description Enable automatic packet-capture for krb5 server bad ticket

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-init

Description Enable automatic packet-capture for krb5 server init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-rd-req

Description Enable automatic packet-capture for krb5 server rd_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-expired

Description Enable automatic packet-capture for krb5 server tkt expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-not-yet-valid

Description Enable automatic packet-capture for krb5 server tkt not yet valid

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-skew

Description Enable automatic packet-capture for krb5 server tkt skew

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-mismatch

Description Enable automatic packet-capture for length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-too-short

Description Enable automatic packet-capture for length too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-bug

Description Enable automatic packet-capture for library bug

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-has-no-ciphers

Description Enable automatic packet-capture for library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mast-key-too-long

Description Enable automatic packet-capture for mast key too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

message-too-long

Description Enable automatic packet-capture for message too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-dsa-cert

Description Enable automatic packet-capture for missing dh dsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-key

Description Enable automatic packet-capture for missing dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-rsa-cert

Description Enable automatic packet-capture for missing dh rsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dsa-signing-cert

Description Enable automatic packet-capture for missing dsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-dh-key

Description Enable automatic packet-capture for missing export tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-rsa-key

Description Enable automatic packet-capture for missing export tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-certificate

Description Enable automatic packet-capture for missing rsa certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-encrypting-cert

Description Enable automatic packet-capture for missing rsa encrypting cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-signing-cert

Description Enable automatic packet-capture for missing rsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-dh-key

Description Enable automatic packet-capture for missing tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-key

Description Enable automatic packet-capture for missing tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-pkey

Description Enable automatic packet-capture for missing tmp rsa pkey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-verify-message

Description Enable automatic packet-capture for missing verify message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

multiple-sgc-restarts

Description Enable automatic packet-capture for multiple sgc restarts

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-assigned

Description Enable automatic packet-capture for no certificate assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-returned

Description Enable automatic packet-capture for no certificate returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-set

Description Enable automatic packet-capture for no certificate set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-specified

Description Enable automatic packet-capture for no certificate specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificates-returned

Description Enable automatic packet-capture for no certificates returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-list

Description Enable automatic packet-capture for no cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-match

Description Enable automatic packet-capture for no cipher match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-available

Description Enable automatic packet-capture for no ciphers available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-passed

Description Enable automatic packet-capture for no ciphers passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-specified

Description Enable automatic packet-capture for no ciphers specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-client-cert-received

Description Enable automatic packet-capture for no client cert received

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-compression-specified

Description Enable automatic packet-capture for no compression specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-method-specified

Description Enable automatic packet-capture for no method specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-private-key-assigned

Description Enable automatic packet-capture for no private key assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-privatekey

Description Enable automatic packet-capture for no privatekey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-protocols-available

Description Enable automatic packet-capture for no protocols available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-publickey

Description Enable automatic packet-capture for no publickey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-required-digest

Description Enable automatic packet-capture for no required digest

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-shared-cipher

Description Enable automatic packet-capture for no shared cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-verify-callback

Description Enable automatic packet-capture for no verify callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

non-sslv2-initial-packet

Description Enable automatic packet-capture for non sslv2 initial packet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-ctx

Description Enable automatic packet-capture for null ssl ctx

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-method-passed

Description Enable automatic packet-capture for null ssl method passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

old-session-cipher-not-returned

Description Enable automatic packet-capture for old session cipher not returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-length-too-long

Description Enable automatic packet-capture for packet length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse-tlsext

Description Enable automatic packet-capture for parse tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

path-too-long

Description Enable automatic packet-capture for path too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-did-not-return-a-certificate

Description Enable automatic packet-capture for peer did not return a certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error

Description Enable automatic packet-capture for peer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-certificate

Description Enable automatic packet-capture for peer error certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-certificate

Description Enable automatic packet-capture for peer error no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-cipher

Description Enable automatic packet-capture for peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-unsupported-certificate-type

Description Enable automatic packet-capture for peer error unsupported certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pre-mac-length-too-long

Description Enable automatic packet-capture for pre mac length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

problems-mapping-cipher-functions

Description Enable automatic packet-capture for problems mapping cipher functions

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

protocol-is-shutdown

Description Enable automatic packet-capture for protocol is shutdown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-encrypt-error

Description Enable automatic packet-capture for public key encrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-is-not-rsa

Description Enable automatic packet-capture for public key is not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-not-rsa

Description Enable automatic packet-capture for public key not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-bio-not-set

Description Enable automatic packet-capture for read bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-wrong-packet-type

Description Enable automatic packet-capture for read wrong packet type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-length-mismatch

Description Enable automatic packet-capture for record length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-large

Description Enable automatic packet-capture for record too large

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-small

Description Enable automatic packet-capture for record too small

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

required-cipher-missing

Description Enable automatic packet-capture for required cipher missing

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-length-not-zero

Description Enable automatic packet-capture for reuse cert length not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-type-not-zero

Description Enable automatic packet-capture for reuse cert type not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cipher-list-not-zero

Description Enable automatic packet-capture for reuse cipher list not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

scsv-received-when-renegotiating

Description Enable automatic packet-capture for scsv received when renegotiating

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serverhello-tlsext

Description Enable automatic packet-capture for serverhello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-id-context-uninitialized

Description Enable automatic packet-capture for session id context uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

short-read

Description Enable automatic packet-capture for short read

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

signature-for-non-signing-certificate

Description Enable automatic packet-capture for signature for non signing certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-ctx-has-no-default-ssl-version

Description Enable automatic packet-capture for ssl ctx has no default ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-handshake-failure

Description Enable automatic packet-capture for ssl handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-library-has-no-ciphers

Description Enable automatic packet-capture for ssl library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-callback-failed

Description Enable automatic packet-capture for ssl session id callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-conflict

Description Enable automatic packet-capture for ssl session id conflict

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-context-too-long

Description Enable automatic packet-capture for ssl session id context too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-has-bad-length

Description Enable automatic packet-capture for ssl session id has bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-is-different

Description Enable automatic packet-capture for ssl session id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl2-connection-id-too-long

Description Enable automatic packet-capture for ssl2 connection id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl23-doing-session-id-reuse

Description Enable automatic packet-capture for ssl23 doing session id reuse

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername

Description Enable automatic packet-capture for ssl3 ext invalid servername

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername-type

Description Enable automatic packet-capture for ssl3 ext invalid servername type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-long

Description Enable automatic packet-capture for ssl3 session id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-short

Description Enable automatic packet-capture for ssl3 session id too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-certificate

Description Enable automatic packet-capture for sslv3 alert bad certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-record-mac

Description Enable automatic packet-capture for sslv3 alert bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-expired

Description Enable automatic packet-capture for sslv3 alert certificate expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-revoked

Description Enable automatic packet-capture for sslv3 alert certificate revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-unknown

Description Enable automatic packet-capture for sslv3 alert certificate unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-decompression-failure

Description Enable automatic packet-capture for sslv3 alert decompression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-handshake-failure

Description Enable automatic packet-capture for sslv3 alert handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-illegal-parameter

Description Enable automatic packet-capture for sslv3 alert illegal parameter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-no-certificate

Description Enable automatic packet-capture for sslv3 alert no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-cert

Description Enable automatic packet-capture for sslv3 alert peer error cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cert

Description Enable automatic packet-capture for sslv3 alert peer error no cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cipher

Description Enable automatic packet-capture for sslv3 alert peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-unsupp-cert-type

Description Enable automatic packet-capture for sslv3 alert peer error unsupp cert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unexpected-msg

Description Enable automatic packet-capture for sslv3 alert unexpected msg

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unknown-remote-err-type

Description Enable automatic packet-capture for sslv3 alert unknown remote err type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unspported-cert

Description Enable automatic packet-capture for sslv3 alert unspported cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

tls-client-cert-req-with-anon-cipher

Description Enable automatic packet-capture for tls client cert req with anon cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-invalid-ecpointformat-list

Description Enable automatic packet-capture for tls invalid ecpointformat list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-peer-did-not-respond-with-cert-list

Description Enable automatic packet-capture for tls peer did not respond with cert list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-rsa-encrypted-value-length-is-wrong

Description Enable automatic packet-capture for tls rsa encrypted value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-access-denied

Description Enable automatic packet-capture for tlsv1 alert access denied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decode-error

Description Enable automatic packet-capture for tlsv1 alert decode error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decrypt-error

Description Enable automatic packet-capture for tlsv1 alert decrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decryption-failed

Description Enable automatic packet-capture for tlsv1 alert decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-export-restriction

Description Enable automatic packet-capture for tlsv1 alert export restriction

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-insufficient-security

Description Enable automatic packet-capture for tlsv1 alert insufficient security

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-internal-error

Description Enable automatic packet-capture for tlsv1 alert internal error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-no-renegotiation

Description Enable automatic packet-capture for tlsv1 alert no renegotiation

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-protocol-version

Description Enable automatic packet-capture for tlsv1 alert protocol version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-record-overflow

Description Enable automatic packet-capture for tlsv1 alert record overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-unknown-ca

Description Enable automatic packet-capture for tlsv1 alert unknown ca

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-user-cancelled

Description Enable automatic packet-capture for tlsv1 alert user cancelled

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tried-to-use-unsupported-cipher

Description Enable automatic packet-capture for tried to use unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-decode-dh-certs

Description Enable automatic packet-capture for unable to decode dh certs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-extract-public-key

Description Enable automatic packet-capture for unable to extract public key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-dh-parameters

Description Enable automatic packet-capture for unable to find dh parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-public-key-parameters

Description Enable automatic packet-capture for unable to find public key parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-ssl-method

Description Enable automatic packet-capture for unable to find ssl method

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl2-md5-routines

Description Enable automatic packet-capture for unable to load ssl2 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-md5-routines

Description Enable automatic packet-capture for unable to load ssl3 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-sha1-routines

Description Enable automatic packet-capture for unable to load ssl3 sha1 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-message

Description Enable automatic packet-capture for unexpected message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-record

Description Enable automatic packet-capture for unexpected record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uninitialized

Description Enable automatic packet-capture for uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-alert-type

Description Enable automatic packet-capture for unknown alert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-certificate-type

Description Enable automatic packet-capture for unknown certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-returned

Description Enable automatic packet-capture for unknown cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-type

Description Enable automatic packet-capture for unknown cipher type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-key-exchange-type

Description Enable automatic packet-capture for unknown key exchange type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-pkey-type

Description Enable automatic packet-capture for unknown pkey type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-protocol

Description Enable automatic packet-capture for unknown protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-remote-error-type

Description Enable automatic packet-capture for unknown remote error type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-ssl-version

Description Enable automatic packet-capture for unknown ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-state

Description Enable automatic packet-capture for unknown state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-cipher

Description Enable automatic packet-capture for unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-compression-algorithm

Description Enable automatic packet-capture for unsupported compression algorithm

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-digest-type

Description Enable automatic packet-capture for unsupported digest type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-elliptic-curve

Description Enable automatic packet-capture for unsupported elliptic curve

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-option

Description Enable automatic packet-capture for unsupported option

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-protocol

Description Enable automatic packet-capture for unsupported protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-ssl-version

Description Enable automatic packet-capture for unsupported ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-status-type

Description Enable automatic packet-capture for unsupported status type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

write-bio-not-set

Description Enable automatic packet-capture for write bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-cipher-returned

Description Enable automatic packet-capture for wrong cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-counter-of-key-bits

Description Enable automatic packet-capture for wrong counter of key bits

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-message-type

Description Enable automatic packet-capture for wrong message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-length

Description Enable automatic packet-capture for wrong signature length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-size

Description Enable automatic packet-capture for wrong signature size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-ssl-version

Description Enable automatic packet-capture for wrong ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-version-counter

Description Enable automatic packet-capture for wrong version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-lib

Description Enable automatic packet-capture for x509 lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-verification-setup-problems

Description Enable automatic packet-capture for x509 verification setup problems

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-icap

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-icap_trigger-stats-inc*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-icap_trigger-stats-inc

Specification	Value
Type	*object*

app_serv_conn_err

Description Enable automatic packet-capture for App Server Conn Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

app_serv_conn_no_pcb_err

Description Enable automatic packet-capture for App Server Conn no ES PCB Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk1_hdr_err

Description Enable automatic packet-capture for Chunk Hdr Err1 Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk2_hdr_err

Description Enable automatic packet-capture for Chunk Hdr Err2 Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk_bad_trail_err

Description Enable automatic packet-capture for Chunk Bad Trail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

encap_hdr_incomplete_err

Description Enable automatic packet-capture for Encap HDR Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_hdr_err

Description Enable automatic packet-capture for HTTP Resp Hdr Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_line_parse_err

Description Enable automatic packet-capture for HTTP Response Line Parse Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_line_read_err

Description Enable automatic packet-capture for HTTP Response Line Read Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icap_line_err

Description Enable automatic packet-capture for ICAP Line Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icap_ver_err

Description Enable automatic packet-capture for ICAP Ver Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_icap_resp_err

Description Enable automatic packet-capture for No ICAP Resp Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_payload_buff_err

Description Enable automatic packet-capture for No Payload Buff Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_payload_next_buff_err

Description Enable automatic packet-capture for No Payload In Next Buff Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_status_code_err

Description Enable automatic packet-capture for No Status Code Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

prep_req_fail_err

Description Enable automatic packet-capture for Prepare ICAP req fail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

req_hdr_incomplete_err

Description Enable automatic packet-capture for Req Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_err

Description Enable automatic packet-capture for Resp Hdr Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_incomplete_err

Description Enable automatic packet-capture for Resp Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_parse_err

Description Enable automatic packet-capture for Resp Line Parse Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_read_err

Description Enable automatic packet-capture for Resp Line Read Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serv_sel_fail_err

Description Enable automatic packet-capture for Server Select Fail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

start_icap_conn_fail_err

Description Enable automatic packet-capture for Start ICAP conn fail Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Specification	Value
Type	*object*

app_serv_conn_err

Description Enable automatic packet-capture for App Server Conn Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

app_serv_conn_no_pcb_err

Description Enable automatic packet-capture for App Server Conn no ES PCB Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk1_hdr_err

Description Enable automatic packet-capture for Chunk Hdr Err1 Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk2_hdr_err

Description Enable automatic packet-capture for Chunk Hdr Err2 Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk_bad_trail_err

Description Enable automatic packet-capture for Chunk Bad Trail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

encap_hdr_incomplete_err

Description Enable automatic packet-capture for Encap HDR Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_hdr_err

Description Enable automatic packet-capture for HTTP Resp Hdr Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_line_parse_err

Description Enable automatic packet-capture for HTTP Response Line Parse Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_line_read_err

Description Enable automatic packet-capture for HTTP Response Line Read Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icap_line_err

Description Enable automatic packet-capture for ICAP Line Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icap_ver_err

Description Enable automatic packet-capture for ICAP Ver Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_icap_resp_err

Description Enable automatic packet-capture for No ICAP Resp Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_payload_buff_err

Description Enable automatic packet-capture for No Payload Buff Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_payload_next_buff_err

Description Enable automatic packet-capture for No Payload In Next Buff Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_status_code_err

Description Enable automatic packet-capture for No Status Code Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

prep_req_fail_err

Description Enable automatic packet-capture for Prepare ICAP req fail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

req_hdr_incomplete_err

Description Enable automatic packet-capture for Req Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_err

Description Enable automatic packet-capture for Resp Hdr Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_incomplete_err

Description Enable automatic packet-capture for Resp Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_parse_err

Description Enable automatic packet-capture for Resp Line Parse Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_read_err

Description Enable automatic packet-capture for Resp Line Read Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serv_sel_fail_err

Description Enable automatic packet-capture for Server Select Fail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

start_icap_conn_fail_err

Description Enable automatic packet-capture for Start ICAP conn fail Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Specification	Value
Type	*object*

connections-failed

Description Enable automatic packet-capture for Connections failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-certificate-signing

Description Enable automatic packet-capture for Failed in Certificate signing

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-certificate-verification

Description Enable automatic packet-capture for Failed in Certificate verification

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-crypto-operations

Description Enable automatic packet-capture for Failed in crypto operations

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-ssl-handshakes

Description Enable automatic packet-capture for Failed in SSL handshakes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-tcp

Description Enable automatic packet-capture for Failed in TCP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-ocsp-stapling-response

Description Enable automatic packet-capture for Invalid OCSP Stapling Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

revoked-ocsp-response

Description Enable automatic packet-capture for Revoked OCSP Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-ssl-version

Description Enable automatic packet-capture for Unsupported SSL version

Type: boolean

Supported Values: true, false, 1, 0

Specification	Value
Type	*object*

blade-gtp-c-smp-sig-check-failed

Description Enable automatic packet-capture for GTP-C SMP signature check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-info-ext-not-found

Description Enable automatic packet-capture for GTP-Info ext not found while freeing C-smp on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-rate-limit-entry-create-failu

Description Enable automatic packet-capture for GTP Rate Limit Entry Create Failure on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-rate-limit-smp-create-failure

Description Enable automatic packet-capture for GTP Rate Limit SMP Create Failure on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-rate-limit-t3-ctr-create-fail

Description Enable automatic packet-capture for GTP Rate Limit Dynamic Counters Create Failure on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-c-check-failed

Description Enable automatic packet-capture for GTP-C SMP check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-dec-sess-count-check-fail

Description Enable automatic packet-capture for GTP-U session count is 0 in GTP-C SMP on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-path-check-failed

Description Enable automatic packet-capture for GTP SMP PATH check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-session-count-check-faile

Description Enable automatic packet-capture for GTP-U session count is not in range of 0-11 in GTP-C SMP on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-sig-check-failed

Description Enable automatic packet-capture for GTP SMP signature check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-u-smp-check-failed

Description Enable automatic packet-capture for GTP U-SMP check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-u-smp-sig-check-failed

Description Enable automatic packet-capture for GTP-U SMP signature check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-out-of-session-memory

Description Enable automatic packet-capture for Out of Tunnel Memory on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-c-fail-conn-create-slow

Description Enable automatic packet-capture for GTP-C packet failed creating L4-session in slowpath

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-c-smp-sig-check-failed

Description Enable automatic packet-capture for GTP-C SMP signature check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-info-ext-not-found

Description Enable automatic packet-capture for GTP-Info ext not found while freeing C-smp

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-pathm-fail-conn-create-slow

Description Enable automatic packet-capture for GTP path packet failed while creating L4-session in slowpath

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-rate-limit-entry-create-failure

Description Enable automatic packet-capture for GTP Rate Limit Entry Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-rate-limit-smp-create-failure

Description Enable automatic packet-capture for GTP Rate Limit SMP Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-rate-limit-t3-ctr-create-failure

Description Enable automatic packet-capture for GTP Rate Limit Dynamic Counters Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-c-check-failed

Description Enable automatic packet-capture for GTP-C SMP check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-dec-sess-count-check-failed

Description Enable automatic packet-capture for GTP-U session count is 0 in GTP-C SMP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-path-check-failed

Description Enable automatic packet-capture for GTP SMP PATH check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-sig-check-failed

Description Enable automatic packet-capture for GTP SMP signature check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-tunnel-rate-limit-entry-create-fail

Description Enable automatic packet-capture for GTP Tunnel Level Rate Limit Entry Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-fail-conn-create-slow

Description Enable automatic packet-capture for GTP-U packet failed while creating L4-session in slowpath

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-smp-check-failed

Description Enable automatic packet-capture for GTP U-SMP check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-smp-sig-check-failed

Description Enable automatic packet-capture for GTP SMP signature check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-tunnel-rate-limit-entry-create-fa

Description Enable automatic packet-capture for GTP-U Tunnel Level Rate Limit Entry Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

out-of-session-memory

Description Enable automatic packet-capture for Out of Tunnel Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Description Enable automatic packet-capture for L2 redirect pkt vlan not retrieved

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_chassis_dest_mac_er

Description Enable automatic packet-capture for L3 Redirect RX multi-slot Destination MAC Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_encap_error_drop

Description Enable automatic packet-capture for L3 Redirect encap error drop during transmission

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_fragmentation_error

Description Enable automatic packet-capture for L3 redirect encap Fragmentation error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_inner_mac_zero_drop

Description Enable automatic packet-capture for L3 Redirect inner mac zero drop during transmission

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_invalid_dev_dir

Description Enable automatic packet-capture for L3 Redirect Invalid Device direction during transmission

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_table_error

Description Enable automatic packet-capture for L3 Redirect Table error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_table_no_entry_foun

Description Enable automatic packet-capture for L3 redirect Table no redirect entry found error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_slb_nat_release_fail

Description Enable automatic packet-capture for Total SLB NAT release failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_slb_nat_reserve_fail

Description Enable automatic packet-capture for Total SLB NAT reserve failures

Type: boolean

Supported Values: true, false, 1, 0

bad_ip_payload_len

Description Enable automatic packet-capture for Bad IP Payload Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_ttl

Description Enable automatic packet-capture for Bad IP TTL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_tcp_urg_offset

Description Enable automatic packet-capture for TCP Bad Urgent Offset Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

csum

Description Enable automatic packet-capture for Bad IP Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

emp_frg

Description Enable automatic packet-capture for Empty Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

emp_mic_frg

Description Enable automatic packet-capture for Micro Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

frg

Description Enable automatic packet-capture for IPv4 Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gre_pptp_err

Description Enable automatic packet-capture for GRE PPTP Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipip_tnl_err

Description Enable automatic packet-capture for IP-over-IP Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipip_tnl_msmtch

Description Enable automatic packet-capture for IP-over-IP Tunnel Mismatch Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_ah

Description Enable automatic packet-capture for IPv6 Authentication Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_dest

Description Enable automatic packet-capture for IPv6 Destination Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_esp

Description Enable automatic packet-capture for IPv6 ESP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_frag

Description Enable automatic packet-capture for IPv6 Fragmentation Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_hbh

Description Enable automatic packet-capture for IPv6 Hop by Hop Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_malformed

Description Enable automatic packet-capture for IPv6 Malformed Extension Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_mobility

Description Enable automatic packet-capture for IPv6 Mobility Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_none

Description Enable automatic packet-capture for IPv6 No Next Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_other

Description Enable automatic packet-capture for IPv6 Unknown Extension Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_routing

Description Enable automatic packet-capture for IPv6 Routing Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

land

Description Enable automatic packet-capture for Land Attack Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_ip_payload

Description Enable automatic packet-capture for No IP Payload drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nvgre_err

Description Enable automatic packet-capture for GRE Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

opt

Description Enable automatic packet-capture for IPv4 Options Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

over_ip_payload

Description Enable automatic packet-capture for Oversize IP Payload Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pod

Description Enable automatic packet-capture for ICMP Ping of Death Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt_ip_hdr

Description Enable automatic packet-capture for Runt IP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt_tcp_udp_hdr

Description Enable automatic packet-capture for Runt TCP/UDP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_bad_csum

Description Enable automatic packet-capture for TCP Bad Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_bad_iplen

Description Enable automatic packet-capture for TCP Bad IP Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_frg_hdr

Description Enable automatic packet-capture for TCP Fragmented Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_null_frg

Description Enable automatic packet-capture for TCP Null Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_null_scan

Description Enable automatic packet-capture for TCP Null Scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_opt_err

Description Enable automatic packet-capture for TCP Option Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_sht_hdr

Description Enable automatic packet-capture for TCP Short Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_syn_fin

Description Enable automatic packet-capture for TCP Syn and Fin Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_syn_frg

Description Enable automatic packet-capture for TCP Syn Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_xmas

Description Enable automatic packet-capture for TCP XMAS Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_xmas_scan

Description Enable automatic packet-capture for TCP XMAS Scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_bad_csum

Description Enable automatic packet-capture for UDP Bad Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_bad_len

Description Enable automatic packet-capture for UDP Bad Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_kerb_frg

Description Enable automatic packet-capture for UDP Kerberos Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_port_lb

Description Enable automatic packet-capture for UDP Port Loopback Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_srt_hdr

Description Enable automatic packet-capture for UDP Short Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vxlan_err

Description Enable automatic packet-capture for VXLAN Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_ip-anomaly-drop_trigger-stats-rate

Specification	Value
Type	*object*

bad_ip_flg

Description Enable automatic packet-capture for Bad IP Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_frg_offset

Description Enable automatic packet-capture for Bad IP Fragment Offset Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_hdrlen

Description Enable automatic packet-capture for Bad IP Header Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_payload_len

Description Enable automatic packet-capture for Bad IP Payload Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_ttl

Description Enable automatic packet-capture for Bad IP TTL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_tcp_urg_offset

Description Enable automatic packet-capture for TCP Bad Urgent Offset Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

csum

Description Enable automatic packet-capture for Bad IP Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

emp_frg

Description Enable automatic packet-capture for Empty Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

emp_mic_frg

Description Enable automatic packet-capture for Micro Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

frg

Description Enable automatic packet-capture for IPv4 Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gre_pptp_err

Description Enable automatic packet-capture for GRE PPTP Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipip_tnl_err

Description Enable automatic packet-capture for IP-over-IP Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipip_tnl_msmtch

Description Enable automatic packet-capture for IP-over-IP Tunnel Mismatch Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_ah

Description Enable automatic packet-capture for IPv6 Authentication Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_dest

Description Enable automatic packet-capture for IPv6 Destination Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_esp

Description Enable automatic packet-capture for IPv6 ESP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_frag

Description Enable automatic packet-capture for IPv6 Fragmentation Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_hbh

Description Enable automatic packet-capture for IPv6 Hop by Hop Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_malformed

Description Enable automatic packet-capture for IPv6 Malformed Extension Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_mobility

Description Enable automatic packet-capture for IPv6 Mobility Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_none

Description Enable automatic packet-capture for IPv6 No Next Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_other

Description Enable automatic packet-capture for IPv6 Unknown Extension Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_routing

Description Enable automatic packet-capture for IPv6 Routing Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

land

Description Enable automatic packet-capture for Land Attack Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_ip_payload

Description Enable automatic packet-capture for No IP Payload drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nvgre_err

Description Enable automatic packet-capture for GRE Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

opt

Description Enable automatic packet-capture for IPv4 Options Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

over_ip_payload

Description Enable automatic packet-capture for Oversize IP Payload Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pod

Description Enable automatic packet-capture for ICMP Ping of Death Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt_ip_hdr

Description Enable automatic packet-capture for Runt IP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt_tcp_udp_hdr

Description Enable automatic packet-capture for Runt TCP/UDP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_bad_csum

Description Enable automatic packet-capture for TCP Bad Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_bad_iplen

Description Enable automatic packet-capture for TCP Bad IP Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_frg_hdr

Description Enable automatic packet-capture for TCP Fragmented Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_null_frg

Description Enable automatic packet-capture for TCP Null Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_null_scan

Description Enable automatic packet-capture for TCP Null Scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_opt_err

Description Enable automatic packet-capture for TCP Option Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_sht_hdr

Description Enable automatic packet-capture for TCP Short Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_syn_fin

Description Enable automatic packet-capture for TCP Syn and Fin Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_syn_frg

Description Enable automatic packet-capture for TCP Syn Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_xmas

Description Enable automatic packet-capture for TCP XMAS Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_xmas_scan

Description Enable automatic packet-capture for TCP XMAS Scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

udp_bad_csum

Description Enable automatic packet-capture for UDP Bad Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_bad_len

Description Enable automatic packet-capture for UDP Bad Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_kerb_frg

Description Enable automatic packet-capture for UDP Kerberos Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_port_lb

Description Enable automatic packet-capture for UDP Port Loopback Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_srt_hdr

Description Enable automatic packet-capture for UDP Short Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vxlan_err

Description Enable automatic packet-capture for VXLAN Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_fw-ddos-protection

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_fw-ddos-protection_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/fw-ddos-protection/trigger-stats-inc*

trigger-stats-rate

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_fw-ddos-protection_trigger-stats-inc

Specification	Value
Type	*object*

ddos_entries_too_many

Description Enable automatic packet-capture for Too many DDOS entries

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ddos_entry_add_to_bgp_failure

Description Enable automatic packet-capture for DDoS Entry BGP add failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ddos_entry_remove_from_bgp_failure

Description Enable automatic packet-capture for DDOS entry BGP remove failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ddos_packet_dropped

Description Enable automatic packet-capture for DDOS Packet Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_fw-ddos-protection_trigger-stats-rate

Specification	Value
Type	*object*

auth_unsupported

Description Enable automatic packet-capture for Unsupported auth

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_epsv

Description Enable automatic packet-capture for cant find epsv

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_pasv

Description Enable automatic packet-capture for cant find pasv

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_request_err

Description Enable automatic packet-capture for Client RQ state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_send_fail

Description Enable automatic packet-capture for data send fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_server_conn_fail

Description Enable automatic packet-capture for data svr conn fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_start_line

Description Enable automatic packet-capture for invalid start line

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_create_fail

Description Enable automatic packet-capture for smp create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_pbsz_value

Description Enable automatic packet-capture for Unsupported PBSZ

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_prot_value

Description Enable automatic packet-capture for Unsupported PROT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_system-ip-threat-list_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

error_out_of_memory

Description Enable automatic packet-capture for Out of memory Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error_out_of_spe_entries

Description Enable automatic packet-capture for Out of SPE Entries Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_system-hardware-accelerate

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_system-hardware-accelerate_trigger-stats-inc*

Type: Object

Specification	Value
Type	*object*

hw-fwd-flow-error-count

Description Enable automatic packet-capture for Hardware forward flow error count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hw-fwd-flow-seq-mismatch

Description Enable automatic packet-capture for Hardware forward sequence mismatch errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hw-fwd-flow-singlebit-errors

Description Enable automatic packet-capture for Hardware forward singlebit Errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hw-fwd-flow-tag-mismatch

Description Enable automatic packet-capture for Hardware forward tag mismatch errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hw-fwd-flow-unalign-count

Description Enable automatic packet-capture for Hardware forward flow unalign count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hw-fwd-flow-underflow-count

Description Enable automatic packet-capture for Hardware forward flow underflow count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hw-fwd-prog-errors

Description Enable automatic packet-capture for Hardware forward programming Errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description Enable automatic packet-capture for RADIUS Request Table Full Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-malformed-dropped

Description Enable automatic packet-capture for RADIUS Request Malformed Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-no-key-vap-dropped

Description Enable automatic packet-capture for RADIUS Request No Key Attribute Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_fw-rad-server_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

ha-standby-dropped

Description Enable automatic packet-capture for HA Standby Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-key

Description Enable automatic packet-capture for Radius Request has Invalid Key Field

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6-prefix-length-mismatch

Description Enable automatic packet-capture for Framed IPV6 Prefix Length Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-request-dropped

Description Enable automatic packet-capture for RADIUS Request Dropped (Malformed Packet)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-table-full

Description Enable automatic packet-capture for RADIUS Request Dropped (Table Full)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-bad-secret-dropped

Description Enable automatic packet-capture for RADIUS Request Bad Secret Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-ignored

Description Enable automatic packet-capture for RADIUS Request Table Full Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-malformed-dropped

Description Enable automatic packet-capture for RADIUS Request Malformed Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-no-key-vap-dropped

Description Enable automatic packet-capture for RADIUS Request No Key Attribute Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-mlb

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-mlb_trigger-stats-inc*

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-fixed-nat-global/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-fixed-nat-global_trigger-stats-inc

Specification	Value
Type	*object*

config-not-found

Description Enable automatic packet-capture for Fixed NAT Config not Found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-drop

Description Enable automatic packet-capture for Fixed NAT Dest Rule List Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-pass-through

Description Enable automatic packet-capture for Fixed NAT Dest Rule List Pass-Through

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-snat-drop

Description Enable automatic packet-capture for Fixed NAT Dest Rules List Source NAT Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-eif-limit-exceeded

Description Enable automatic packet-capture for DS-Lite Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-inbound-filtered

Description Enable automatic packet-capture for DS-Lite Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fixed-nat-fullcone-self-hairpinning-dro

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone-failure

Description Enable automatic packet-capture for Full-Cone Session Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha-session-user-quota-exceeded

Description Enable automatic packet-capture for HA Sessions User Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-icmp

Description Enable automatic packet-capture for ICMP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-tcp

Description Enable automatic packet-capture for TCP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-udp

Description Enable automatic packet-capture for UDP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-eif-limit-exceeded

Description Enable automatic packet-capture for NAT44 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-inbound-filtered

Description Enable automatic packet-capture for NAT44 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-eif-limit-exceeded

Description Enable automatic packet-capture for NAT64 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-inbound-filtered

Description Enable automatic packet-capture for NAT64 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-overload-failed

Description Enable automatic packet-capture for Port overload failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-user-quota-exceeded

Description Enable automatic packet-capture for Sessions User Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sixrd-drop

Description Enable automatic packet-capture for Fixed NAT IPv6 in IPv4 Packet Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

standby-drop

Description Enable automatic packet-capture for Fixed NAT LID Standby Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-fixed-nat-global_trigger-stats-rate

Specification	Value
Type	*object*

config-not-found

Description Enable automatic packet-capture for Fixed NAT Config not Found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-drop

Description Enable automatic packet-capture for Fixed NAT Dest Rule List Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-pass-through

Description Enable automatic packet-capture for Fixed NAT Dest Rule List Pass-Through

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-snat-drop

Description Enable automatic packet-capture for Fixed NAT Dest Rules List Source NAT Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-eif-limit-exceeded

Description Enable automatic packet-capture for DS-Lite Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-inbound-filtered

Description Enable automatic packet-capture for DS-Lite Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

fixed-nat-fullcone-self-hairpinning-dro

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone-failure

Description Enable automatic packet-capture for Full-Cone Session Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha-session-user-quota-exceeded

Description Enable automatic packet-capture for HA Sessions User Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-icmp

Description Enable automatic packet-capture for ICMP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-tcp

Description Enable automatic packet-capture for TCP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-udp

Description Enable automatic packet-capture for UDP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-eif-limit-exceeded

Description Enable automatic packet-capture for NAT44 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-inbound-filtered

Description Enable automatic packet-capture for NAT44 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-eif-limit-exceeded

Description Enable automatic packet-capture for NAT64 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-inbound-filtered

Description Enable automatic packet-capture for NAT64 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-overload-failed

Description Enable automatic packet-capture for Port overload failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-user-quota-exceeded

Description Enable automatic packet-capture for Sessions User Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sixrd-drop

Description Enable automatic packet-capture for Fixed NAT IPv6 in IPv4 Packet Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

standby-drop

Description Enable automatic packet-capture for Fixed NAT LID Standby Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type	*object*

compress_ctx_alloc_fail

Description Enable automatic packet-capture for Compression context allocation fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ctx_alloc_fail

Description Enable automatic packet-capture for Context alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_cb_no_tuple

Description Enable automatic packet-capture for Data callback no tuple

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream

Description Enable automatic packet-capture for Data no stream found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream_goaway_close

Description Enable automatic packet-capture for Data no stream and no goaway and close session

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream_no_goaway

Description Enable automatic packet-capture for Data no stream and no goaway

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decompress_fail

Description Enable automatic packet-capture for Decompress fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

est_cb_no_tuple

Description Enable automatic packet-capture for Est callback no tuple

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_compress_fail

Description Enable automatic packet-capture for Header compress fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_conn_alloc_fail

Description Enable automatic packet-capture for HTTP connection allocation fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_err_stream_closed

Description Enable automatic packet-capture for HTTP error stream already closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_size

Description Enable automatic packet-capture for Invalid frame size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_version

Description Enable automatic packet-capture for Invalid version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request_header_alloc_fail

Description Enable automatic packet-capture for Request/Header allocation fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session_err

Description Enable automatic packet-capture for Session err

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stream_alloc_fail

Description Enable automatic packet-capture for Stream alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stream_err

Description Enable automatic packet-capture for Stream err

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stream_not_found

Description Enable automatic packet-capture for STREAM not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_err

Description Enable automatic packet-capture for TCP sock error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

bad-ip-chksum-drop

Description Enable automatic packet-capture for Total Bad IP csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-flags-drop

Description Enable automatic packet-capture for Total Bad IP Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-frag-offset

Description Enable automatic packet-capture for Total Bad IP frag off Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-hdr-len

Description Enable automatic packet-capture for Total Bad IP hdr len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-payload-len

Description Enable automatic packet-capture for Total Bad IP PL len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-ttl-drop

Description Enable automatic packet-capture for Total Bad IP TTL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

empty-frag-drop

Description Enable automatic packet-capture for Total Empty frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fcs-drop

Description Enable automatic packet-capture for Total FCS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hrx-drop

Description Enable automatic packet-capture for Total HRX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmp-pod-drop

Description Enable automatic packet-capture for Total ICMP POD Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv4-frag

Description Enable automatic packet-capture for Total IP frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv4-opt-drop

Description Enable automatic packet-capture for Total IPv4 opt Drop

Type: boolean

mrx-drop

Description Enable automatic packet-capture for Total MRX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ip-payload-drop

Description Enable automatic packet-capture for Total No IP Payload Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

oversize-ip-payload

Description Enable automatic packet-capture for Total Oversize IP PL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt-ip-hdr

Description Enable automatic packet-capture for Total Runt IP hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt-tcpudp-hdr

Description Enable automatic packet-capture for Total Runt TCPUDP hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

siz-drop

Description Enable automatic packet-capture for Total Size Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-chksum

Description Enable automatic packet-capture for Total TCP bad csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-ip-len

Description Enable automatic packet-capture for Total TCP Bad IP Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-urg-offet

Description Enable automatic packet-capture for Total TCP bad urg off Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-fin-sin

Description Enable automatic packet-capture for Total TCP SYN&FIN Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-frag-hdr

Description Enable automatic packet-capture for Total TCP frag header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-null-flags

Description Enable automatic packet-capture for Total TCP null flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-null-scan

Description Enable automatic packet-capture for Total TCP null scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-short-hdr

Description Enable automatic packet-capture for Total TCP short hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-syn-frag

Description Enable automatic packet-capture for Total TCP SYN frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-xmas-flags

Description Enable automatic packet-capture for Total TCP XMAS FLAGS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-xmas-scan

Description Enable automatic packet-capture for Total TCP XMAS scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tun-mismatch

Description Enable automatic packet-capture for Total Tun mismatch Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-bad-chksum

Description Enable automatic packet-capture for Total UDP bad csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-bad-ip-len

Description Enable automatic packet-capture for Total UDP bad leng Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-kb-frags

Description Enable automatic packet-capture for Total UDP KB frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-port-lb

Description Enable automatic packet-capture for Total UDP port LB Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-short-hdr

Description Enable automatic packet-capture for Total UDP short hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_system-fpga-drop_trigger-stats-rate

Specification	Value
Type	*object*

bad-ip-chksum-drop

Description Enable automatic packet-capture for Total Bad IP csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-flags-drop

Description Enable automatic packet-capture for Total Bad IP Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-frag-offset

Description Enable automatic packet-capture for Total Bad IP frag off Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-hdr-len

Description Enable automatic packet-capture for Total Bad IP hdr len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-payload-len

Description Enable automatic packet-capture for Total Bad IP PL len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-ttl-drop

Description Enable automatic packet-capture for Total Bad IP TTL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

empty-frag-drop

Description Enable automatic packet-capture for Total Empty frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fcs-drop

Description Enable automatic packet-capture for Total FCS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hrx-drop

Description Enable automatic packet-capture for Total HRX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmp-pod-drop

Description Enable automatic packet-capture for Total ICMP POD Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv4-frag

Description Enable automatic packet-capture for Total IP frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv4-opt-drop

Description Enable automatic packet-capture for Total IPv4 opt Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

land-drop

Description Enable automatic packet-capture for Total LAND Attack Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mic-frag-drop

Description Enable automatic packet-capture for Total Micro frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mrx-drop

Description Enable automatic packet-capture for Total MRX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ip-payload-drop

Description Enable automatic packet-capture for Total No IP Payload Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

oversize-ip-payload

Description Enable automatic packet-capture for Total Oversize IP PL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt-ip-hdr

Description Enable automatic packet-capture for Total Runt IP hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt-tcpudp-hdr

Description Enable automatic packet-capture for Total Runt TCPUDP hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

siz-drop

Description Enable automatic packet-capture for Total Size Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-chksum

Description Enable automatic packet-capture for Total TCP bad csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-ip-len

Description Enable automatic packet-capture for Total TCP Bad IP Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-urg-offet

Description Enable automatic packet-capture for Total TCP bad urg off Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-fin-sin

Description Enable automatic packet-capture for Total TCP SYN&FIN Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-frag-hdr

Description Enable automatic packet-capture for Total TCP frag header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-null-flags

Description Enable automatic packet-capture for Total TCP null flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-null-scan

Description Enable automatic packet-capture for Total TCP null scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-short-hdr

Description Enable automatic packet-capture for Total TCP short hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-syn-frag

Description Enable automatic packet-capture for Total TCP SYN frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-xmas-flags

Description Enable automatic packet-capture for Total TCP XMAS FLAGS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-xmas-scan

Description Enable automatic packet-capture for Total TCP XMAS scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

tun-mismatch

Description Enable automatic packet-capture for Total Tun mismatch Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-bad-chksum

Description Enable automatic packet-capture for Total UDP bad csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-bad-ip-len

Description Enable automatic packet-capture for Total UDP bad leng Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-kb-frags

Description Enable automatic packet-capture for Total UDP KB frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-port-lb

Description Enable automatic packet-capture for Total UDP port LB Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-short-hdr

Description Enable automatic packet-capture for Total UDP short hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

cookie_invalid

Description Enable automatic packet-capture for Invalid persist cookie

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie_not_found

Description Enable automatic packet-capture for Persist cookie not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie_persist_fail

Description Enable automatic packet-capture for Cookie persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cssl_sid_not_found

Description Enable automatic packet-capture for Client SSL SID not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cssl_sid_not_match

Description Enable automatic packet-capture for Client SSL SID not match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_fail

Description Enable automatic packet-capture for DST IP persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_hash_fail

Description Enable automatic packet-capture for DST IP hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_new_sess_cache_fail

Description Enable automatic packet-capture for DST IP new sess fail (c)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_new_sess_sel_fail

Description Enable automatic packet-capture for DST IP new sess fail (s)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_create_fail

Description Enable automatic packet-capture for Hash tbl create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_rst_adddel

Description Enable automatic packet-capture for Hash tbl reset (add/del)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_rst_updown

Description Enable automatic packet-capture for Hash tbl reset (up/down)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_trylock_fail

Description Enable automatic packet-capture for Hash tbl lock fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_hash_fail

Description Enable automatic packet-capture for Header hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_fail

Description Enable automatic packet-capture for SRC IP persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_hash_fail

Description Enable automatic packet-capture for SRC IP hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_new_sess_cache_fail

Description Enable automatic packet-capture for SRC IP new sess fail (c)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_new_sess_sel_fail

Description Enable automatic packet-capture for SRC IP new sess fail (s)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_sid_persist_fail

Description Enable automatic packet-capture for SSL SID persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_sid_session_fail

Description Enable automatic packet-capture for Create SSL SID fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sssl_sid_not_found

Description Enable automatic packet-capture for Server SSL SID not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sssl_sid_not_match

Description Enable automatic packet-capture for Server SSL SID not match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

url_hash_fail

Description Enable automatic packet-capture for URL hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Supported Values: true, false, 1, 0

Default: 0

fullcone_self_hairpinning_drop

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_alloc_single_port_failure

Description Enable automatic packet-capture for H323 ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_batch_type_mismatch

Description Enable automatic packet-capture for HA NAT Pool Batch Type Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_unusable

Description Enable automatic packet-capture for HA NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_port_pair_alloc_from_quota_par

Description Enable automatic packet-capture for MGCP ALG Port Pair Allocated From Quota Partition Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_pool_unusable

Description Enable automatic packet-capture for NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_inc_overflow

Description Enable automatic packet-capture for Port Overloading Inc Overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_out_of_memory

Description Enable automatic packet-capture for Port Overloading Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_rtp_rtcp_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc RTP/RTCP NAT Ports Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_single_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_quota_inc_failure

Description Enable automatic packet-capture for SIP ALG User-Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_failure

Description Enable automatic packet-capture for User-Quota Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable

Description Enable automatic packet-capture for User-Quota Marked Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable_drop

Description Enable automatic packet-capture for User-Quota Unusable Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn_trigger-stats-rate

Specification	Value
Type	*object*

adc_port_allocation_failed

Description Enable automatic packet-capture for ADC Port Allocation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_sesn_user_quota_exceeded

Description Enable automatic packet-capture for Data Session User-Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

fullcone_ext_mem_alloc_failure

Description Enable automatic packet-capture for LSN Fullcone Extension Memory Allocate Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_ext_mem_alloc_init_faulure

Description Enable automatic packet-capture for LSN Fullcone Extension Initialization Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_failure

Description Enable automatic packet-capture for Full-cone Session Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_self_hairpinning_drop

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_alloc_single_port_failure

Description Enable automatic packet-capture for H323 ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_batch_type_mismatch

Description Enable automatic packet-capture for HA NAT Pool Batch Type Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_unusable

Description Enable automatic packet-capture for HA NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_port_pair_alloc_from_quota_par

Description Enable automatic packet-capture for MGCP ALG Port Pair Allocated From Quota Partition Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_pool_unusable

Description Enable automatic packet-capture for NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_inc_overflow

Description Enable automatic packet-capture for Port Overloading Inc Overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_out_of_memory

Description Enable automatic packet-capture for Port Overloading Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_rtp_rtcp_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc RTP/RTCP NAT Ports Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_single_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_quota_inc_failure

Description Enable automatic packet-capture for SIP ALG User-Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

user_quota_failure

Description Enable automatic packet-capture for User-Quota Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable

Description Enable automatic packet-capture for User-Quota Marked Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable_drop

Description Enable automatic packet-capture for User-Quota Unusable Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-mssql

Specification	Value
Type	*object*

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-l4_trigger-stats-inc

Specification	Value
Type	*object*

bw_rate_limit_exceed

Description Enable automatic packet-capture for BW-Limit Exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

concurrent_conn_exceed

Description Enable automatic packet-capture for L3V Conn Limit Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

conn_rate_limit_drop

Description Enable automatic packet-capture for Conn rate limit drops

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

conn_rate_limit_reset

Description Enable automatic packet-capture for Conn rate limit resets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connlimit_drop

Description Enable automatic packet-capture for Conn Limit drops

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_policy_drop

Description Enable automatic packet-capture for DNS Policy Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_cps_exceed

Description Enable automatic packet-capture for L4 CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l7_cps_exceed

Description Enable automatic packet-capture for L7 CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_cps_exceed

Description Enable automatic packet-capture for NAT CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_resourse_drop

Description Enable automatic packet-capture for No resource drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smart_nat_id_mismatch

Description Enable automatic packet-capture for Auto NAT id mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_icmp_error_process

Description Enable automatic packet-capture for Source NAT ICMP Process

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_icmp_no_match

Description Enable automatic packet-capture for Source NAT ICMP No Match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_no_fwd_route

Description Enable automatic packet-capture for Source NAT no fwd route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_no_rev_route

Description Enable automatic packet-capture for Source NAT no rev route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_cps_exceed

Description Enable automatic packet-capture for SSL CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_tpt_exceed

Description Enable automatic packet-capture for SSL TPT exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svr_syn_handshake_fail

Description Enable automatic packet-capture for L4 server handshake fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrselfail

Description Enable automatic packet-capture for Server sel failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

synattack

Description Enable automatic packet-capture for L4 SYN attack

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syncookiescheckfailed

Description Enable automatic packet-capture for TCP SYN cookie failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syncookiessentfailed

Description Enable automatic packet-capture for TCP SYN cookie snt fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-l4_trigger-stats-rate

Specification	Value
Type	*object*

bw_rate_limit_exceed

Description Enable automatic packet-capture for BW-Limit Exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

concurrent_conn_exceed

Description Enable automatic packet-capture for L3V Conn Limit Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

conn_rate_limit_drop

Description Enable automatic packet-capture for Conn rate limit drops

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

conn_rate_limit_reset

Description Enable automatic packet-capture for Conn rate limit resets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connlimit_drop

Description Enable automatic packet-capture for Conn Limit drops

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_policy_drop

Description Enable automatic packet-capture for DNS Policy Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

l4_cps_exceed

Description Enable automatic packet-capture for L4 CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l7_cps_exceed

Description Enable automatic packet-capture for L7 CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_cps_exceed

Description Enable automatic packet-capture for NAT CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_resourse_drop

Description Enable automatic packet-capture for No resource drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smart_nat_id_mismatch

Description Enable automatic packet-capture for Auto NAT id mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_icmp_error_process

Description Enable automatic packet-capture for Source NAT ICMP Process

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_icmp_no_match

Description Enable automatic packet-capture for Source NAT ICMP No Match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_no_fwd_route

Description Enable automatic packet-capture for Source NAT no fwd route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_no_rev_route

Description Enable automatic packet-capture for Source NAT no rev route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_cps_exceed

Description Enable automatic packet-capture for SSL CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_tpt_exceed

Description Enable automatic packet-capture for SSL TPT exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svr_syn_handshake_fail

Description Enable automatic packet-capture for L4 server handshake fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrselfail

Description Enable automatic packet-capture for Server sel failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

synattack

Description Enable automatic packet-capture for L4 SYN attack

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syncookiescheckfailed

Description Enable automatic packet-capture for TCP SYN cookie failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syncookiessentfailed

Description Enable automatic packet-capture for TCP SYN cookie snt fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-generic

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-generic_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-generic/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-generic_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-generic/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-generic_trigger-stats-inc

Specification	Value
Type	*object*

client_fail

Description Enable automatic packet-capture for Number of client failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

client_select_fail

Description Enable automatic packet-capture for Fail to select client

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dcmsg_error

Description Enable automatic packet-capture for Diameter cross cpu error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_avp

Description Enable automatic packet-capture for AVP value contains illegal chars

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mismatch_fwd_id

Description Enable automatic packet-capture for Diameter mismatch fwd session id

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mismatch_rev_id

Description Enable automatic packet-capture for Diameter mismatch rev session id

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_fwd_tuple

Description Enable automatic packet-capture for Diameter no fwd tuple matched

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_rev_tuple

Description Enable automatic packet-capture for Diameter no rev tuple matched

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for Number of no routes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_session_id

Description Enable automatic packet-capture for Diameter no session id avp

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_error_info_fail

Description Enable automatic packet-capture for Fail to reply error info to peer

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_unknown_session_id

Description Enable automatic packet-capture for Reply with unknown session ID error info

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

retry_client_request_fail

Description Enable automatic packet-capture for Diameter retry client request fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_fail

Description Enable automatic packet-capture for Number of server failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Number of snat failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Number of server selection failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unkwn_cmd_code

Description Enable automatic packet-capture for Diameter unkown cmd code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-generic_trigger-stats-rate

Specification	Value
Type	*object*

client_fail

Description Enable automatic packet-capture for Number of client failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

client_select_fail

Description Enable automatic packet-capture for Fail to select client

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dcmsg_error

Description Enable automatic packet-capture for Diameter cross cpu error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

invalid_avp

Description Enable automatic packet-capture for AVP value contains illegal chars

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mismatch_fwd_id

Description Enable automatic packet-capture for Diameter mismatch fwd session id

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mismatch_rev_id

Description Enable automatic packet-capture for Diameter mismatch rev session id

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_fwd_tuple

Description Enable automatic packet-capture for Diameter no fwd tuple matched

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_rev_tuple

Description Enable automatic packet-capture for Diameter no rev tuple matched

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for Number of no routes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_session_id

Description Enable automatic packet-capture for Diameter no session id avp

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_error_info_fail

Description Enable automatic packet-capture for Fail to reply error info to peer

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_unknown_session_id

Description Enable automatic packet-capture for Reply with unknown session ID error info

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

retry_client_request_fail

Description Enable automatic packet-capture for Diameter retry client request fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_fail

Description Enable automatic packet-capture for Number of server failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Number of snat failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Number of server selection failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unkwn_cmd_code

Description Enable automatic packet-capture for Diameter unkown cmd code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp_trigger-stats-inc*

Type: Object

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp_trigger-stats-inc

Specification	Value
Type	*object*

call-reply-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Reply

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

call-req-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-gre-session-match

Description Enable automatic packet-capture for No Matching GRE Session

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp_trigger-stats-rate

Specification	Value
Type	*object*

call-reply-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Reply

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

call-req-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

no-gre-session-match

Description Enable automatic packet-capture for No Matching GRE Session

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_logging-local-log-global

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_logging-local-log-global_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/logging-local-log-global/trigger-stats-inc*

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-captcha_trigger-stats-inc

Specification	Value
Type	*object*

attr-fail

Description Enable automatic packet-capture for Total Attribute Check Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

job-start-error

Description Enable automatic packet-capture for Total Job Start Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

json-fail

Description Enable automatic packet-capture for Total Failure JSON Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

other-error

Description Enable automatic packet-capture for Total Other Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

polling-control-error

Description Enable automatic packet-capture for Total Polling Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-dropped

Description Enable automatic packet-capture for Total Dropped Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-error

Description Enable automatic packet-capture for Total Error Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-failure

Description Enable automatic packet-capture for Total Failure Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-timeout

Description Enable automatic packet-capture for Total Timeout Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

timeout-error

Description Enable automatic packet-capture for Total Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-captcha_trigger-stats-rate

Specification	Value
Type	*object*

attr-fail

Description Enable automatic packet-capture for Total Attribute Check Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

job-start-error

Description Enable automatic packet-capture for Total Job Start Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

json-fail

Description Enable automatic packet-capture for Total Failure JSON Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

other-error

Description Enable automatic packet-capture for Total Other Error

Supported Values: true, false, 1, 0

Default: 0

polling-control-error

Description Enable automatic packet-capture for Total Polling Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-dropped

Description Enable automatic packet-capture for Total Dropped Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-error

Description Enable automatic packet-capture for Total Error Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-failure

Description Enable automatic packet-capture for Total Failure Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-timeout

Description Enable automatic packet-capture for Total Timeout Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

timeout-error

Description Enable automatic packet-capture for Total Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Default: 0

io-tx-que-drop

Description Enable automatic packet-capture for Total IO core TX queue drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-drop

Description Enable automatic packet-capture for Total packet drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-lnk-down-drop

Description Enable automatic packet-capture for Total packets link down drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-align-err

Description Enable automatic packet-capture for Total RX packet align error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-crc-err

Description Enable automatic packet-capture for Total RX packet CRC error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-csum-offload-err

Description Enable automatic packet-capture for Total Rx packet check-sum offload error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-err

Description Enable automatic packet-capture for Total RX packet error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-frame-err

Description Enable automatic packet-capture for Total RX packet frame error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-len-err

Description Enable automatic packet-capture for Total RX packet length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-long-len-err

Description Enable automatic packet-capture for Total RX packet long length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-miss-err

Description Enable automatic packet-capture for Total RX packet miss error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-no-buff-err

Description Enable automatic packet-capture for Total RX packet no buffer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-over-err

Description Enable automatic packet-capture for Total RX packet over error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-short-len-err

Description Enable automatic packet-capture for Total RX packet short length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-abort-err

Description Enable automatic packet-capture for Total TX packet abort error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-carrier-err

Description Enable automatic packet-capture for Total TX packert carrier error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-drop

Description Enable automatic packet-capture for Total TX packet drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-err

Description Enable automatic packet-capture for Total TX packet error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-fifo-err

Description Enable automatic packet-capture for Total TX packet fifo error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-hbeat-err

Description Enable automatic packet-capture for Total TX packet HBEAT error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-windows-err

Description Enable automatic packet-capture for Total TX windows error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Default: 0

rx-err

Description Enable automatic packet-capture for Total RX packet error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-frame-err

Description Enable automatic packet-capture for Total RX packet frame error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-len-err

Description Enable automatic packet-capture for Total RX packet length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-long-len-err

Description Enable automatic packet-capture for Total RX packet long length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-miss-err

Description Enable automatic packet-capture for Total RX packet miss error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-no-buff-err

Description Enable automatic packet-capture for Total RX packet no buffer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-over-err

Description Enable automatic packet-capture for Total RX packet over error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-short-len-err

Description Enable automatic packet-capture for Total RX packet short length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

tx-abort-err

Description Enable automatic packet-capture for Total TX packet abort error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-carrier-err

Description Enable automatic packet-capture for Total TX packert carrier error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-drop

Description Enable automatic packet-capture for Total TX packet drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-err

Description Enable automatic packet-capture for Total TX packet error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-fifo-err

Description Enable automatic packet-capture for Total TX packet fifo error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-hbeat-err

Description Enable automatic packet-capture for Total TX packet HBEAT error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-windows-err

Description Enable automatic packet-capture for Total TX windows error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

w-link-down-drop

Description Enable automatic packet-capture for Total worker core link down drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

w-ring-drop

Description Enable automatic packet-capture for Total worker core ring drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

w-tx-que-drop

Description Enable automatic packet-capture for Total worker core queue drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_system-tcp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_system-tcp_trigger-stats-inc*

Specification	Value
Type	*object*

ip_node_alloc_failure

Description Enable automatic packet-capture for Node alloc failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ip_other_block_alloc_failure

Description Enable automatic packet-capture for Other block alloc failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ip_port_block_alloc_failure

Description Enable automatic packet-capture for Port block alloc failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_add_to_bgp_failure

Description Enable automatic packet-capture for L3 Entry BGP add failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_add_to_hw_failure

Description Enable automatic packet-capture for L3 entry HW add failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_drop_max_hw_exceeded

Description Enable automatic packet-capture for L3 Entry Drop due to HW Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_match_drop

Description Enable automatic packet-capture for L3 Entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_match_drop_hw

Description Enable automatic packet-capture for L3 HW entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_remove_from_bgp_failure

Description Enable automatic packet-capture for L3 entry BGP remove failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_drop_max_hw_exceeded

Description Enable automatic packet-capture for L4 Entry Drop due to HW Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_list_alloc_failure

Description Enable automatic packet-capture for L4 Entry list alloc failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_match_drop

Description Enable automatic packet-capture for L4 Entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_match_drop_hw

Description Enable automatic packet-capture for L4 HW Entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syn_cookie_verification_failed

Description Enable automatic packet-capture for SYN cookie verification failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Type	*object*

crl_cache_status_revoked

Description Enable automatic packet-capture for CRL cache status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_connection_error

Description Enable automatic packet-capture for CRL connection errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_other_error

Description Enable automatic packet-capture for CRL other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_response_status_revoked

Description Enable automatic packet-capture for CRL response status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_response_status_unknown

Description Enable automatic packet-capture for CRL response status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_https

Description Enable automatic packet-capture for CRL URI https

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_not_found

Description Enable automatic packet-capture for CRL URI not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_unsupported

Description Enable automatic packet-capture for CRL URI unsupported

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_cache_miss

Description Enable automatic packet-capture for OCSP cache miss

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_cache_status_revoked

Description Enable automatic packet-capture for OCSP cache status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_chain_status_revoked

Description Enable automatic packet-capture for Certificate chain status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_chain_status_unknown

Description Enable automatic packet-capture for Certificate chain status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_connection_error

Description Enable automatic packet-capture for OCSP connection error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_other_error

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_no_nonce

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_nonce_error

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_status_revoked

Description Enable automatic packet-capture for OCSP response status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_status_unknown

Description Enable automatic packet-capture for OCSP response status unknown

Type: boolean

Supported Values: true, false, 1, 0

Specification	Value
Type	*object*

ha-standby-dropped

Description Enable automatic packet-capture for HA Standby Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-key

Description Enable automatic packet-capture for Radius Request has Invalid Key Field

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6-prefix-length-mismatch

Description Enable automatic packet-capture for Framed IPV6 Prefix Length Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-request-dropped

Description Enable automatic packet-capture for RADIUS Request Dropped (Malformed Packet)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-table-full

Description Enable automatic packet-capture for RADIUS Request Dropped (Table Full)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-bad-secret-dropped

Description Enable automatic packet-capture for RADIUS Request Bad Secret Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-malformed-dropped

Description Enable automatic packet-capture for RADIUS Request Malformed Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-no-key-vap-dropped

Description Enable automatic packet-capture for RADIUS Request No Key Attribute Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

secret-not-configured-dropped

Description Enable automatic packet-capture for RADIUS Secret Not Configured Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_system-radius-server_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

ha-standby-dropped

Description Enable automatic packet-capture for HA Standby Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-key

Description Enable automatic packet-capture for Radius Request has Invalid Key Field

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6-prefix-length-mismatch

Description Enable automatic packet-capture for Framed IPV6 Prefix Length Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-request-dropped

Description Enable automatic packet-capture for RADIUS Request Dropped (Malformed Packet)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-table-full

Description Enable automatic packet-capture for RADIUS Request Dropped (Table Full)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-bad-secret-dropped

Description Enable automatic packet-capture for RADIUS Request Bad Secret Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-malformed-dropped

Description Enable automatic packet-capture for RADIUS Request Malformed Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-no-key-vap-dropped

Description Enable automatic packet-capture for RADIUS Request No Key Attribute Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

secret-not-configured-dropped

Description Enable automatic packet-capture for RADIUS Secret Not Configured Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-l4

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-l4_trigger-stats-inc*

Type: Object

Specification	Value
Type	*object*

full_proxy_fpga_err

Description Enable automatic packet-capture for Full proxy fpga err

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fwdreq_fail

Description Enable automatic packet-capture for Fwd req fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fwdreqdata_fail

Description Enable automatic packet-capture for Fwd req data fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parsereq_fail

Description Enable automatic packet-capture for Parse req fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

req_over_limit

Description Enable automatic packet-capture for Request over limit

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

req_rate_over_limit

Description Enable automatic packet-capture for Request rate over limit

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-ftp-proxy/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-ftp-proxy_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-ftp-proxy/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-ftp-proxy_trigger-stats-inc

Specification	Value
Type	*object*

auth_fail

Description Enable automatic packet-capture for Auth Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_eprt

Description Enable automatic packet-capture for cant find eprt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_port

Description Enable automatic packet-capture for cant find port

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_request_err

Description Enable automatic packet-capture for Client RQ state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_conn_start_err

Description Enable automatic packet-capture for Data Start state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_send_fail

Description Enable automatic packet-capture for data send fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_serv_connected_err

Description Enable automatic packet-capture for Data Serv CTED error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_serv_connecting_err

Description Enable automatic packet-capture for Data Serv CTNG error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_server_conn_fail

Description Enable automatic packet-capture for data svr conn fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ds_fail

Description Enable automatic packet-capture for Host Domain Name isn't resolved

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_start_line

Description Enable automatic packet-capture for invalid start line

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_create_fail

Description Enable automatic packet-capture for smp create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_command

Description Enable automatic packet-capture for Unsupported cmd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_pbsz_value

Description Enable automatic packet-capture for Unsupported PBSZ

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_prot_value

Description Enable automatic packet-capture for Unsupported PROT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-ftp-proxy_trigger-stats-rate

Specification	Value
Type	*object*

auth_fail

Description Enable automatic packet-capture for Auth Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_eprt

Description Enable automatic packet-capture for cant find eprt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_port

Description Enable automatic packet-capture for cant find port

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_request_err

Description Enable automatic packet-capture for Client RQ state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_conn_start_err

Description Enable automatic packet-capture for Data Start state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_send_fail

Description Enable automatic packet-capture for data send fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_serv_connected_err

Description Enable automatic packet-capture for Data Serv CTED error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_serv_connecting_err

Description Enable automatic packet-capture for Data Serv CTNG error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_server_conn_fail

Description Enable automatic packet-capture for data svr conn fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ds_fail

Description Enable automatic packet-capture for Host Domain Name isn't resolved

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_start_line

Description Enable automatic packet-capture for invalid start line

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_create_fail

Description Enable automatic packet-capture for smp create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unsupported_command

Description Enable automatic packet-capture for Unsupported cmd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_pbsz_value

Description Enable automatic packet-capture for Unsupported PBSZ

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_prot_value

Description Enable automatic packet-capture for Unsupported PROT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Specification	Value
Type	*object*

alloc_fail_total

Description Enable automatic packet-capture for Alloc Fail - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_connection_preface

Description Enable automatic packet-capture for Bad Connection Preface

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_frame_type_for_stream_state

Description Enable automatic packet-capture for Bad frame type for stream state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

buff_alloc_error

Description Enable automatic packet-capture for Buff alloc error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cancel

Description Enable automatic packet-capture for cancel

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_control_frame

Description Enable automatic packet-capture for Cant allocate control frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_goaway_frame

Description Enable automatic packet-capture for Cant allocate GOAWAY frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_ping_frame

Description Enable automatic packet-capture for Cant allocate PING frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_rst_frame

Description Enable automatic packet-capture for Cant allocate RST_STREAM frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_settings_frame

Description Enable automatic packet-capture for Cant allocate SETTINGS frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_stream

Description Enable automatic packet-capture for Cant allocate stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_window_frame

Description Enable automatic packet-capture for Cant allocate WINDOW_UPDATE frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

closed_state_unexpected_frame

Description Enable automatic packet-capture for Unexpected frame received in closed state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression_error

Description Enable automatic packet-capture for compression error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connect_error

Description Enable automatic packet-capture for connect error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

continuation_before_headers

Description Enable automatic packet-capture for CONTINUATION frame with no headers frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream

Description Enable automatic packet-capture for DATA Frame Rcvd on non-existent stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_queue_alloc_error

Description Enable automatic packet-capture for Data Queue Alloc Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

deflate_alloc_fail

Description Enable automatic packet-capture for deflate alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

enhance_your_calm

Description Enable automatic packet-capture for enhance your calm error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_rcvd_total

Description Enable automatic packet-capture for Error Rcvd - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_cancel

Description Enable automatic packet-capture for Error Sent - CANCEL

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_compression_err

Description Enable automatic packet-capture for Error Sent - COMPRESSION_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_connect_err

Description Enable automatic packet-capture for Error Sent - CONNECT_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_flow_control

Description Enable automatic packet-capture for Error Sent - FLOW_CONTROL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_frame_size_err

Description Enable automatic packet-capture for Error Sent - FRAME_SIZE_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_http11_required

Description Enable automatic packet-capture for Error Sent - HTTP_1_1_REQUIRED

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_inadequate_security

Description Enable automatic packet-capture for Error Sent - INADEQUATE_SECURITY

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_internal_err

Description Enable automatic packet-capture for Error Sent - INTERNAL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_proto_err

Description Enable automatic packet-capture for Error Sent - PROTOCOL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_refused_stream

Description Enable automatic packet-capture for Error Sent - REFUSED_STREAM

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_setting_timeout

Description Enable automatic packet-capture for Error Sent - SETTINGS_TIMEOUT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_stream_closed

Description Enable automatic packet-capture for Error Sent - STREAM_CLOSED

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_total

Description Enable automatic packet-capture for Error Rent - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_your_calm

Description Enable automatic packet-capture for Error Sent - ENHANCE_YOUR_CALM

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error_max_invalid_stream

Description Enable automatic packet-capture for Max Invalid Stream Rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

exceeds_max_window_size_stream

Description Enable automatic packet-capture for Window Update with increment that results in exceeding max window

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

flow_control_error

Description Enable automatic packet-capture for Flow Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

frame_size_error

Description Enable automatic packet-capture for Frame Size Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

half_closed_remote_state_unexpected_fra

Description Enable automatic packet-capture for Unexpected frame received in half closed remote state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_no_stream

Description Enable automatic packet-capture for header no stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_padlen_gt_frame_payload

Description Enable automatic packet-capture for Header padlen greater than frame payload size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

headers_after_continuation

Description Enable automatic packet-capture for headers frame before CONTINUATION was complete

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

headers_interleaved

Description Enable automatic packet-capture for headers interleaved on streams

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_1_1_required

Description Enable automatic packet-capture for HTTP1.1 Required

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

idle_state_unexpected_frame

Description Enable automatic packet-capture for Unxpected frame received in idle state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inadequate_security

Description Enable automatic packet-capture for inadequate security

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inflate_alloc_fail

Description Enable automatic packet-capture for inflate alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inflate_header_fail

Description Enable automatic packet-capture for Inflate Header Fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

internal_error

Description Enable automatic packet-capture for Internal Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_during_headers

Description Enable automatic packet-capture for frame before headers were complete

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_size

Description Enable automatic packet-capture for Invalid Frame Size Rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_push_promise

Description Enable automatic packet-capture for unexpected PUSH_PROMISE frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_setting_value

Description Enable automatic packet-capture for invalid setting-frame value

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_stream_id

Description Enable automatic packet-capture for received invalid stream ID

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_window_update

Description Enable automatic packet-capture for window-update value out of range

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

protocol_error

Description Enable automatic packet-capture for Protocol Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

proxy_alloc_error

Description Enable automatic packet-capture for HTTP2 Proxy alloc Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

refused_stream

Description Enable automatic packet-capture for Refused Stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reserved_local_state_unexpected_frame

Description Enable automatic packet-capture for Unexpected frame received in reserved local state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reserved_remote_state_unexpected_frame

Description Enable automatic packet-capture for Unexpected frame received in reserved remote state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

settings_timeout

Description Enable automatic packet-capture for Settings Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

split_buff_fail

Description Enable automatic packet-capture for Splitting Buffer Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

streams_gt_max_concur_streams

Description Enable automatic packet-capture for Streams greater than max allowed concurrent streams

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

trailers_no_end_stream

Description Enable automatic packet-capture for trailers not marked as end-of-stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

wrong_stream_state

Description Enable automatic packet-capture for Wrong Stream State

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

zero_window_size_on_stream

Description Enable automatic packet-capture for Window Update with zero increment rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-http2_trigger-stats-rate

Specification	Value
Type	*object*

alloc_fail_total

Description Enable automatic packet-capture for Alloc Fail - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_connection_preface

Description Enable automatic packet-capture for Bad Connection Preface

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_frame_type_for_stream_state

Description Enable automatic packet-capture for Bad frame type for stream state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

buff_alloc_error

Description Enable automatic packet-capture for Buff alloc error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cancel

Description Enable automatic packet-capture for cancel

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_control_frame

Description Enable automatic packet-capture for Cant allocate control frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_goaway_frame

Description Enable automatic packet-capture for Cant allocate GOAWAY frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_ping_frame

Description Enable automatic packet-capture for Cant allocate PING frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_rst_frame

Description Enable automatic packet-capture for Cant allocate RST_STREAM frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_settings_frame

Description Enable automatic packet-capture for Cant allocate SETTINGS frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_stream

Description Enable automatic packet-capture for Cant allocate stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_window_frame

Description Enable automatic packet-capture for Cant allocate WINDOW_UPDATE frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

closed_state_unexpected_frame

Description Enable automatic packet-capture for Unexpected frame received in closed state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression_error

Description Enable automatic packet-capture for compression error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connect_error

Description Enable automatic packet-capture for connect error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

continuation_before_headers

Description Enable automatic packet-capture for CONTINUATION frame with no headers frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream

Description Enable automatic packet-capture for DATA Frame Rcvd on non-existent stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_queue_alloc_error

Description Enable automatic packet-capture for Data Queue Alloc Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

deflate_alloc_fail

Description Enable automatic packet-capture for deflate alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

enhance_your_calm

Description Enable automatic packet-capture for enhance your calm error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_rcvd_total

Description Enable automatic packet-capture for Error Rcvd - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_cancel

Description Enable automatic packet-capture for Error Sent - CANCEL

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_compression_err

Description Enable automatic packet-capture for Error Sent - COMPRESSION_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_connect_err

Description Enable automatic packet-capture for Error Sent - CONNECT_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_flow_control

Description Enable automatic packet-capture for Error Sent - FLOW_CONTROL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_frame_size_err

Description Enable automatic packet-capture for Error Sent - FRAME_SIZE_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_http11_required

Description Enable automatic packet-capture for Error Sent - HTTP_1_1_REQUIRED

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_inadequate_security

Description Enable automatic packet-capture for Error Sent - INADEQUATE_SECURITY

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_internal_err

Description Enable automatic packet-capture for Error Sent - INTERNAL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_proto_err

Description Enable automatic packet-capture for Error Sent - PROTOCOL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_refused_stream

Description Enable automatic packet-capture for Error Sent - REFUSED_STREAM

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_setting_timeout

Description Enable automatic packet-capture for Error Sent - SETTINGS_TIMEOUT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_stream_closed

Description Enable automatic packet-capture for Error Sent - STREAM_CLOSED

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_total

Description Enable automatic packet-capture for Error Rent - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_your_calm

Description Enable automatic packet-capture for Error Sent - ENHANCE_YOUR_CALM

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error_max_invalid_stream

Description Enable automatic packet-capture for Max Invalid Stream Rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

exceeds_max_window_size_stream

Description Enable automatic packet-capture for Window Update with increment that results in exceeding max window

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

flow_control_error

Description Enable automatic packet-capture for Flow Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

frame_size_error

Description Enable automatic packet-capture for Frame Size Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

half_closed_remote_state_unexpected_fra

Description Enable automatic packet-capture for Unexpected frame received in half closed remote state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_no_stream

Description Enable automatic packet-capture for header no stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_padlen_gt_frame_payload

Description Enable automatic packet-capture for Header padlen greater than frame payload size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

headers_after_continuation

Description Enable automatic packet-capture for headers frame before CONTINUATION was complete

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

headers_interleaved

Description Enable automatic packet-capture for headers interleaved on streams

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_1_1_required

Description Enable automatic packet-capture for HTTP1.1 Required

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

idle_state_unexpected_frame

Description Enable automatic packet-capture for Unxpected frame received in idle state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inadequate_security

Description Enable automatic packet-capture for inadequate security

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inflate_alloc_fail

Description Enable automatic packet-capture for inflate alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inflate_header_fail

Description Enable automatic packet-capture for Inflate Header Fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

internal_error

Description Enable automatic packet-capture for Internal Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_during_headers

Description Enable automatic packet-capture for frame before headers were complete

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_size

Description Enable automatic packet-capture for Invalid Frame Size Rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_push_promise

Description Enable automatic packet-capture for unexpected PUSH_PROMISE frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_setting_value

Description Enable automatic packet-capture for invalid setting-frame value

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_stream_id

Description Enable automatic packet-capture for received invalid stream ID

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_window_update

Description Enable automatic packet-capture for window-update value out of range

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

protocol_error

Description Enable automatic packet-capture for Protocol Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

proxy_alloc_error

Description Enable automatic packet-capture for HTTP2 Proxy alloc Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

refused_stream

Description Enable automatic packet-capture for Refused Stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reserved_local_state_unexpected_frame

Description Enable automatic packet-capture for Unexpected frame received in reserved local state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reserved_remote_state_unexpected_frame

Description Enable automatic packet-capture for Unexpected frame received in reserved remote state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

settings_timeout

Description Enable automatic packet-capture for Settings Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

split_buff_fail

Description Enable automatic packet-capture for Splitting Buffer Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

streams_gt_max_concur_streams

Description Enable automatic packet-capture for Streams greater than max allowed concurrent streams

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

trailers_no_end_stream

Description Enable automatic packet-capture for trailers not marked as end-of-stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

wrong_stream_state

Description Enable automatic packet-capture for Wrong Stream State

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

zero_window_size_on_stream

Description Enable automatic packet-capture for Window Update with zero increment rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-sip

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-sip_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-sip/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-sip_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-sip/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-sip_trigger-stats-inc

Specification	Value
Type	*object*

msg_proxy_client_fail

Description Enable automatic packet-capture for Number of SIP messages received from client but failed to forward to server

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_fail_start_server_conn

Description Enable automatic packet-capture for Number of server connection create failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_server_fail

Description Enable automatic packet-capture for Number of SIP messages received from server but failed to forward to client

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-change_slb-sip_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

msg_proxy_client_fail

Description Enable automatic packet-capture for Number of SIP messages received from client but failed to forward to server

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_fail_start_server_conn

Description Enable automatic packet-capture for Number of server connection create failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_server_fail

Description Enable automatic packet-capture for Number of SIP messages received from server but failed to forward to client

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_global-templates_template-list_trigger-sys-obj-stats-severity

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

packet-capture_capture-config-list

Specification	Value
Type	*list*
Block object keys	

concurrent-captures

Description Enable and specify maximum concurrent 3 tuple filter based captures in seperate pcaps.

Type: number

Range: 1-5000

Mutual Exclusion: concurrent-captures and concurrent-conn-tag are mutually exclusive

concurrent-captures-age

Description Specify the time in minutes upto which a 3 tuple filter based capture will be kept active(default 1)

Type: number

Range: 1-10

Default: 1

concurrent-conn-per-capture

Description Specify maximum number of concurrent connnections(5 tuple matches) to be captured within in a 3 tuple based capture. (default 1

Type: number

Range: 1-1000

Default: 100

concurrent-conn-tag

Description Enable and specify maximum concurrent connnections(only 5 tuple based) to be captured in common pcaps.

Type: number

Range: 1-1000

Mutual Exclusion: concurrent-conn-tag and concurrent-captures are mutually exclusive

create-pcap-files-now

Description Operational command to force create temporary pcapng files before completion (for global/non 3 tuple based captures)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

disable

Description Disable packet capture (default enabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

disable-auto-merge

Description Disable auto merging per CPU pcapng files(default enabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

enable-continuous-global-capture

Description Enable continuous capture of packets for the global capture(non 3 tuple based capture) overriding size limits

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

file-count

Description Specify the number of continuous pcapng files that can be created for capturing packets (default 10)

Type: number

Range: 1-50

Default: 10

file-size

Description Specify pcapng filesize in MB, Will be distributed per CPU (default 1)

Type: number

Range: 1-300

Default: 1

keep-pcap-files-after-merge

Description Keep original per CPU pcapng files after auto merging pcapng files(default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

name

Description Specify the name of the capture-config

Type: string

Maximum Length: 63 characters

Maximum Length: 1 characters

number-of-packets-per-capture

Description Specify Maximum number of packets per global or dynamic capture (default 0 unlimited)

Type: number

Range: 0-1000

Default: 0

number-of-packets-per-conn

Description Specify maximum number of packets to be captured in a 5 tuple based connection (default 0 unlimited).

Type: number

Range: 0-1000

Default: 0

number-of-packets-total

Description Specify Maximum number of packets for all captures (default 0 unlimited)

Type: number

Range: 0-15000

Default: 0

packet-length

Description Packet length in Bytes to capture (Default 128)

Type: number

Range: 64-1518

Default: 128

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

file

Specification	Value
Type	*object*

metrics

Description: metrics is a **JSON Block**. Please see below for *file_metrics*

Type: Object

Reference Object: */axapi/v3/visibility/file/metrics*

file_metrics

Specification	Value
Type	*object*

action

Description 'enable': Enable persistent storage; 'disable': Disable persistent storage(default);

Type: string

Supported Values: enable, disable

Default: disable

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

anomaly-detection

Specification	Value
Type	*object*

feature-status

Description 'enable': Enable anomaly-detection (Not valid for source-nat-ip and source monitor types); 'disable': Disable anomaly detection (default);

Type: string

Supported Values: enable, disable

Default: disable

logging

Description 'per-entity': Enable per entity logging; 'per-metric': Enable per metric logging with threshold details; 'disable': Disable anomaly notifications (Default);

Type: string

Supported Values: per-entity, per-metric, disable

Default: disable

restart-learning-on-anomaly

Description Relearn anomaly detection parameters after detecting an anomaly

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sensitivity

Description 'high': Highly sensitive anomaly detection. Can lead to false positives; 'low': Low sensitivity anomaly detection. Can cause delay in detection and might not detect certain attacks. (default);

Type: string

Supported Values: high, low

Default: low

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

zbar

Specification	Value
Type	*object*

action

Description 'enable': Enable zbar infra; 'disable': Disable zbar infra(default);

Type: string

Supported Values: enable, disable

Default: disable

dest

Description: dest is a **JSON Block**. Please see below for *zbar_dest*

Type: Object

Reference Object: */axapi/v3/visibility/zbar/dest*

truples

Description: truples is a **JSON Block**. Please see below for *zbar_truples*

Type: Object

Reference Object: */axapi/v3/visibility/zbar/truples*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

zbar_dest

Specification	Value
Type	*object*

bad-sources

Description: bad-sources is a **JSON Block**. Please see below for *zbar_dest_bad-sources*

Type: Object

Reference Object: */axapi/v3/visibility/zbar/dest/bad-sources*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

zbar_dest_bad-sources

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

zbar_truples

Specification	Value
Type	*object*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor

Specification	Value
Type	*object*

agent-list

Type: List

Reference Object: */axapi/v3/visibility/monitor/agent/{agent-name}*

debug-list

Type: List

Reference Object: */axapi/v3/visibility/monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}*

delete-debug-file

Description: delete-debug-file is a **JSON Block**. Please see below for *monitor_delete-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/delete-debug-file*

index-sessions

Description Start indexing associated sessions

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

index-sessions-type

Description 'per-cpu': Use per cpu list;

Type: string

Supported Values: per-cpu

mon-entity-topk

Description Enable topk for primary entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

monitor-key

Description 'source': Monitor traffic from all sources; 'dest': Monitor traffic to any destination; 'service': Monitor traffic to any service; 'source-nat-ip': Monitor traffic to all source nat IPs;

Type: string

Supported Values: source, dest, service, source-nat-ip

netflow

Description: netflow is a **JSON Block**. Please see below for *monitor_netflow*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/netflow*

primary-monitor

Description 'traffic': Mointor traffic; 'xflow': Monitor xflow samples;

Type: string

Supported Values: traffic, xflow

replay-debug-file

Description: replay-debug-file is a **JSON Block**. Please see below for *monitor_replay-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/replay-debug-file*

secondary-monitor

Description: secondary-monitor is a **JSON Block**. Please see below for *monitor_secondary-monitor*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor*

sflow

Description: sflow is a **JSON Block**. Please see below for *monitor_sflow*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/sflow*

source-entity-topk

Description Enable topk for sources to primary-entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

template

Description: template is a **JSON Block**. Please see below for *monitor_template*

Type: Object

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor_debug-list

Specification	Value
Type	*list*
Block object keys	

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor_sflow

Specification	Value
Type	*object*

listening-port

Description sFlow port to receive packets (sFlow port number(default 6343))

Type: number

Range: 1-65535

Default: 6343

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor_delete-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

monitor_template

Specification	Value
Type	*object*

notification

Type: List

monitor_template_notification

Specification	Value
Type	*list*
Block object keys	

notif-template-name

Description

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/reporting/template/notification/template-name*

monitor_replay-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

monitor_netflow

Specification	Value
Type	*object*

listening-port

Description Netflow port to receive packets (Netflow port number(default 9996))

Type: number

Range: 1-65535

Default: 9996

template-active-timeout

Description Configure active timeout of the netflow templates received in mins (Template active timeout(mins)(default 30mins))

Type: number

Range: 2-300

Default: 30

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor_secondary-monitor

Specification	Value
Type	*object*

debug-list

Type: List

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}*

delete-debug-file

Description: delete-debug-file is a **JSON Block**. Please see below for *monitor_secondary-monitor_delete-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/delete-debug-file*

mon-entity-topk

Description Enable topk for secondary entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

replay-debug-file

Description: replay-debug-file is a **JSON Block**. Please see below for *monitor_secondary-monitor_replay-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/replay-debug-file*

secondary-monitoring-key

Description 'service': Monitor traffic to any service;

Type: string

Supported Values: service

source-entity-topk

Description Enable topk for sources to secondary-entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor_secondary-monitor_debug-list

Specification	Value
Type	*list*
Block object keys	

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor_secondary-monitor_delete-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

monitor_secondary-monitor_replay-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

monitor_agent-list

Specification	Value
Type	*list*
Block object keys	

agent-name

Description Specify name for the agent

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

agent-v4-addr

Description Configure agent's IPv4 address

Type: string

Format: ipv4-address

agent-v6-addr

Description Configure agent's IPv6 address

Type: string

Format: ipv6-address

sampling-enable

Type: List

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

monitor_agent-list_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'sflow-packets-received': sFlow Packets Received; 'sflow-samples-received': sFlow Samples Received; 'sflow-samples-bad-len': sFlow Samples Bad Length; 'sflow-samples-non-std': sFlow Samples Non-standard; 'sflow-samples-skipped': sFlow Samples Skipped; 'sflow-sample-record-bad-len': sFlow Sample Records Bad Length; 'sflow-samples-sent-for-detection': sFlow Samples Processed For Detection; 'sflow-sample-record-invalid-layer2': sFlow Sample Records Unknown Layer-2; 'sflow-sample-ipv6-hdr-parse-fail': sFlow Sample IPv6 Record Header Parse Failures; 'sflow-disabled': sFlow Packet Samples Processing Disabled; 'netflow-disabled': Netflow Flow Samples Processing Disabled; 'netflow-v5-packets-received': Netflow v5 Packets Received; 'netflow-v5-samples-received': Netflow v5 Samples Received; 'netflow-v5-samples-sent-for-detection': Netflow v5 Samples Processed For Detection; 'netflow-v5-sample-records-bad-len': Netflow v5 Sample Records Bad Length; 'netflow-v5-max-records-exceed': Netflow v5 Sample Max Records Error; 'netflow-v9-packets-received': Netflow v9 Packets Received; 'netflow-v9-samples-received': Netflow v9 Samples Received; 'netflow-v9-samples-sent-for-detection': Netflow v9 Samples Processed For Detection; 'netflow-v9-sample-records-bad-len': Netflow v9 Sample Records Bad Length; 'netflow-v9-max-records-exceed': Netflow v9 Sample Max Records Error; 'netflow-v10-packets-received': Netflow v10 Packets Received; 'netflow-v10-samples-received': Netflow v10 Samples Received; 'netflow-v10-samples-sent-for-detection': Netflow v10 Samples Proccssed For Detection; 'netflow-v10-sample-records-bad-len': Netflow v10 Sample Records Bad

Length; 'netflow-v10-max-records-exceed': Netflow v10 Sample Max records Error; 'netflow-tcp-sample-received': Netflow TCP Samples Received; 'netflow-udp-sample-received': Netflow UDP Samples received; 'netflow-icmp-sample-received': Netflow ICMP Samples Received; 'netflow-other-sample-received': Netflow OTHER Samples Received; 'netflow-record-copy-oom-error': Netflow Data Record Copy Fail OOM; 'netflow-record-rse-invalid': Netflow Data Record Reduced Size Invalid; 'netflow-sample-flow-dur-error': Netflow Sample Flow Duration Error;

Type: string

Supported Values: all, sflow-packets-received, sflow-samples-received, sflow-samples-bad-len, sflow-samples-non-std, sflow-samples-skipped, sflow-sample-record-bad-len, sflow-samples-sent-for-detection, sflow-sample-record-invalid-layer2, sflow-sample-ipv6-hdr-parse-fail, sflow-disabled, netflow-disabled, netflow-v5-packets-received, netflow-v5-samples-received, netflow-v5-samples-sent-for-detection, netflow-v5-sample-records-bad-len, netflow-v5-max-records-exceed, netflow-v9-packets-received, netflow-v9-samples-received, netflow-v9-samples-sent-for-detection, netflow-v9-sample-records-bad-len, netflow-v9-max-records-exceed, netflow-v10-packets-received, netflow-v10-samples-received, netflow-v10-samples-sent-for-detection, netflow-v10-sample-records-bad-len, netflow-v10-max-records-exceed, netflow-tcp-sample-received, netflow-udp-sample-received, netflow-icmp-sample-received, netflow-other-sample-received, netflow-record-copy-oom-error, netflow-record-rse-invalid, netflow-sample-flow-dur-error

2.150.2 visibility anomaly-detection

    }
}
```

anomaly-detection attributes

feature-status

Description 'enable': Enable anomaly-detection (Not valid for source-nat-ip and source monitor types); 'disable': Disable anomaly detection (default);

Type: string

Supported Values: enable, disable

Default: disable

logging

Description 'per-entity': Enable per entity logging; 'per-metric': Enable per metric logging with threshold details; 'disable': Disable anomaly notifications (Default);

Type: string

Supported Values: per-entity, per-metric, disable

Default: disable

restart-learning-on-anomaly

Description Relearn anomaly detection parameters after detecting an anomaly

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sensitivity

Description 'high': Highly sensitive anomaly detection. Can lead to false positives; 'low': Low sensitivity anomaly detection. Can cause delay in detection and might not detect certain attacks. (default);

Type: string

Supported Values: high, low

Default: low

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.150.3 visibility debug-files

Display the list of monitored entity debug files

Default: 0

monitor-key

Description 'source': Monitor traffic from all sources; 'dest': Monitor traffic to any destination; 'service': Monitor traffic to any service; 'source-nat-ip': Monitor traffic to all source nat IPs;

Type: string

Supported Values: source, dest, service, source-nat-ip

netflow

Description: netflow is a **JSON Block**. Please see below for *netflow*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/netflow*

primary-monitor

Description 'traffic': Mointor traffic; 'xflow': Monitor xflow samples;

Type: string

Supported Values: traffic, xflow

replay-debug-file

Description: replay-debug-file is a **JSON Block**. Please see below for *replay-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/replay-debug-file*

secondary-monitor

Description: secondary-monitor is a **JSON Block**. Please see below for *secondary-monitor*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor*

sflow

Description: sflow is a **JSON Block**. Please see below for *sflow*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/sflow*

source-entity-topk

Description Enable topk for sources to primary-entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

template

Description: template is a **JSON Block**. Please see below for *template*

Type: Object

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

debug-list

Specification	Value
Type	*list*
Block object keys	

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

sflow

Specification	Value
Type	*object*

listening-port

Description sFlow port to receive packets (sFlow port number(default 6343))

Type: number

Range: 1-65535

Default: 6343

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

delete-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

template

Specification	Value
Type	*object*

notification

Type: List

template_notification

Specification	Value
Type	*list*
Block object keys	

notif-template-name

Description

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/reporting/template/notification/template-name*

replay-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

netflow

Specification	Value
Type	*object*

listening-port

Description Netflow port to receive packets (Netflow port number(default 9996))

Type: number

Range: 1-65535

Default: 9996

template-active-timeout

Description Configure active timeout of the netflow templates received in mins (Template active timeout(mins)(default 30mins))

Type: number

Range: 2-300

Default: 30

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

secondary-monitor

Specification	Value
Type	*object*

debug-list

Type: List

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}*

delete-debug-file

Description: delete-debug-file is a **JSON Block**. Please see below for *secondary-monitor_delete-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/delete-debug-file*

mon-entity-topk

Description Enable topk for secondary entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

replay-debug-file

Description: replay-debug-file is a **JSON Block**. Please see below for *secondary-monitor_replay-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/replay-debug-file*

secondary-monitoring-key

Description 'service': Monitor traffic to any service;

Type: string

Supported Values: service

source-entity-topk

Description Enable topk for sources to secondary-entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

secondary-monitor_debug-list

Specification	Value
Type	*list*
Block object keys	

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

secondary-monitor_delete-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

secondary-monitor_replay-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

agent-list

Specification	Value
Type	*list*
Block object keys	

agent-name

Description Specify name for the agent

Type: string

Format: string-rlx

Maximum Length: 63 characters

Maximum Length: 1 characters

agent-v4-addr

Description Configure agent's IPv4 address

Type: string

Format: ipv4-address

agent-v6-addr

Description Configure agent's IPv6 address

Type: string

Format: ipv6-address

sampling-enable

Type: List

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

agent-list_sampling-enable

Specification	Value
Type	*list*
Block object keys	

counters1

Description 'all': all; 'sflow-packets-received': sFlow Packets Received; 'sflow-samples-received': sFlow Samples Received; 'sflow-samples-bad-len': sFlow Samples Bad Length; 'sflow-samples-non-std': sFlow Samples Non-standard; 'sflow-samples-skipped': sFlow Samples Skipped; 'sflow-sample-record-bad-len': sFlow Sample Records Bad Length; 'sflow-samples-sent-for-detection': sFlow Samples Processed For Detection; 'sflow-sample-record-invalid-layer2': sFlow Sample Records Unknown Layer-2; 'sflow-sample-ipv6-hdr-parse-fail': sFlow Sample IPv6 Record Header Parse Failures; 'sflow-disabled': sFlow Packet Samples Processing Disabled; 'netflow-disabled': Netflow Flow Samples Processing Disabled; 'netflow-v5-packets-received': Netflow v5 Packets Received; 'netflow-v5-samples-received': Netflow v5 Samples Received; 'netflow-v5-samples-sent-for-detection': Netflow v5 Samples Processed For Detection; 'netflow-v5-sample-records-bad-len': Netflow v5 Sample Records Bad Length; 'netflow-v5-max-records-exceed': Netflow v5 Sample Max Records Error; 'netflow-v9-packets-received': Netflow v9 Packets Received; 'netflow-v9-samples-received': Netflow v9 Samples Received; 'netflow-v9-samples-sent-for-detection': Netflow v9 Samples Processed For Detection; 'netflow-v9-sample-records-bad-len': Netflow v9 Sample Records Bad Length; 'netflow-v9-max-records-exceed': Netflow v9 Sample Max Records Error; 'netflow-v10-packets-received': Netflow v10 Packets Received; 'netflow-v10-samples-received': Netflow v10 Samples Received; 'netflow-v10-samples-sent-for-detection': Netflow v10 Samples Proccssed For Detection; 'netflow-v10-sample-records-bad-len': Netflow v10 Sample Records Bad

Length; 'netflow-v10-max-records-exceed': Netflow v10 Sample Max records Error; 'netflow-tcp-sample-received': Netflow TCP Samples Received; 'netflow-udp-sample-received': Netflow UDP Samples received; 'netflow-icmp-sample-received': Netflow ICMP Samples Received; 'netflow-other-sample-received': Netflow OTHER Samples Received; 'netflow-record-copy-oom-error': Netflow Data Record Copy Fail OOM; 'netflow-record-rse-invalid': Netflow Data Record Reduced Size Invalid; 'netflow-sample-flow-dur-error': Netflow Sample Flow Duration Error;

Type: string

Supported Values: all, sflow-packets-received, sflow-samples-received, sflow-samples-bad-len, sflow-samples-non-std, sflow-samples-skipped, sflow-sample-record-bad-len, sflow-samples-sent-for-detection, sflow-sample-record-invalid-layer2, sflow-sample-ipv6-hdr-parse-fail, sflow-disabled, netflow-disabled, netflow-v5-packets-received, netflow-v5-samples-received, netflow-v5-samples-sent-for-detection, netflow-v5-sample-records-bad-len, netflow-v5-max-records-exceed, netflow-v9-packets-received, netflow-v9-samples-received, netflow-v9-samples-sent-for-detection, netflow-v9-sample-records-bad-len, netflow-v9-max-records-exceed, netflow-v10-packets-received, netflow-v10-samples-received, netflow-v10-samples-sent-for-detection, netflow-v10-sample-records-bad-len, netflow-v10-max-records-exceed, netflow-tcp-sample-received, netflow-udp-sample-received, netflow-icmp-sample-received, netflow-other-sample-received, netflow-record-copy-oom-error, netflow-record-rse-invalid, netflow-sample-flow-dur-error

2.150.24 visibility monitor agent

Configure xflow agent

agent Specification

Parameter	Value
Type	*Collection*
Object Key(s)	*agent-name*
Collection Name	*agent-list*
Collection URI	/axapi/v3/visibility/monitor/agent
Element Name	agent
Element URI	/axapi/v3/visibility/monitor/agent/{agent-name}
Element Attributes	agent_attributes
Partition Visibility	shared
Statistics Data URI	/axapi/v3/visibility/monitor/agent/{agent-name}/stats
Schema	`agent schema`

Operations Allowed:

Create Object

POST

/axapi/v3/visibility/monitor/agent

agent attributes

```

debug-list

debug-list is **JSON List** of *debug attributes*

```
debug-list : [
        { debug attributes },
        { debug attributes },
        ...
    ]
```

debug attributes

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.150.27 visibility monitor netflow

Configure Netflow parameters for flow based monitoring

netflow Specification

Parameter	Value
Type	*Configuration Resource*
Element Name	netflow
Element URI	/axapi/v3/visibility/monitor/netflow
Element Attributes	netflow_attributes
Partition Visibility	shared
Schema	`netflow schema`

Operations Allowed:

Create Object

POST

/axapi/v3/visibility/monitor/netflow

netflow attributes

```
POST /axapi/v3/visibility/monitor/netflow
Payload:
{
    "netflow": {
        "listening-port": 1
    }
}
```

Get Object

GET

/axapi/v3/visibility/monitor/netflow

netflow attributes

Modify Object

POST

/axapi/v3/visibility/monitor/netflow

netflow attributes

Replace Object

PUT

/axapi/v3/visibility/monitor/netflow

netflow attributes

Delete Object

DELETE

/axapi/v3/visibility/monitor/netflow

netflow attributes

netflow attributes

listening-port

Description Netflow port to receive packets (Netflow port number(default 9996))

Type: number

Range: 1-65535

Default: 9996

template-active-timeout

Description Configure active timeout of the netflow templates received in mins (Template active timeout(mins)(default 30mins))

Type: number

Range: 2-300

Default: 30

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.150.28 visibility monitor secondary-monitor

Configure secondary monitoring key

secondary-monitor Specification

Parameter	Value
Type	*Configuration Resource*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/delete-debug-file*

mon-entity-topk

Description Enable topk for secondary entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

replay-debug-file

Description: replay-debug-file is a **JSON Block**. Please see below for *replay-debug-file*

Type: Object

Reference Object: */axapi/v3/visibility/monitor/secondary-monitor/replay-debug-file*

secondary-monitoring-key

Description 'service': Monitor traffic to any service;

Type: string

Supported Values: service

source-entity-topk

Description Enable topk for sources to secondary-entities

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

debug-list

Specification	Value
Type	*list*
Block object keys	

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

delete-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

replay-debug-file

Specification	Value
Type	*object*

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

2.150.29 visibility monitor secondary-monitor debug

Enable store and replay for the entitites

debug Specification

Parameter	Value
Type	*Collection*
Object Key(s)	*debug-ip-addr, debug-port, debug-protocol*
Collection Name	*debug-list*
Collection URI	/axapi/v3/visibility/monitor/secondary-monitor/debug
Element Name	debug
Element URI	/axapi/v3/visibility/monitor/secondary-monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}
Element Attributes	debug_attributes
Partition Visibility	shared
Schema	`debug schema`

Operations Allowed:

Create Object

POST

/axapi/v3/visibility/monitor/secondary-monitor/debug

debug attributes

```
POST /axapi/v3/visibility/monitor/secondary-monitor/debug/
Payload:
{
    "debug": {
        "debug-ip-addr": "1.1.1.1",
        "debug-port": 1,
        "debug-protocol": "TCP"
    }
}
```

Create List

POST

/axapi/v3/visibility/monitor/secondary-monitor/debug

debug attributes

Get Object

GET

/axapi/v3/visibility/monitor/secondary-monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}

debug attributes

Get List

GET

/axapi/v3/visibility/monitor/secondary-monitor/debug

debug-list

Modify Object

POST

/axapi/v3/visibility/monitor/secondary-monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}

debug attributes

Replace Object

PUT

/axapi/v3/visibility/monitor/secondary-monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}

debug attributes

Replace List

PUT

/axapi/v3/visibility/monitor/secondary-monitor/debug

debug-list

Delete Object

DELETE

/axapi/v3/visibility/monitor/secondary-monitor/debug/{debug-ip-addr}+{debug-port}+{debug-protocol}

debug attributes

debug-list

debug-list is **JSON List** of *debug attributes*

```
debug-list : [
        { debug attributes },
        { debug attributes },
        ...
    ]
```

debug attributes

debug-ip-addr

Description Specify source/dest ip addr

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

debug-port

Description Specify port

Type: number

Range: 1-65535

debug-protocol

Description 'TCP': TCP; 'UDP': UDP; 'ICMP': ICMP;

Type: string

Supported Values: TCP, UDP, ICMP

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.150.30 visibility monitor sflow

Configure sFlow parameters for flow based monitoring

sflow Specification

Parameter	Value
Type	*Configuration Resource*
Element Name	sflow
Element URI	/axapi/v3/visibility/monitor/sflow
Element Attributes	sflow_attributes
Partition Visibility	shared
Schema	`sflow schema`

Operations Allowed:

Create Object

POST

/axapi/v3/visibility/monitor/sflow

sflow attributes

```
POST /axapi/v3/visibility/monitor/sflow
Payload:
{
    "sflow": {
        "listening-port": 1
    }
}
```

Get Object

GET

/axapi/v3/visibility/monitor/sflow

sflow attributes

Modify Object

POST

/axapi/v3/visibility/monitor/sflow

sflow attributes

Replace Object

PUT

/axapi/v3/visibility/monitor/sflow

sflow attributes

Delete Object

DELETE

/axapi/v3/visibility/monitor/sflow

sflow attributes

sflow attributes

listening-port

Description sFlow port to receive packets (sFlow port number(default 6343))

Type: number

Range: 1-65535

Default: 6343

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

2.150.48 visibility packet-capture

Configure automated packet capture

packet-capture Specification

Parameter	Value
Type	*Configuration Resource*
Element Name	packet-capture
Element URI	/axapi/v3/visibility/packet-capture
Element Attributes	packet-capture_attributes
Partition Visibility	shared
Statistics Data URI	/axapi/v3/visibility/packet-capture/stats
Operational Data URI	/axapi/v3/visibility/packet-capture/oper
Schema	`packet-capture schema`

Operations Allowed:

Create Object

POST

/axapi/v3/visibility/packet-capture

packet-capture attributes

```
POST /axapi/v3/visibility/packet-capture
Payload:
{
    "packet-capture": {
        "capture-config-list": [
            {
                "name": "a",
                "user-tag": "a"
            }
        ]
    }
}
```

Get Object

GET

/axapi/v3/visibility/packet-capture

packet-capture attributes

```
GET /axapi/v3/visibility/packet-capture
Reponse:
{
    "packet-capture": {
        "uuid": "d5e96f5c-3eb4-11da-8943-276c130d2c27",
        "capture-config-list": [
            {
                "name": "a",
                "disable": 0,
                "concurrent-captures-age": 1,
                "number-of-packets-per-conn": 0,
                "packet-length": 128,
                "file-size": 1,

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-jwt-authorization-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

jwt-authorize-failure

Description Enable automatic packet-capture for JWT Authorize Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-missing-claim

Description Enable automatic packet-capture for JWT Missing Claim

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-missing-token

Description Enable automatic packet-capture for JWT Missing Token

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-other-error

Description Enable automatic packet-capture for JWT Other Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-signature-failure

Description Enable automatic packet-capture for JWT Signature Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

jwt-token-expired

Description Enable automatic packet-capture for JWT Token Expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Description Enable automatic packet-capture for counters DNS Filter Type CNAME Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_mx_drop

Description Enable automatic packet-capture for counters DNS Filter Type MX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_ns_drop

Description Enable automatic packet-capture for counters DNS Filter Type NS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_others_drop

Description Enable automatic packet-capture for counters DNS Filter Type OTHERS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_ptr_drop

Description Enable automatic packet-capture for counters DNS Filter Type PTR Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_soa_drop

Description Enable automatic packet-capture for counters DNS Filter Type SOA Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_srv_drop

Description Enable automatic packet-capture for counters DNS Filter Type SRV Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_filter_type_txt_drop

Description Enable automatic packet-capture for counters DNS Filter Type TXT Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_rpz_action_drop

Description Enable automatic packet-capture for DNS RPZ Action Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dnsrrl_bad_fqdn

Description Enable automatic packet-capture for DNS Response-Rate-Limiting Bad FQDN

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dnsrrl_total_dropped

Description Enable automatic packet-capture for dns rrl drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

gslb_query_bad

Description Enable automatic packet-capture for gslb query bad

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gslb_response_bad

Description Enable automatic packet-capture for gslb response bad

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rcode_notimpl_receive

Description Enable automatic packet-capture for response rcode type error receive

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rcode_notimpl_response

Description Enable automatic packet-capture for rcode type error response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

total_dns_filter_class_drop

Description Enable automatic packet-capture for counters Total DNS Filter Class Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_dns_filter_type_drop

Description Enable automatic packet-capture for counters Total DNS Filter Type Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_filter_drop

Description Enable automatic packet-capture for query filter drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_max_query_len_drop

Description Enable automatic packet-capture for query too long drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_smtp-vport-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *object-templates_smtp-vport-tmpl-list_trigger-stats-inc*

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Specification	Value
Type	*object*

forward_req_data_fail

Description Enable automatic packet-capture for Forward REQ data failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

forward_req_fail

Description Enable automatic packet-capture for Forward request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

get_all_headers_fail

Description Enable automatic packet-capture for Get all headers fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_resonse_line_fail

Description Enable automatic packet-capture for Ins response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_extend_fail

Description Enable automatic packet-capture for Line extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_table_extend_fail

Description Enable automatic packet-capture for Table extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for Line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_proxy

Description Enable automatic packet-capture for No proxy error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_req_fail

Description Enable automatic packet-capture for Parse request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_request_line_fail

Description Enable automatic packet-capture for Parse request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_resonse_line_fail

Description Enable automatic packet-capture for Parse response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read_request_line_fail

Description Enable automatic packet-capture for Read request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

recv_server_unknow_reply_code

Description Enable automatic packet-capture for Recv server unknown-code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

remove_resonse_line_fail

Description Enable automatic packet-capture for Del response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

send_client_service_not_ready

Description Enable automatic packet-capture for Sent client serv-not-rdy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_STARTTLS_fail

Description Enable automatic packet-capture for Server side STARTTLS fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_select_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

too_many_headers

Description Enable automatic packet-capture for Too many headers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

custom-deny-reset-event-fw4-records-sen

Description Enable automatic packet-capture for Custom FW4 Deny/Reset Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-deny-reset-event-fw6-records-sen

Description Enable automatic packet-capture for Custom FW6 Deny/Reset Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-iddos-entry-created-records-s

Description Enable automatic packet-capture for Custom FW iDDoS Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-iddos-entry-deleted-records-s

Description Enable automatic packet-capture for Custom FW iDDoS Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-sesn-limit-exceeded-records-s

Description Enable automatic packet-capture for Custom FW Session Limit Exceeded Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-c-tunnel-event-records-sent-

Description Enable automatic packet-capture for Custom GTP C Tunnel Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-deny-event-records-sent-fail

Description Enable automatic packet-capture for Custom GTP Deny Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-info-event-records-sent-fail

Description Enable automatic packet-capture for Custom GTP Info Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-u-tunnel-event-records-sent-

Description Enable automatic packet-capture for Custom GTP U Tunnel Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l3-entry-created-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L3 Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l3-entry-deleted-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L3 Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l4-entry-created-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L4 Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l4-entry-deleted-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L4 Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-dslite-creation-re

Description Enable automatic packet-capture for Custom Dslite Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-dslite-deletion-re

Description Enable automatic packet-capture for Custom Dslite Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat44-creation-rec

Description Enable automatic packet-capture for Custom Nat44 Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat44-deletion-rec

Description Enable automatic packet-capture for Custom Nat44 Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat64-creation-rec

Description Enable automatic packet-capture for Custom Nat64 Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat64-deletion-rec

Description Enable automatic packet-capture for Custom Nat64 Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-dslite-creation

Description Enable automatic packet-capture for Custom Dslite Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-dslite-deletion

Description Enable automatic packet-capture for Custom Dslite Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat44-creation-

Description Enable automatic packet-capture for Custom Nat44 Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat44-deletion-

Description Enable automatic packet-capture for Custom Nat44 Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat64-creation-

Description Enable automatic packet-capture for Custom Nat64 Port Batch V2 Creation Records Failed

Type: boolean

custom-session-event-fw4-creation-recor

Description Enable automatic packet-capture for Custom FW4 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw4-deletion-recor

Description Enable automatic packet-capture for Custom FW4 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw6-creation-recor

Description Enable automatic packet-capture for Custom FW6 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw6-deletion-recor

Description Enable automatic packet-capture for Custom FW6 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat44-creation-rec

Description Enable automatic packet-capture for Custom Nat44 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat44-deletion-rec

Description Enable automatic packet-capture for Custom Nat44 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat64-creation-rec

Description Enable automatic packet-capture for Custom Nat64 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat64-deletion-rec

Description Enable automatic packet-capture for Custom Nat64 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-records-sent-failure

Description Enable automatic packet-capture for Dslite Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-records-sent-failure

Description Enable automatic packet-capture for NAT44 Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-records-sent-failure

Description Enable automatic packet-capture for NAT64 Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

netflow-v5-ext-records-sent-failure

Description Enable automatic packet-capture for Netflow v5 Ext Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

netflow-v5-records-sent-failure

Description Enable automatic packet-capture for Netflow v5 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-dslite-records-sent-failu

Description Enable automatic packet-capture for Port Batching Dslite Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-nat44-records-sent-failur

Description Enable automatic packet-capture for Port Batching Nat44 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-nat64-records-sent-failur

Description Enable automatic packet-capture for Port Batching Nat64 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-dslite-records-sent-fa

Description Enable automatic packet-capture for Port Batching V2 Dslite Records Falied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-nat44-records-sent-fai

Description Enable automatic packet-capture for Port Batching V2 Nat44 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-nat64-records-sent-fai

Description Enable automatic packet-capture for Port Batching V2 Nat64 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-dslite-records-sent-failur

Description Enable automatic packet-capture for Port Mapping Dslite Event Records failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-nat44-records-sent-failure

Description Enable automatic packet-capture for Port Mapping Nat44 Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-nat64-records-sent-failure

Description Enable automatic packet-capture for Port Mapping Nat64 Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-dslite-records-sent-failu

Description Enable automatic packet-capture for Dslite Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-fw4-records-sent-failure

Description Enable automatic packet-capture for FW4 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-fw6-records-sent-failure

Description Enable automatic packet-capture for FW6 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-nat44-records-sent-failur

Description Enable automatic packet-capture for Nat44 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-nat64-records-sent-failur

Description Enable automatic packet-capture for Nat64 Session Event Records Falied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_netflow-monitor-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

custom-deny-reset-event-fw4-records-sen

Description Enable automatic packet-capture for Custom FW4 Deny/Reset Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-deny-reset-event-fw6-records-sen

Description Enable automatic packet-capture for Custom FW6 Deny/Reset Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-iddos-entry-created-records-s

Description Enable automatic packet-capture for Custom FW iDDoS Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-iddos-entry-deleted-records-s

Description Enable automatic packet-capture for Custom FW iDDoS Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-fw-sesn-limit-exceeded-records-s

Description Enable automatic packet-capture for Custom FW Session Limit Exceeded Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-c-tunnel-event-records-sent-

Description Enable automatic packet-capture for Custom GTP C Tunnel Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-deny-event-records-sent-fail

Description Enable automatic packet-capture for Custom GTP Deny Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-info-event-records-sent-fail

Description Enable automatic packet-capture for Custom GTP Info Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-gtp-u-tunnel-event-records-sent-

Description Enable automatic packet-capture for Custom GTP U Tunnel Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l3-entry-created-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L3 Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l3-entry-deleted-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L3 Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l4-entry-created-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L4 Entry Created Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-nat-iddos-l4-entry-deleted-recor

Description Enable automatic packet-capture for Custom NAT iDDoS L4 Entry Deleted Records Sent Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-dslite-creation-re

Description Enable automatic packet-capture for Custom Dslite Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-dslite-deletion-re

Description Enable automatic packet-capture for Custom Dslite Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat44-creation-rec

Description Enable automatic packet-capture for Custom Nat44 Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat44-deletion-rec

Description Enable automatic packet-capture for Custom Nat44 Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat64-creation-rec

Description Enable automatic packet-capture for Custom Nat64 Port Batch Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-nat64-deletion-rec

Description Enable automatic packet-capture for Custom Nat64 Port Batch Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-dslite-creation

Description Enable automatic packet-capture for Custom Dslite Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-dslite-deletion

Description Enable automatic packet-capture for Custom Dslite Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat44-creation-

Description Enable automatic packet-capture for Custom Nat44 Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat44-deletion-

Description Enable automatic packet-capture for Custom Nat44 Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat64-creation-

Description Enable automatic packet-capture for Custom Nat64 Port Batch V2 Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-batching-v2-nat64-deletion-

Description Enable automatic packet-capture for Custom Nat64 Port Batch V2 Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-dslite-creation-rec

Description Enable automatic packet-capture for Custom Dslite Port Map Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-dslite-deletion-rec

Description Enable automatic packet-capture for Custom Dslite Port Map Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat44-creation-reco

Description Enable automatic packet-capture for Custom Nat44 Port Map Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat44-deletion-reco

Description Enable automatic packet-capture for Custom Nat44 Port Map Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat64-creation-reco

Description Enable automatic packet-capture for Custom Nat64 Port Map Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-port-mapping-nat64-deletion-reco

Description Enable automatic packet-capture for Custom Nat64 Port Map Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-dslite-creation-re

Description Enable automatic packet-capture for Custom Dslite Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-dslite-deletion-re

Description Enable automatic packet-capture for Custom Dslite Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw4-creation-recor

Description Enable automatic packet-capture for Custom FW4 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw4-deletion-recor

Description Enable automatic packet-capture for Custom FW4 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw6-creation-recor

Description Enable automatic packet-capture for Custom FW6 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-fw6-deletion-recor

Description Enable automatic packet-capture for Custom FW6 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat44-creation-rec

Description Enable automatic packet-capture for Custom Nat44 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat44-deletion-rec

Description Enable automatic packet-capture for Custom Nat44 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat64-creation-rec

Description Enable automatic packet-capture for Custom Nat64 Session Creation Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

custom-session-event-nat64-deletion-rec

Description Enable automatic packet-capture for Custom Nat64 Session Deletion Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-records-sent-failure

Description Enable automatic packet-capture for Dslite Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

nat44-records-sent-failure

Description Enable automatic packet-capture for NAT44 Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-records-sent-failure

Description Enable automatic packet-capture for NAT64 Flow Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

netflow-v5-ext-records-sent-failure

Description Enable automatic packet-capture for Netflow v5 Ext Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

netflow-v5-records-sent-failure

Description Enable automatic packet-capture for Netflow v5 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-dslite-records-sent-failu

Description Enable automatic packet-capture for Port Batching Dslite Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-nat44-records-sent-failur

Description Enable automatic packet-capture for Port Batching Nat44 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-nat64-records-sent-failur

Description Enable automatic packet-capture for Port Batching Nat64 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-dslite-records-sent-fa

Description Enable automatic packet-capture for Port Batching V2 Dslite Records Falied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-nat44-records-sent-fai

Description Enable automatic packet-capture for Port Batching V2 Nat44 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-batching-v2-nat64-records-sent-fai

Description Enable automatic packet-capture for Port Batching V2 Nat64 Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-dslite-records-sent-failur

Description Enable automatic packet-capture for Port Mapping Dslite Event Records failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-nat44-records-sent-failure

Description Enable automatic packet-capture for Port Mapping Nat44 Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-mapping-nat64-records-sent-failure

Description Enable automatic packet-capture for Port Mapping Nat64 Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-dslite-records-sent-failu

Description Enable automatic packet-capture for Dslite Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-fw4-records-sent-failure

Description Enable automatic packet-capture for FW4 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-fw6-records-sent-failure

Description Enable automatic packet-capture for FW6 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-nat44-records-sent-failur

Description Enable automatic packet-capture for Nat44 Session Event Records Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-event-nat64-records-sent-failur

Description Enable automatic packet-capture for Nat64 Session Event Records Falied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

Default: 0

es_resp_400

Description Enable automatic packet-capture for Response status 400

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

es_resp_500

Description Enable automatic packet-capture for Response status 500

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp-3xx

Description Enable automatic packet-capture for Response status 3xx

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp-4xx

Description Enable automatic packet-capture for Response status 4xx

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp-5xx

Description Enable automatic packet-capture for Response status 5xx

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_cgnv6-dns64-vs-port-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Description Enable automatic packet-capture for slbTemplateCacheRvFailure, help rv_failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_slb-templ-cache-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

content_toobig

Description Enable automatic packet-capture for slbTemplateCacheContentToobig, help content_toobig

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

content_toosmall

Description Enable automatic packet-capture for slbTemplateCacheContentToosmall, help content_toosmall

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

entry_create_failures

Description Enable automatic packet-capture for slbTemplateCacheEntryCreateFailures, help entry_create_failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_save_error

Description Enable automatic packet-capture for some help string

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nc_req_header

Description Enable automatic packet-capture for slbTemplateCacheNcReqHeader, help nc_req_header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nc_res_header

Description Enable automatic packet-capture for slbTemplateCacheNcResHeader, help nc_res_header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rv_failure

Description Enable automatic packet-capture for slbTemplateCacheRvFailure, help rv_failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-auth-logon-http-ins-tmpl-list

drop-vld-country-code-mismatch

Description Enable automatic packet-capture for Validation Drop: Country Code Mismatch in IMSI and MSISDN

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-cross-layer-correlation

Description Enable automatic packet-capture for Validation Drop: Cross Layer IP Address Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-bearer-count-exceed

Description Enable automatic packet-capture for Validation Drop: GTP Bearer count exceeded max (11)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-ie-repeat-count-exceed

Description Enable automatic packet-capture for Validation Drop: GTP repeated IE count exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-apn-len-drop

Description Enable automatic packet-capture for Validation Drop: GTP-C Invalid APN Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-invalid-imsi-len-drop

Description Enable automatic packet-capture for Validation Drop: GTP-C Invalid IMSI Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-u-spoofed-source-address

Description Enable automatic packet-capture for Validation Drop: GTP-U IP Address Spoofed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtp-v2-wrong-lbi-create-bearer

Description Enable automatic packet-capture for Validation Drop: GTPV2-C Wrong LBI in Create Bearer Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv0-seqnum-buffer-full

Description Enable automatic packet-capture for Validation Drop: GTPV0-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv1-seqnum-buffer-full

Description Enable automatic packet-capture for Validation Drop: GTPV1-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-gtpv2-seqnum-buffer-full

Description Enable automatic packet-capture for Validation Drop: GTPV2-C conn Sequence number Buffer Full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-flow-label-v0

Description Enable automatic packet-capture for Validation Drop: Invalid Flow Label in GTPv0-C Header

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-pkt-len-piggyback

Description Enable automatic packet-capture for Validation Drop: Piggyback message invalid packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-invalid-teid

Description Enable automatic packet-capture for Validation Drop: Invalid TEID Value

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-mandatory-ie-in-grouped-ie

Description Enable automatic packet-capture for Validation Drop: Mandatory IE in Grouped IE Not Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-mandatory-information-element

Description Enable automatic packet-capture for Validation Drop: Mandatory IE Not Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-message-length

Description Enable automatic packet-capture for Validation Drop: Message Length Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-order-ie

Description Enable automatic packet-capture for Validation Drop: GTPv1-C Message Out of Order IE

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state

Description Enable automatic packet-capture for Validation Drop: Out Of State GTP Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-out-of-state-ie

Description Enable automatic packet-capture for Validation Drop: Unexpected IE Present in Message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-protocol-flag-unset

Description Enable automatic packet-capture for Validation Drop: Protocol flag in Header Field not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-field-set

Description Enable automatic packet-capture for Validation Drop: Reserved Header Field Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-reserved-information-element

Description Enable automatic packet-capture for Validation Drop: Reserved IE Field Present

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sanity-failed-piggyback

Description Enable automatic packet-capture for Validation Drop: piggyback message anomaly failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-sequence-num-correlation

Description Enable automatic packet-capture for Validation Drop: GTP-C Sequence number Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-tunnel-id-flag

Description Enable automatic packet-capture for Validation Drop: Tunnel Header Flag Not Set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-v0-reserved-message-drop

Description Enable automatic packet-capture for Validation Drop: GTPv0-C Reserved Message Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-v1-reserved-message-drop

Description Enable automatic packet-capture for Validation Drop: GTPv1-C Reserved Message Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-v2-reserved-message-drop

Description Enable automatic packet-capture for Validation Drop: GTPv2-C Reserved Message Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-vld-version-not-supported

Description Enable automatic packet-capture for Validation Drop: Invalid GTP version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Description Enable automatic packet-capture for ACS Fail Count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

md-fail

Description Enable automatic packet-capture for Metadata Update Fail Count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-auth-saml-id-prov-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

acs-fail

Description Enable automatic packet-capture for ACS Fail Count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

md-fail

Description Enable automatic packet-capture for Metadata Update Fail Count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-auth-relay-form-inst-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *object-templates_aam-auth-relay-form-inst-tmpl-list_trigger-stats-inc*

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

reset

Description Enable automatic packet-capture for Reset counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unmatched-drops

Description Enable automatic packet-capture for Unmatched drops counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-auth-server-ocsp-inst-tmpl-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Packet Capture Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-auth-server-ocsp-inst-tmpl/{name}/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-auth-server-ocsp-inst-tmpl/{name}/trigger-stats-rate*

trigger-stats-severity

Description: trigger-stats-severity is a **JSON Block**. Please see below for *object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-severity*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/object-templates/aam-auth-server-ocsp-inst-tmpl/{name}/trigger-stats-severity*

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-severity

Specification	Value
Type	*object*

drop

Description Enable packet capture on all drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-alert

Description Enable packet capture on all alert drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-critical

Description Enable packet capture on all critical drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

drop-warning

Description Enable packet capture on all warning drop counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error

Description Enable packet capture on all error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-alert

Description Enable packet capture on all alert error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-critical

Description Enable packet capture on all critical error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-warning

Description Enable packet capture on all warning error counters (Default disabled)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-inc

Specification	Value
Type	*object*

fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-timeout

Description Enable automatic packet-capture for OCSP Stapling Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

timeout

Description Enable automatic packet-capture for Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

object-templates_aam-auth-server-ocsp-inst-tmpl-list_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-fail

Description Enable automatic packet-capture for Handle OCSP response failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-timeout

Description Enable automatic packet-capture for OCSP Stapling Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

timeout

Description Enable automatic packet-capture for Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

delete-packet-capture-file

Specification	Value
Type	*object*

all

Description Delete all files in this partition

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

file-name

Description Specify the name of the packet capture file to be deleted

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

global-templates

Specification	Value
Type	*object*

activate

Description: activate is a **JSON Block**. Please see below for *global-templates_activate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/activate*

template-list

Type: List

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_activate

Specification	Value
Type	*object*

template

Description Name of the global templated to be activated

Type: string

Maximum Length: 128 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list

Specification	Value
Type	*list*
Block object keys	

capture-config

Description Specify name of the capture-config to use with this template

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

Reference Object: */axapi/v3/visibility/packet-capture/capture-config*

name

Description Template Name

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

trigger-sys-obj-stats-change

Description: trigger-sys-obj-stats-change is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change*

trigger-sys-obj-stats-severity

Description: trigger-sys-obj-stats-severity is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-severity*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-severity*

user-tag

Description Customized tag

Type: string

Format: string-rlx

Maximum Length: 127 characters

Maximum Length: 1 characters

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change

Specification	Value
Type	*object*

aam-auth-account

Description: aam-auth-account is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-account*

Type: Object

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-icmp/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-icmp_trigger-stats-inc

Specification	Value
Type	*object*

icmp-to-icmp-err

Description Enable automatic packet-capture for ICMP to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmp-to-icmpv6-err

Description Enable automatic packet-capture for ICMP to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmp-err

Description Enable automatic packet-capture for ICMPv6 to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmpv6-err

Description Enable automatic packet-capture for ICMPv6 to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-icmp_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

icmp-to-icmp-err

Description Enable automatic packet-capture for ICMP to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmp-to-icmpv6-err

Description Enable automatic packet-capture for ICMP to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmp-err

Description Enable automatic packet-capture for ICMPv6 to ICMP Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmpv6-to-icmpv6-err

Description Enable automatic packet-capture for ICMPv6 to ICMPv6 Conversion Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-pcp/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-pcp/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-pcp_trigger-stats-inc

Specification	Value
Type	*object*

address-mismatch

Description Enable automatic packet-capture for PCP Client Address Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cannot-provide-suggest

Description Enable automatic packet-capture for Cannot Provide Suggested Port When PREFER_FAILURE

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

excessive-remote-peers

Description Enable automatic packet-capture for Excessive Remote Peers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

internal-error-drop

Description Enable automatic packet-capture for Internal Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4-process-error

Description Enable automatic packet-capture for L3/L4 Process Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

malform-option

Description Enable automatic packet-capture for PCP Option Malformed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

malform-request

Description Enable automatic packet-capture for PCP Request Malformed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-resources

Description Enable automatic packet-capture for No System or NAT Resources

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

noroute-drop

Description Enable automatic packet-capture for Response No Route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

not-authorized

Description Enable automatic packet-capture for PCP Request Not Authorized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-not-from-nat-inside

Description Enable automatic packet-capture for Packet Dropped For Not Coming From NAT Inside

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-not-request-drop

Description Enable automatic packet-capture for Packet Not a PCP Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-too-short-drop

Description Enable automatic packet-capture for Packet Too Short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsol_ance_sent_fail

Description Enable automatic packet-capture for Unsolicited Announce Send Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-opcode

Description Enable automatic packet-capture for Unsupported PCP Opcode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-option

Description Enable automatic packet-capture for Unsupported PCP Option

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupp-protocol

Description Enable automatic packet-capture for Unsupported Mapping Protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-version

Description Enable automatic packet-capture for Unsupported PCP version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Specification	Value
Type	*object*

forward_req_data_fail

Description Enable automatic packet-capture for Forward REQ data failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

forward_req_fail

Description Enable automatic packet-capture for Forward request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

get_all_headers_fail

Description Enable automatic packet-capture for Get all headers fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_resonse_line_fail

Description Enable automatic packet-capture for Ins response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_extend_fail

Description Enable automatic packet-capture for Line extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_table_extend_fail

Description Enable automatic packet-capture for Table extend fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for Line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_proxy

Description Enable automatic packet-capture for No proxy error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_req_fail

Description Enable automatic packet-capture for Parse request failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_request_line_fail

Description Enable automatic packet-capture for Parse request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_resonse_line_fail

Description Enable automatic packet-capture for Parse response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read_request_line_fail

Description Enable automatic packet-capture for Read request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

recv_server_unknow_reply_code

Description Enable automatic packet-capture for Recv server unknown-code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

remove_resonse_line_fail

Description Enable automatic packet-capture for Del response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

send_client_service_not_ready

Description Enable automatic packet-capture for Sent client serv-not-rdy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_STARTTLS_fail

Description Enable automatic packet-capture for Server side STARTTLS fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_select_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

too_many_headers

Description Enable automatic packet-capture for Too many headers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Description Enable automatic packet-capture for Parse request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_resonse_line_fail

Description Enable automatic packet-capture for Parse response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read_request_line_fail

Description Enable automatic packet-capture for Read request line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

recv_server_unknow_reply_code

Description Enable automatic packet-capture for Recv server unknown-code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

remove_resonse_line_fail

Description Enable automatic packet-capture for Del response line fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

send_client_service_not_ready

Description Enable automatic packet-capture for Sent client serv-not-rdy

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_STARTTLS_fail

Description Enable automatic packet-capture for Server side STARTTLS fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_select_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

too_many_headers

Description Enable automatic packet-capture for Too many headers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-aflow

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_slb-aflow_trigger-stats-inc*

Specification	Value
Type	*object*

error_resume_conn

Description Enable automatic packet-capture for Resume conn by error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pause_conn_fail

Description Enable automatic packet-capture for Pause connection fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-aflow_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

error_resume_conn

Description Enable automatic packet-capture for Resume conn by error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pause_conn_fail

Description Enable automatic packet-capture for Pause connection fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-mqtt

Specification	Value
Type	*object*

Specification	Value
Type	*object*

client_id_null

Description Enable automatic packet-capture for Null client id

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

conn_null

Description Enable automatic packet-capture for Null conn

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insertion_failed

Description Enable automatic packet-capture for Insertion failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_connect_fail

Description Enable automatic packet-capture for Parse connect failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_publish_fail

Description Enable automatic packet-capture for Parse publish failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_subscribe_fail

Description Enable automatic packet-capture for Parse subscribe failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse_unsubscribe_fail

Description Enable automatic packet-capture for Parse unsubscribe failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session_exist

Description Enable automatic packet-capture for Session already exist

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tuple_already_linked

Description Enable automatic packet-capture for tuple-already-linked failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tuple_not_linked

Description Enable automatic packet-capture for tuple-not-linked failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_slb-link-probe_trigger-stats-inc

Specification	Value
Type	*object*

err_entry_create_failed

Description Enable automatic packet-capture for Entry Creation Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_entry_create_oom

Description Enable automatic packet-capture for Entry Creation Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_entry_insert_failed

Description Enable automatic packet-capture for Entry Insert Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_l4_sess_alloc

Description Enable automatic packet-capture for Error allocating L4 session for probe

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_probe_tcp_conn_send

Description Enable automatic packet-capture for Error in initiating TCP connection for probe

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_smart_nat_alloc

Description Enable automatic packet-capture for Error creating Smart NAT Instance

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_smart_nat_port_alloc

Description Enable automatic packet-capture for Error obtaining Smart NAT source port

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_tmpl_probe_create_failed

Description Enable automatic packet-capture for Probe Template Creation Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_tmpl_probe_create_oom

Description Enable automatic packet-capture for Probe Template Creation Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_http_response_bad

Description Enable automatic packet-capture for Total HTTP responses not matching probe template config

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

total_tcp_err

Description Enable automatic packet-capture for Total TCP errors in probes sent out

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-plyr-id-gbl_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

total_invalid_playerid_pkts

Description Enable automatic packet-capture for Invalid playerid packets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_aam-rdns

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_aam-rdns_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/aam-rdns/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_aam-rdns_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/aam-rdns/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_aam-rdns_trigger-stats-inc

Specification	Value
Type	*object*

request-dropped

Description Enable automatic packet-capture for Total Dropped Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-error

Description Enable automatic packet-capture for Total Error Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-failure

Description Enable automatic packet-capture for Total Failure Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-timeout

Description Enable automatic packet-capture for Total Timeout Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-error_trigger-stats-inc

Specification	Value
Type	*object*

app-data-in-handshake

Description Enable automatic packet-capture for app data in handshake

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

attempt-to-reuse-sess-in-diff-context

Description Enable automatic packet-capture for attempt to reuse sess in diff context

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-alert-record

Description Enable automatic packet-capture for bad alert record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-authentication-type

Description Enable automatic packet-capture for bad authentication type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-change-cipher-spec

Description Enable automatic packet-capture for bad change cipher spec

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-checksum

Description Enable automatic packet-capture for bad checksum

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-data-returned-by-callback

Description Enable automatic packet-capture for bad data returned by callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-decompression

Description Enable automatic packet-capture for bad decompression

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-g-length

Description Enable automatic packet-capture for bad dh g length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-p-length

Description Enable automatic packet-capture for bad dh p length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-pub-key-length

Description Enable automatic packet-capture for bad dh pub key length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-digest-length

Description Enable automatic packet-capture for bad digest length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dsa-signature

Description Enable automatic packet-capture for bad dsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecc-cert

Description Enable automatic packet-capture for bad ecc cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecdsa-sig

Description Enable automatic packet-capture for bad ecdsa sig

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecpoint

Description Enable automatic packet-capture for bad ecpoint

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-handshake-length

Description Enable automatic packet-capture for bad handshake length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-hello-request

Description Enable automatic packet-capture for bad hello request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-length

Description Enable automatic packet-capture for bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-mac-decode

Description Enable automatic packet-capture for bad mac decode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-message-type

Description Enable automatic packet-capture for bad message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-packet-length

Description Enable automatic packet-capture for bad packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-protocol-version-counter

Description Enable automatic packet-capture for bad protocol version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-response-argument

Description Enable automatic packet-capture for bad response argument

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-decrypt

Description Enable automatic packet-capture for bad rsa decrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-e-length

Description Enable automatic packet-capture for bad rsa e length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-encrypt

Description Enable automatic packet-capture for bad rsa encrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-modulus-length

Description Enable automatic packet-capture for bad rsa modulus length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-signature

Description Enable automatic packet-capture for bad rsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-signature

Description Enable automatic packet-capture for bad signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-filetype

Description Enable automatic packet-capture for bad ssl filetype

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-session-id-length

Description Enable automatic packet-capture for bad ssl session id length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-state

Description Enable automatic packet-capture for bad state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-write-retry

Description Enable automatic packet-capture for bad write retry

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bio-not-set

Description Enable automatic packet-capture for bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

block-cipher-pad-is-wrong

Description Enable automatic packet-capture for block cipher pad is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bn-lib

Description Enable automatic packet-capture for bn lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-length-mismatch

Description Enable automatic packet-capture for ca dn length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-too-long

Description Enable automatic packet-capture for ca dn too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ccs-received-early

Description Enable automatic packet-capture for ccs received early

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cert-length-mismatch

Description Enable automatic packet-capture for cert length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

certificate-verify-failed

Description Enable automatic packet-capture for certificate verify failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

challenge-is-different

Description Enable automatic packet-capture for challenge is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-code-wrong-length

Description Enable automatic packet-capture for cipher code wrong length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-or-hash-unavailable

Description Enable automatic packet-capture for cipher or hash unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-table-src-error

Description Enable automatic packet-capture for cipher table src error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

clienthello-tlsext

Description Enable automatic packet-capture for clienthello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compressed-length-too-long

Description Enable automatic packet-capture for compressed length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-failure

Description Enable automatic packet-capture for compression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-library-error

Description Enable automatic packet-capture for compression library error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-id-is-different

Description Enable automatic packet-capture for connection id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-type-not-set

Description Enable automatic packet-capture for connection type not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie-mismatch

Description Enable automatic packet-capture for cookie mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-between-ccs-and-finished

Description Enable automatic packet-capture for data between ccs and finished

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-length-too-long

Description Enable automatic packet-capture for data length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed

Description Enable automatic packet-capture for decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed-or-bad-record-mac

Description Enable automatic packet-capture for decryption failed or bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dh-public-value-length-is-wrong

Description Enable automatic packet-capture for dh public value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

digest-check-failed

Description Enable automatic packet-capture for digest check failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

encrypted-length-too-long

Description Enable automatic packet-capture for encrypted length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-generating-tmp-rsa-key

Description Enable automatic packet-capture for error generating tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-in-received-cipher-list

Description Enable automatic packet-capture for error in received cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

excessive-message-size

Description Enable automatic packet-capture for excessive message size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

extra-data-in-message

Description Enable automatic packet-capture for extra data in message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

got-a-fin-before-a-ccs

Description Enable automatic packet-capture for got a fin before a ccs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http-request

Description Enable automatic packet-capture for http request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

https-proxy-request

Description Enable automatic packet-capture for https proxy request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

illegal-padding

Description Enable automatic packet-capture for illegal padding

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inappropriate-fallback

Description Enable automatic packet-capture for inappropriate fallback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-challenge-length

Description Enable automatic packet-capture for invalid challenge length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-command

Description Enable automatic packet-capture for invalid command

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-purpose

Description Enable automatic packet-capture for invalid purpose

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-status-response

Description Enable automatic packet-capture for invalid status response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-trust

Description Enable automatic packet-capture for invalid trust

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

key-arg-too-long

Description Enable automatic packet-capture for key arg too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5

Description Enable automatic packet-capture for krb5

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-cc-principal

Description Enable automatic packet-capture for krb5 client cc principal

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-get-cred

Description Enable automatic packet-capture for krb5 client get cred

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-init

Description Enable automatic packet-capture for krb5 client init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-mk-req

Description Enable automatic packet-capture for krb5 client mk_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-bad-ticket

Description Enable automatic packet-capture for krb5 server bad ticket

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-init

Description Enable automatic packet-capture for krb5 server init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-rd-req

Description Enable automatic packet-capture for krb5 server rd_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-expired

Description Enable automatic packet-capture for krb5 server tkt expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-not-yet-valid

Description Enable automatic packet-capture for krb5 server tkt not yet valid

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-skew

Description Enable automatic packet-capture for krb5 server tkt skew

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-mismatch

Description Enable automatic packet-capture for length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-too-short

Description Enable automatic packet-capture for length too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-bug

Description Enable automatic packet-capture for library bug

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-has-no-ciphers

Description Enable automatic packet-capture for library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mast-key-too-long

Description Enable automatic packet-capture for mast key too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

message-too-long

Description Enable automatic packet-capture for message too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-dsa-cert

Description Enable automatic packet-capture for missing dh dsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-key

Description Enable automatic packet-capture for missing dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-rsa-cert

Description Enable automatic packet-capture for missing dh rsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dsa-signing-cert

Description Enable automatic packet-capture for missing dsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-dh-key

Description Enable automatic packet-capture for missing export tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-rsa-key

Description Enable automatic packet-capture for missing export tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-certificate

Description Enable automatic packet-capture for missing rsa certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-encrypting-cert

Description Enable automatic packet-capture for missing rsa encrypting cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-signing-cert

Description Enable automatic packet-capture for missing rsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-dh-key

Description Enable automatic packet-capture for missing tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-key

Description Enable automatic packet-capture for missing tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-pkey

Description Enable automatic packet-capture for missing tmp rsa pkey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-verify-message

Description Enable automatic packet-capture for missing verify message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

multiple-sgc-restarts

Description Enable automatic packet-capture for multiple sgc restarts

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-assigned

Description Enable automatic packet-capture for no certificate assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-returned

Description Enable automatic packet-capture for no certificate returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-set

Description Enable automatic packet-capture for no certificate set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-specified

Description Enable automatic packet-capture for no certificate specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificates-returned

Description Enable automatic packet-capture for no certificates returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-list

Description Enable automatic packet-capture for no cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-match

Description Enable automatic packet-capture for no cipher match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-available

Description Enable automatic packet-capture for no ciphers available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-passed

Description Enable automatic packet-capture for no ciphers passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-specified

Description Enable automatic packet-capture for no ciphers specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-client-cert-received

Description Enable automatic packet-capture for no client cert received

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-compression-specified

Description Enable automatic packet-capture for no compression specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-method-specified

Description Enable automatic packet-capture for no method specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-private-key-assigned

Description Enable automatic packet-capture for no private key assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-privatekey

Description Enable automatic packet-capture for no privatekey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-protocols-available

Description Enable automatic packet-capture for no protocols available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-publickey

Description Enable automatic packet-capture for no publickey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-required-digest

Description Enable automatic packet-capture for no required digest

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-shared-cipher

Description Enable automatic packet-capture for no shared cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-verify-callback

Description Enable automatic packet-capture for no verify callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

non-sslv2-initial-packet

Description Enable automatic packet-capture for non sslv2 initial packet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-ctx

Description Enable automatic packet-capture for null ssl ctx

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-method-passed

Description Enable automatic packet-capture for null ssl method passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

old-session-cipher-not-returned

Description Enable automatic packet-capture for old session cipher not returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-length-too-long

Description Enable automatic packet-capture for packet length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse-tlsext

Description Enable automatic packet-capture for parse tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

path-too-long

Description Enable automatic packet-capture for path too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-did-not-return-a-certificate

Description Enable automatic packet-capture for peer did not return a certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error

Description Enable automatic packet-capture for peer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-certificate

Description Enable automatic packet-capture for peer error certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-certificate

Description Enable automatic packet-capture for peer error no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-cipher

Description Enable automatic packet-capture for peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-unsupported-certificate-type

Description Enable automatic packet-capture for peer error unsupported certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pre-mac-length-too-long

Description Enable automatic packet-capture for pre mac length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

problems-mapping-cipher-functions

Description Enable automatic packet-capture for problems mapping cipher functions

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

protocol-is-shutdown

Description Enable automatic packet-capture for protocol is shutdown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-encrypt-error

Description Enable automatic packet-capture for public key encrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-is-not-rsa

Description Enable automatic packet-capture for public key is not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-not-rsa

Description Enable automatic packet-capture for public key not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-bio-not-set

Description Enable automatic packet-capture for read bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-wrong-packet-type

Description Enable automatic packet-capture for read wrong packet type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-length-mismatch

Description Enable automatic packet-capture for record length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-large

Description Enable automatic packet-capture for record too large

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-small

Description Enable automatic packet-capture for record too small

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

required-cipher-missing

Description Enable automatic packet-capture for required cipher missing

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-length-not-zero

Description Enable automatic packet-capture for reuse cert length not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-type-not-zero

Description Enable automatic packet-capture for reuse cert type not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cipher-list-not-zero

Description Enable automatic packet-capture for reuse cipher list not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

scsv-received-when-renegotiating

Description Enable automatic packet-capture for scsv received when renegotiating

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serverhello-tlsext

Description Enable automatic packet-capture for serverhello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-id-context-uninitialized

Description Enable automatic packet-capture for session id context uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

short-read

Description Enable automatic packet-capture for short read

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

signature-for-non-signing-certificate

Description Enable automatic packet-capture for signature for non signing certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-ctx-has-no-default-ssl-version

Description Enable automatic packet-capture for ssl ctx has no default ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-handshake-failure

Description Enable automatic packet-capture for ssl handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-library-has-no-ciphers

Description Enable automatic packet-capture for ssl library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-callback-failed

Description Enable automatic packet-capture for ssl session id callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-conflict

Description Enable automatic packet-capture for ssl session id conflict

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-context-too-long

Description Enable automatic packet-capture for ssl session id context too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-has-bad-length

Description Enable automatic packet-capture for ssl session id has bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-is-different

Description Enable automatic packet-capture for ssl session id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl2-connection-id-too-long

Description Enable automatic packet-capture for ssl2 connection id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl23-doing-session-id-reuse

Description Enable automatic packet-capture for ssl23 doing session id reuse

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername

Description Enable automatic packet-capture for ssl3 ext invalid servername

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername-type

Description Enable automatic packet-capture for ssl3 ext invalid servername type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-long

Description Enable automatic packet-capture for ssl3 session id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-short

Description Enable automatic packet-capture for ssl3 session id too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-certificate

Description Enable automatic packet-capture for sslv3 alert bad certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-record-mac

Description Enable automatic packet-capture for sslv3 alert bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-expired

Description Enable automatic packet-capture for sslv3 alert certificate expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-revoked

Description Enable automatic packet-capture for sslv3 alert certificate revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-unknown

Description Enable automatic packet-capture for sslv3 alert certificate unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-decompression-failure

Description Enable automatic packet-capture for sslv3 alert decompression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-handshake-failure

Description Enable automatic packet-capture for sslv3 alert handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-illegal-parameter

Description Enable automatic packet-capture for sslv3 alert illegal parameter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-no-certificate

Description Enable automatic packet-capture for sslv3 alert no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-cert

Description Enable automatic packet-capture for sslv3 alert peer error cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cert

Description Enable automatic packet-capture for sslv3 alert peer error no cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cipher

Description Enable automatic packet-capture for sslv3 alert peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-unsupp-cert-type

Description Enable automatic packet-capture for sslv3 alert peer error unsupp cert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unexpected-msg

Description Enable automatic packet-capture for sslv3 alert unexpected msg

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unknown-remote-err-type

Description Enable automatic packet-capture for sslv3 alert unknown remote err type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unspported-cert

Description Enable automatic packet-capture for sslv3 alert unspported cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-client-cert-req-with-anon-cipher

Description Enable automatic packet-capture for tls client cert req with anon cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-invalid-ecpointformat-list

Description Enable automatic packet-capture for tls invalid ecpointformat list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-peer-did-not-respond-with-cert-list

Description Enable automatic packet-capture for tls peer did not respond with cert list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-rsa-encrypted-value-length-is-wrong

Description Enable automatic packet-capture for tls rsa encrypted value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-access-denied

Description Enable automatic packet-capture for tlsv1 alert access denied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decode-error

Description Enable automatic packet-capture for tlsv1 alert decode error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decrypt-error

Description Enable automatic packet-capture for tlsv1 alert decrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decryption-failed

Description Enable automatic packet-capture for tlsv1 alert decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-export-restriction

Description Enable automatic packet-capture for tlsv1 alert export restriction

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-insufficient-security

Description Enable automatic packet-capture for tlsv1 alert insufficient security

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-internal-error

Description Enable automatic packet-capture for tlsv1 alert internal error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-no-renegotiation

Description Enable automatic packet-capture for tlsv1 alert no renegotiation

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-protocol-version

Description Enable automatic packet-capture for tlsv1 alert protocol version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-record-overflow

Description Enable automatic packet-capture for tlsv1 alert record overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-unknown-ca

Description Enable automatic packet-capture for tlsv1 alert unknown ca

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-user-cancelled

Description Enable automatic packet-capture for tlsv1 alert user cancelled

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tried-to-use-unsupported-cipher

Description Enable automatic packet-capture for tried to use unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-decode-dh-certs

Description Enable automatic packet-capture for unable to decode dh certs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-extract-public-key

Description Enable automatic packet-capture for unable to extract public key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-dh-parameters

Description Enable automatic packet-capture for unable to find dh parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-public-key-parameters

Description Enable automatic packet-capture for unable to find public key parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-ssl-method

Description Enable automatic packet-capture for unable to find ssl method

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl2-md5-routines

Description Enable automatic packet-capture for unable to load ssl2 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-md5-routines

Description Enable automatic packet-capture for unable to load ssl3 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-sha1-routines

Description Enable automatic packet-capture for unable to load ssl3 sha1 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-message

Description Enable automatic packet-capture for unexpected message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-record

Description Enable automatic packet-capture for unexpected record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uninitialized

Description Enable automatic packet-capture for uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-alert-type

Description Enable automatic packet-capture for unknown alert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-certificate-type

Description Enable automatic packet-capture for unknown certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-returned

Description Enable automatic packet-capture for unknown cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-type

Description Enable automatic packet-capture for unknown cipher type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-key-exchange-type

Description Enable automatic packet-capture for unknown key exchange type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-pkey-type

Description Enable automatic packet-capture for unknown pkey type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-protocol

Description Enable automatic packet-capture for unknown protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-remote-error-type

Description Enable automatic packet-capture for unknown remote error type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-ssl-version

Description Enable automatic packet-capture for unknown ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-state

Description Enable automatic packet-capture for unknown state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-cipher

Description Enable automatic packet-capture for unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-compression-algorithm

Description Enable automatic packet-capture for unsupported compression algorithm

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-digest-type

Description Enable automatic packet-capture for unsupported digest type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-elliptic-curve

Description Enable automatic packet-capture for unsupported elliptic curve

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-option

Description Enable automatic packet-capture for unsupported option

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-protocol

Description Enable automatic packet-capture for unsupported protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-ssl-version

Description Enable automatic packet-capture for unsupported ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-status-type

Description Enable automatic packet-capture for unsupported status type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

write-bio-not-set

Description Enable automatic packet-capture for write bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-cipher-returned

Description Enable automatic packet-capture for wrong cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-counter-of-key-bits

Description Enable automatic packet-capture for wrong counter of key bits

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-message-type

Description Enable automatic packet-capture for wrong message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-length

Description Enable automatic packet-capture for wrong signature length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-size

Description Enable automatic packet-capture for wrong signature size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-ssl-version

Description Enable automatic packet-capture for wrong ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-version-counter

Description Enable automatic packet-capture for wrong version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-lib

Description Enable automatic packet-capture for x509 lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-verification-setup-problems

Description Enable automatic packet-capture for x509 verification setup problems

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-error_trigger-stats-rate

Specification	Value
Type	*object*

app-data-in-handshake

Description Enable automatic packet-capture for app data in handshake

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

attempt-to-reuse-sess-in-diff-context

Description Enable automatic packet-capture for attempt to reuse sess in diff context

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-alert-record

Description Enable automatic packet-capture for bad alert record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-authentication-type

Description Enable automatic packet-capture for bad authentication type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-change-cipher-spec

Description Enable automatic packet-capture for bad change cipher spec

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-checksum

Description Enable automatic packet-capture for bad checksum

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-data-returned-by-callback

Description Enable automatic packet-capture for bad data returned by callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-decompression

Description Enable automatic packet-capture for bad decompression

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-g-length

Description Enable automatic packet-capture for bad dh g length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-p-length

Description Enable automatic packet-capture for bad dh p length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dh-pub-key-length

Description Enable automatic packet-capture for bad dh pub key length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-digest-length

Description Enable automatic packet-capture for bad digest length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-dsa-signature

Description Enable automatic packet-capture for bad dsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecc-cert

Description Enable automatic packet-capture for bad ecc cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecdsa-sig

Description Enable automatic packet-capture for bad ecdsa sig

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ecpoint

Description Enable automatic packet-capture for bad ecpoint

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-handshake-length

Description Enable automatic packet-capture for bad handshake length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-hello-request

Description Enable automatic packet-capture for bad hello request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-length

Description Enable automatic packet-capture for bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-mac-decode

Description Enable automatic packet-capture for bad mac decode

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-message-type

Description Enable automatic packet-capture for bad message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-packet-length

Description Enable automatic packet-capture for bad packet length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-protocol-version-counter

Description Enable automatic packet-capture for bad protocol version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-response-argument

Description Enable automatic packet-capture for bad response argument

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-decrypt

Description Enable automatic packet-capture for bad rsa decrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-e-length

Description Enable automatic packet-capture for bad rsa e length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-encrypt

Description Enable automatic packet-capture for bad rsa encrypt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-modulus-length

Description Enable automatic packet-capture for bad rsa modulus length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-rsa-signature

Description Enable automatic packet-capture for bad rsa signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-signature

Description Enable automatic packet-capture for bad signature

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-filetype

Description Enable automatic packet-capture for bad ssl filetype

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ssl-session-id-length

Description Enable automatic packet-capture for bad ssl session id length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-state

Description Enable automatic packet-capture for bad state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-write-retry

Description Enable automatic packet-capture for bad write retry

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bio-not-set

Description Enable automatic packet-capture for bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

block-cipher-pad-is-wrong

Description Enable automatic packet-capture for block cipher pad is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bn-lib

Description Enable automatic packet-capture for bn lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-length-mismatch

Description Enable automatic packet-capture for ca dn length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ca-dn-too-long

Description Enable automatic packet-capture for ca dn too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ccs-received-early

Description Enable automatic packet-capture for ccs received early

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cert-length-mismatch

Description Enable automatic packet-capture for cert length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

certificate-verify-failed

Description Enable automatic packet-capture for certificate verify failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

challenge-is-different

Description Enable automatic packet-capture for challenge is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-code-wrong-length

Description Enable automatic packet-capture for cipher code wrong length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-or-hash-unavailable

Description Enable automatic packet-capture for cipher or hash unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cipher-table-src-error

Description Enable automatic packet-capture for cipher table src error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

clienthello-tlsext

Description Enable automatic packet-capture for clienthello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compressed-length-too-long

Description Enable automatic packet-capture for compressed length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-failure

Description Enable automatic packet-capture for compression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression-library-error

Description Enable automatic packet-capture for compression library error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-id-is-different

Description Enable automatic packet-capture for connection id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connection-type-not-set

Description Enable automatic packet-capture for connection type not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie-mismatch

Description Enable automatic packet-capture for cookie mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-between-ccs-and-finished

Description Enable automatic packet-capture for data between ccs and finished

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data-length-too-long

Description Enable automatic packet-capture for data length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed

Description Enable automatic packet-capture for decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decryption-failed-or-bad-record-mac

Description Enable automatic packet-capture for decryption failed or bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dh-public-value-length-is-wrong

Description Enable automatic packet-capture for dh public value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

digest-check-failed

Description Enable automatic packet-capture for digest check failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

encrypted-length-too-long

Description Enable automatic packet-capture for encrypted length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-generating-tmp-rsa-key

Description Enable automatic packet-capture for error generating tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error-in-received-cipher-list

Description Enable automatic packet-capture for error in received cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

excessive-message-size

Description Enable automatic packet-capture for excessive message size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

extra-data-in-message

Description Enable automatic packet-capture for extra data in message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

got-a-fin-before-a-ccs

Description Enable automatic packet-capture for got a fin before a ccs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http-request

Description Enable automatic packet-capture for http request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

https-proxy-request

Description Enable automatic packet-capture for https proxy request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

illegal-padding

Description Enable automatic packet-capture for illegal padding

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inappropriate-fallback

Description Enable automatic packet-capture for inappropriate fallback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-challenge-length

Description Enable automatic packet-capture for invalid challenge length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-command

Description Enable automatic packet-capture for invalid command

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-purpose

Description Enable automatic packet-capture for invalid purpose

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-status-response

Description Enable automatic packet-capture for invalid status response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-trust

Description Enable automatic packet-capture for invalid trust

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

key-arg-too-long

Description Enable automatic packet-capture for key arg too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5

Description Enable automatic packet-capture for krb5

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-cc-principal

Description Enable automatic packet-capture for krb5 client cc principal

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-get-cred

Description Enable automatic packet-capture for krb5 client get cred

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-init

Description Enable automatic packet-capture for krb5 client init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-client-mk-req

Description Enable automatic packet-capture for krb5 client mk_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-bad-ticket

Description Enable automatic packet-capture for krb5 server bad ticket

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-init

Description Enable automatic packet-capture for krb5 server init

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-rd-req

Description Enable automatic packet-capture for krb5 server rd_req

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-expired

Description Enable automatic packet-capture for krb5 server tkt expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-not-yet-valid

Description Enable automatic packet-capture for krb5 server tkt not yet valid

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

krb5-server-tkt-skew

Description Enable automatic packet-capture for krb5 server tkt skew

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-mismatch

Description Enable automatic packet-capture for length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

length-too-short

Description Enable automatic packet-capture for length too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-bug

Description Enable automatic packet-capture for library bug

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

library-has-no-ciphers

Description Enable automatic packet-capture for library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mast-key-too-long

Description Enable automatic packet-capture for mast key too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

message-too-long

Description Enable automatic packet-capture for message too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-dsa-cert

Description Enable automatic packet-capture for missing dh dsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-key

Description Enable automatic packet-capture for missing dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dh-rsa-cert

Description Enable automatic packet-capture for missing dh rsa cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-dsa-signing-cert

Description Enable automatic packet-capture for missing dsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-dh-key

Description Enable automatic packet-capture for missing export tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-export-tmp-rsa-key

Description Enable automatic packet-capture for missing export tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-certificate

Description Enable automatic packet-capture for missing rsa certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-encrypting-cert

Description Enable automatic packet-capture for missing rsa encrypting cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-rsa-signing-cert

Description Enable automatic packet-capture for missing rsa signing cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-dh-key

Description Enable automatic packet-capture for missing tmp dh key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-key

Description Enable automatic packet-capture for missing tmp rsa key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-tmp-rsa-pkey

Description Enable automatic packet-capture for missing tmp rsa pkey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

missing-verify-message

Description Enable automatic packet-capture for missing verify message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

multiple-sgc-restarts

Description Enable automatic packet-capture for multiple sgc restarts

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-assigned

Description Enable automatic packet-capture for no certificate assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-returned

Description Enable automatic packet-capture for no certificate returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-set

Description Enable automatic packet-capture for no certificate set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificate-specified

Description Enable automatic packet-capture for no certificate specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-certificates-returned

Description Enable automatic packet-capture for no certificates returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-list

Description Enable automatic packet-capture for no cipher list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-cipher-match

Description Enable automatic packet-capture for no cipher match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-available

Description Enable automatic packet-capture for no ciphers available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-passed

Description Enable automatic packet-capture for no ciphers passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ciphers-specified

Description Enable automatic packet-capture for no ciphers specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-client-cert-received

Description Enable automatic packet-capture for no client cert received

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-compression-specified

Description Enable automatic packet-capture for no compression specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-method-specified

Description Enable automatic packet-capture for no method specified

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-private-key-assigned

Description Enable automatic packet-capture for no private key assigned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-privatekey

Description Enable automatic packet-capture for no privatekey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-protocols-available

Description Enable automatic packet-capture for no protocols available

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-publickey

Description Enable automatic packet-capture for no publickey

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-required-digest

Description Enable automatic packet-capture for no required digest

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-shared-cipher

Description Enable automatic packet-capture for no shared cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-verify-callback

Description Enable automatic packet-capture for no verify callback

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

non-sslv2-initial-packet

Description Enable automatic packet-capture for non sslv2 initial packet

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-ctx

Description Enable automatic packet-capture for null ssl ctx

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

null-ssl-method-passed

Description Enable automatic packet-capture for null ssl method passed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

old-session-cipher-not-returned

Description Enable automatic packet-capture for old session cipher not returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

packet-length-too-long

Description Enable automatic packet-capture for packet length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

parse-tlsext

Description Enable automatic packet-capture for parse tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

path-too-long

Description Enable automatic packet-capture for path too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-did-not-return-a-certificate

Description Enable automatic packet-capture for peer did not return a certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error

Description Enable automatic packet-capture for peer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-certificate

Description Enable automatic packet-capture for peer error certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-certificate

Description Enable automatic packet-capture for peer error no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-no-cipher

Description Enable automatic packet-capture for peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

peer-error-unsupported-certificate-type

Description Enable automatic packet-capture for peer error unsupported certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pre-mac-length-too-long

Description Enable automatic packet-capture for pre mac length too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

problems-mapping-cipher-functions

Description Enable automatic packet-capture for problems mapping cipher functions

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

protocol-is-shutdown

Description Enable automatic packet-capture for protocol is shutdown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-encrypt-error

Description Enable automatic packet-capture for public key encrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-is-not-rsa

Description Enable automatic packet-capture for public key is not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

public-key-not-rsa

Description Enable automatic packet-capture for public key not rsa

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-bio-not-set

Description Enable automatic packet-capture for read bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

read-wrong-packet-type

Description Enable automatic packet-capture for read wrong packet type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-length-mismatch

Description Enable automatic packet-capture for record length mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-large

Description Enable automatic packet-capture for record too large

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

record-too-small

Description Enable automatic packet-capture for record too small

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

required-cipher-missing

Description Enable automatic packet-capture for required cipher missing

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-length-not-zero

Description Enable automatic packet-capture for reuse cert length not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cert-type-not-zero

Description Enable automatic packet-capture for reuse cert type not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reuse-cipher-list-not-zero

Description Enable automatic packet-capture for reuse cipher list not zero

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

scsv-received-when-renegotiating

Description Enable automatic packet-capture for scsv received when renegotiating

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serverhello-tlsext

Description Enable automatic packet-capture for serverhello tlsext

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-id-context-uninitialized

Description Enable automatic packet-capture for session id context uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

short-read

Description Enable automatic packet-capture for short read

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

signature-for-non-signing-certificate

Description Enable automatic packet-capture for signature for non signing certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-ctx-has-no-default-ssl-version

Description Enable automatic packet-capture for ssl ctx has no default ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-handshake-failure

Description Enable automatic packet-capture for ssl handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-library-has-no-ciphers

Description Enable automatic packet-capture for ssl library has no ciphers

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-callback-failed

Description Enable automatic packet-capture for ssl session id callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-conflict

Description Enable automatic packet-capture for ssl session id conflict

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-context-too-long

Description Enable automatic packet-capture for ssl session id context too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-has-bad-length

Description Enable automatic packet-capture for ssl session id has bad length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-id-is-different

Description Enable automatic packet-capture for ssl session id is different

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl2-connection-id-too-long

Description Enable automatic packet-capture for ssl2 connection id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl23-doing-session-id-reuse

Description Enable automatic packet-capture for ssl23 doing session id reuse

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername

Description Enable automatic packet-capture for ssl3 ext invalid servername

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-ext-invalid-servername-type

Description Enable automatic packet-capture for ssl3 ext invalid servername type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-long

Description Enable automatic packet-capture for ssl3 session id too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl3-session-id-too-short

Description Enable automatic packet-capture for ssl3 session id too short

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-certificate

Description Enable automatic packet-capture for sslv3 alert bad certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-bad-record-mac

Description Enable automatic packet-capture for sslv3 alert bad record mac

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-expired

Description Enable automatic packet-capture for sslv3 alert certificate expired

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-revoked

Description Enable automatic packet-capture for sslv3 alert certificate revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-certificate-unknown

Description Enable automatic packet-capture for sslv3 alert certificate unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-decompression-failure

Description Enable automatic packet-capture for sslv3 alert decompression failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-handshake-failure

Description Enable automatic packet-capture for sslv3 alert handshake failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-illegal-parameter

Description Enable automatic packet-capture for sslv3 alert illegal parameter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-no-certificate

Description Enable automatic packet-capture for sslv3 alert no certificate

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-cert

Description Enable automatic packet-capture for sslv3 alert peer error cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cert

Description Enable automatic packet-capture for sslv3 alert peer error no cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-no-cipher

Description Enable automatic packet-capture for sslv3 alert peer error no cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-peer-error-unsupp-cert-type

Description Enable automatic packet-capture for sslv3 alert peer error unsupp cert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unexpected-msg

Description Enable automatic packet-capture for sslv3 alert unexpected msg

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unknown-remote-err-type

Description Enable automatic packet-capture for sslv3 alert unknown remote err type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sslv3-alert-unspported-cert

Description Enable automatic packet-capture for sslv3 alert unspported cert

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

tls-client-cert-req-with-anon-cipher

Description Enable automatic packet-capture for tls client cert req with anon cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-invalid-ecpointformat-list

Description Enable automatic packet-capture for tls invalid ecpointformat list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-peer-did-not-respond-with-cert-list

Description Enable automatic packet-capture for tls peer did not respond with cert list

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tls-rsa-encrypted-value-length-is-wrong

Description Enable automatic packet-capture for tls rsa encrypted value length is wrong

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-access-denied

Description Enable automatic packet-capture for tlsv1 alert access denied

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decode-error

Description Enable automatic packet-capture for tlsv1 alert decode error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decrypt-error

Description Enable automatic packet-capture for tlsv1 alert decrypt error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-decryption-failed

Description Enable automatic packet-capture for tlsv1 alert decryption failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-export-restriction

Description Enable automatic packet-capture for tlsv1 alert export restriction

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-insufficient-security

Description Enable automatic packet-capture for tlsv1 alert insufficient security

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-internal-error

Description Enable automatic packet-capture for tlsv1 alert internal error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-no-renegotiation

Description Enable automatic packet-capture for tlsv1 alert no renegotiation

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-protocol-version

Description Enable automatic packet-capture for tlsv1 alert protocol version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-record-overflow

Description Enable automatic packet-capture for tlsv1 alert record overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-unknown-ca

Description Enable automatic packet-capture for tlsv1 alert unknown ca

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tlsv1-alert-user-cancelled

Description Enable automatic packet-capture for tlsv1 alert user cancelled

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tried-to-use-unsupported-cipher

Description Enable automatic packet-capture for tried to use unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-decode-dh-certs

Description Enable automatic packet-capture for unable to decode dh certs

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-extract-public-key

Description Enable automatic packet-capture for unable to extract public key

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-dh-parameters

Description Enable automatic packet-capture for unable to find dh parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-public-key-parameters

Description Enable automatic packet-capture for unable to find public key parameters

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-find-ssl-method

Description Enable automatic packet-capture for unable to find ssl method

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl2-md5-routines

Description Enable automatic packet-capture for unable to load ssl2 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-md5-routines

Description Enable automatic packet-capture for unable to load ssl3 md5 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unable-to-load-ssl3-sha1-routines

Description Enable automatic packet-capture for unable to load ssl3 sha1 routines

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-message

Description Enable automatic packet-capture for unexpected message

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unexpected-record

Description Enable automatic packet-capture for unexpected record

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uninitialized

Description Enable automatic packet-capture for uninitialized

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-alert-type

Description Enable automatic packet-capture for unknown alert type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-certificate-type

Description Enable automatic packet-capture for unknown certificate type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-returned

Description Enable automatic packet-capture for unknown cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-cipher-type

Description Enable automatic packet-capture for unknown cipher type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-key-exchange-type

Description Enable automatic packet-capture for unknown key exchange type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-pkey-type

Description Enable automatic packet-capture for unknown pkey type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-protocol

Description Enable automatic packet-capture for unknown protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-remote-error-type

Description Enable automatic packet-capture for unknown remote error type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-ssl-version

Description Enable automatic packet-capture for unknown ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unknown-state

Description Enable automatic packet-capture for unknown state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-cipher

Description Enable automatic packet-capture for unsupported cipher

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-compression-algorithm

Description Enable automatic packet-capture for unsupported compression algorithm

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-digest-type

Description Enable automatic packet-capture for unsupported digest type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-elliptic-curve

Description Enable automatic packet-capture for unsupported elliptic curve

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-option

Description Enable automatic packet-capture for unsupported option

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-protocol

Description Enable automatic packet-capture for unsupported protocol

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-ssl-version

Description Enable automatic packet-capture for unsupported ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported-status-type

Description Enable automatic packet-capture for unsupported status type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

write-bio-not-set

Description Enable automatic packet-capture for write bio not set

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-cipher-returned

Description Enable automatic packet-capture for wrong cipher returned

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-counter-of-key-bits

Description Enable automatic packet-capture for wrong counter of key bits

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-message-type

Description Enable automatic packet-capture for wrong message type

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-length

Description Enable automatic packet-capture for wrong signature length

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-signature-size

Description Enable automatic packet-capture for wrong signature size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-ssl-version

Description Enable automatic packet-capture for wrong ssl version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

wrong-version-counter

Description Enable automatic packet-capture for wrong version counter

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-lib

Description Enable automatic packet-capture for x509 lib

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

x509-verification-setup-problems

Description Enable automatic packet-capture for x509 verification setup problems

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_slb-icap

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_slb-icap_trigger-stats-inc*

Specification	Value
Type	*object*

app_serv_conn_err

Description Enable automatic packet-capture for App Server Conn Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

app_serv_conn_no_pcb_err

Description Enable automatic packet-capture for App Server Conn no ES PCB Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk1_hdr_err

Description Enable automatic packet-capture for Chunk Hdr Err1 Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk2_hdr_err

Description Enable automatic packet-capture for Chunk Hdr Err2 Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

chunk_bad_trail_err

Description Enable automatic packet-capture for Chunk Bad Trail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

encap_hdr_incomplete_err

Description Enable automatic packet-capture for Encap HDR Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_hdr_err

Description Enable automatic packet-capture for HTTP Resp Hdr Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_line_parse_err

Description Enable automatic packet-capture for HTTP Response Line Parse Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_resp_line_read_err

Description Enable automatic packet-capture for HTTP Response Line Read Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icap_line_err

Description Enable automatic packet-capture for ICAP Line Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icap_ver_err

Description Enable automatic packet-capture for ICAP Ver Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_icap_resp_err

Description Enable automatic packet-capture for No ICAP Resp Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_payload_buff_err

Description Enable automatic packet-capture for No Payload Buff Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_payload_next_buff_err

Description Enable automatic packet-capture for No Payload In Next Buff Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_status_code_err

Description Enable automatic packet-capture for No Status Code Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

prep_req_fail_err

Description Enable automatic packet-capture for Prepare ICAP req fail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

req_hdr_incomplete_err

Description Enable automatic packet-capture for Req Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_err

Description Enable automatic packet-capture for Resp Hdr Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_incomplete_err

Description Enable automatic packet-capture for Resp Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_parse_err

Description Enable automatic packet-capture for Resp Line Parse Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_read_err

Description Enable automatic packet-capture for Resp Line Read Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serv_sel_fail_err

Description Enable automatic packet-capture for Server Select Fail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

start_icap_conn_fail_err

Description Enable automatic packet-capture for Start ICAP conn fail Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Default: 0

req_hdr_incomplete_err

Description Enable automatic packet-capture for Req Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_err

Description Enable automatic packet-capture for Resp Hdr Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_hdr_incomplete_err

Description Enable automatic packet-capture for Resp Hdr Incomplete Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_parse_err

Description Enable automatic packet-capture for Resp Line Parse Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

resp_line_read_err

Description Enable automatic packet-capture for Resp Line Read Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

serv_sel_fail_err

Description Enable automatic packet-capture for Server Select Fail Err Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

start_icap_conn_fail_err

Description Enable automatic packet-capture for Start ICAP conn fail Stats

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Specification	Value
Type	*object*

connections-failed

Description Enable automatic packet-capture for Connections failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-certificate-signing

Description Enable automatic packet-capture for Failed in Certificate signing

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-certificate-verification

Description Enable automatic packet-capture for Failed in Certificate verification

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-crypto-operations

Description Enable automatic packet-capture for Failed in crypto operations

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-ssl-handshakes

Description Enable automatic packet-capture for Failed in SSL handshakes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failed-in-tcp

Description Enable automatic packet-capture for Failed in TCP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-ocsp-stapling-response

Description Enable automatic packet-capture for Invalid OCSP Stapling Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

revoked-ocsp-response

Description Enable automatic packet-capture for Revoked OCSP Response

Type: boolean

Supported Values: true, false, 1, 0

Type	*object*

blade-gtp-c-smp-sig-check-failed

Description Enable automatic packet-capture for GTP-C SMP signature check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-info-ext-not-found

Description Enable automatic packet-capture for GTP-Info ext not found while freeing C-smp on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-rate-limit-entry-create-failu

Description Enable automatic packet-capture for GTP Rate Limit Entry Create Failure on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-rate-limit-smp-create-failure

Description Enable automatic packet-capture for GTP Rate Limit SMP Create Failure on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-rate-limit-t3-ctr-create-fail

Description Enable automatic packet-capture for GTP Rate Limit Dynamic Counters Create Failure on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-c-check-failed

Description Enable automatic packet-capture for GTP-C SMP check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-dec-sess-count-check-fail

Description Enable automatic packet-capture for GTP-U session count is 0 in GTP-C SMP on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-path-check-failed

Description Enable automatic packet-capture for GTP SMP PATH check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-session-count-check-faile

Description Enable automatic packet-capture for GTP-U session count is not in range of 0-11 in GTP-C SMP on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-smp-sig-check-failed

Description Enable automatic packet-capture for GTP SMP signature check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-u-smp-check-failed

Description Enable automatic packet-capture for GTP U-SMP check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-gtp-u-smp-sig-check-failed

Description Enable automatic packet-capture for GTP-U SMP signature check Failed on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

blade-out-of-session-memory

Description Enable automatic packet-capture for Out of Tunnel Memory on PU2

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-c-fail-conn-create-slow

Description Enable automatic packet-capture for GTP-C packet failed creating L4-session in slowpath

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-c-smp-sig-check-failed

Description Enable automatic packet-capture for GTP-C SMP signature check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-info-ext-not-found

Description Enable automatic packet-capture for GTP-Info ext not found while freeing C-smp

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-pathm-fail-conn-create-slow

Description Enable automatic packet-capture for GTP path packet failed while creating L4-session in slowpath

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-rate-limit-entry-create-failure

Description Enable automatic packet-capture for GTP Rate Limit Entry Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-rate-limit-smp-create-failure

Description Enable automatic packet-capture for GTP Rate Limit SMP Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-rate-limit-t3-ctr-create-failure

Description Enable automatic packet-capture for GTP Rate Limit Dynamic Counters Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-c-check-failed

Description Enable automatic packet-capture for GTP-C SMP check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-dec-sess-count-check-failed

Description Enable automatic packet-capture for GTP-U session count is 0 in GTP-C SMP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-path-check-failed

Description Enable automatic packet-capture for GTP SMP PATH check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-smp-sig-check-failed

Description Enable automatic packet-capture for GTP SMP signature check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-tunnel-rate-limit-entry-create-fail

Description Enable automatic packet-capture for GTP Tunnel Level Rate Limit Entry Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-fail-conn-create-slow

Description Enable automatic packet-capture for GTP-U packet failed while creating L4-session in slowpath

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-smp-check-failed

Description Enable automatic packet-capture for GTP U-SMP check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-smp-sig-check-failed

Description Enable automatic packet-capture for GTP SMP signature check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-tunnel-rate-limit-entry-create-fa

Description Enable automatic packet-capture for GTP-U Tunnel Level Rate Limit Entry Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

out-of-session-memory

Description Enable automatic packet-capture for Out of Tunnel Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Supported Values: true, false, 1, 0

Default: 0

gtp-u-fail-conn-create-slow

Description Enable automatic packet-capture for GTP-U packet failed while creating L4-session in slowpath

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-smp-check-failed

Description Enable automatic packet-capture for GTP U-SMP check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-smp-sig-check-failed

Description Enable automatic packet-capture for GTP SMP signature check Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gtp-u-tunnel-rate-limit-entry-create-fa

Description Enable automatic packet-capture for GTP-U Tunnel Level Rate Limit Entry Create Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

out-of-session-memory

Description Enable automatic packet-capture for Out of Tunnel Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-radius

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-radius_trigger-stats-inc*

Specification	Value
Type	*object*

accounting-failure

Description Enable automatic packet-capture for Accounting Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

authen_failure

Description Enable automatic packet-capture for Total Authentication Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

authorize_failure

Description Enable automatic packet-capture for Total Authorization Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

job-start-error

Description Enable automatic packet-capture for Total Job Start Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

other_error

Description Enable automatic packet-capture for Total Other Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

polling-control-error

Description Enable automatic packet-capture for Total Polling Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-dropped

Description Enable automatic packet-capture for Total Dropped Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-error

Description Enable automatic packet-capture for Total Error Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-failure

Description Enable automatic packet-capture for Total Failure Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-timeout

Description Enable automatic packet-capture for Total Timeout Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

timeout_error

Description Enable automatic packet-capture for Total Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_dest_mac_zero_drop

Description Enable automatic packet-capture for Destination MAC Address zero Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_frag_vlan_retrieval_

Description Enable automatic packet-capture for L2 redirect pkt frag vlan not retrieved

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_interface_not_up

Description Enable automatic packet-capture for L2redirect Intf is not UP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_invalid_redirect_inf

Description Enable automatic packet-capture for Redirect Table Error due to invalid redirect info

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_loop_detect_drop

Description Enable automatic packet-capture for L2 redirect pkt loop detected and dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_port_retrieval_error

Description Enable automatic packet-capture for L2 redirect pkt port not retrieved

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_tx_frag_vlan_add_fai

Description Enable automatic packet-capture for L2 redirect tx pkt failed to add vlan

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l2redirect_vlan_retrieval_error

Description Enable automatic packet-capture for L2 redirect pkt vlan not retrieved

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_chassis_dest_mac_er

Description Enable automatic packet-capture for L3 Redirect RX multi-slot Destination MAC Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_encap_error_drop

Description Enable automatic packet-capture for L3 Redirect encap error drop during transmission

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_fragmentation_error

Description Enable automatic packet-capture for L3 redirect encap Fragmentation error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_inner_mac_zero_drop

Description Enable automatic packet-capture for L3 Redirect inner mac zero drop during transmission

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_invalid_dev_dir

Description Enable automatic packet-capture for L3 Redirect Invalid Device direction during transmission

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_table_error

Description Enable automatic packet-capture for L3 Redirect Table error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_l3_redirect_table_no_entry_foun

Description Enable automatic packet-capture for L3 redirect Table no redirect entry found error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_slb_nat_release_fail

Description Enable automatic packet-capture for Total SLB NAT release failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

so_pkts_slb_nat_reserve_fail

Description Enable automatic packet-capture for Total SLB NAT reserve failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

ipv6_outbound_rh_copy_addr_error

Description Enable automatic packet-capture for some help string

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_rh_length_error

Description Enable automatic packet-capture for some help string

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tfc_padding_with_prefrag_not_supported

Description Enable automatic packet-capture for some help string

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_fw-logging

Specification	Value

bad_ip_flg

Description Enable automatic packet-capture for Bad IP Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_frg_offset

Description Enable automatic packet-capture for Bad IP Fragment Offset Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_hdrlen

Description Enable automatic packet-capture for Bad IP Header Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_payload_len

Description Enable automatic packet-capture for Bad IP Payload Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_ip_ttl

Description Enable automatic packet-capture for Bad IP TTL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_tcp_urg_offset

Description Enable automatic packet-capture for TCP Bad Urgent Offset Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

csum

Description Enable automatic packet-capture for Bad IP Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

emp_frg

Description Enable automatic packet-capture for Empty Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

emp_mic_frg

Description Enable automatic packet-capture for Micro Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

frg

Description Enable automatic packet-capture for IPv4 Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

gre_pptp_err

Description Enable automatic packet-capture for GRE PPTP Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipip_tnl_err

Description Enable automatic packet-capture for IP-over-IP Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipip_tnl_msmtch

Description Enable automatic packet-capture for IP-over-IP Tunnel Mismatch Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_ah

Description Enable automatic packet-capture for IPv6 Authentication Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_dest

Description Enable automatic packet-capture for IPv6 Destination Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_esp

Description Enable automatic packet-capture for IPv6 ESP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_frag

Description Enable automatic packet-capture for IPv6 Fragmentation Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_hbh

Description Enable automatic packet-capture for IPv6 Hop by Hop Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_malformed

Description Enable automatic packet-capture for IPv6 Malformed Extension Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_mobility

Description Enable automatic packet-capture for IPv6 Mobility Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_none

Description Enable automatic packet-capture for IPv6 No Next Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_other

Description Enable automatic packet-capture for IPv6 Unknown Extension Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6_eh_routing

Description Enable automatic packet-capture for IPv6 Routing Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

land

Description Enable automatic packet-capture for Land Attack Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_ip_payload

Description Enable automatic packet-capture for No IP Payload drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nvgre_err

Description Enable automatic packet-capture for GRE Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

opt

Description Enable automatic packet-capture for IPv4 Options Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

over_ip_payload

Description Enable automatic packet-capture for Oversize IP Payload Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pod

Description Enable automatic packet-capture for ICMP Ping of Death Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt_ip_hdr

Description Enable automatic packet-capture for Runt IP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt_tcp_udp_hdr

Description Enable automatic packet-capture for Runt TCP/UDP Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_bad_csum

Description Enable automatic packet-capture for TCP Bad Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_bad_iplen

Description Enable automatic packet-capture for TCP Bad IP Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_frg_hdr

Description Enable automatic packet-capture for TCP Fragmented Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_null_frg

Description Enable automatic packet-capture for TCP Null Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_null_scan

Description Enable automatic packet-capture for TCP Null Scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_opt_err

Description Enable automatic packet-capture for TCP Option Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_sht_hdr

Description Enable automatic packet-capture for TCP Short Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_syn_fin

Description Enable automatic packet-capture for TCP Syn and Fin Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_syn_frg

Description Enable automatic packet-capture for TCP Syn Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_xmas

Description Enable automatic packet-capture for TCP XMAS Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_xmas_scan

Description Enable automatic packet-capture for TCP XMAS Scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_bad_csum

Description Enable automatic packet-capture for UDP Bad Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_bad_len

Description Enable automatic packet-capture for UDP Bad Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_kerb_frg

Description Enable automatic packet-capture for UDP Kerberos Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_port_lb

Description Enable automatic packet-capture for UDP Port Loopback Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_srt_hdr

Description Enable automatic packet-capture for UDP Short Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vxlan_err

Description Enable automatic packet-capture for VXLAN Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_ip-anomaly-drop_trigger-stats-rate

Default: 0

tcp_xmas

Description Enable automatic packet-capture for TCP XMAS Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_xmas_scan

Description Enable automatic packet-capture for TCP XMAS Scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

udp_bad_csum

Description Enable automatic packet-capture for UDP Bad Checksum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_bad_len

Description Enable automatic packet-capture for UDP Bad Length Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_kerb_frg

Description Enable automatic packet-capture for UDP Kerberos Fragment Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_port_lb

Description Enable automatic packet-capture for UDP Port Loopback Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp_srt_hdr

Description Enable automatic packet-capture for UDP Short Header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

vxlan_err

Description Enable automatic packet-capture for VXLAN Tunnel Error Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_fw-ddos-protection_trigger-stats-inc

Specification	Value
Type	*object*

ddos_entries_too_many

Description Enable automatic packet-capture for Too many DDOS entries

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ddos_entry_add_to_bgp_failure

Description Enable automatic packet-capture for DDoS Entry BGP add failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ddos_entry_remove_from_bgp_failure

Description Enable automatic packet-capture for DDOS entry BGP remove failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ddos_packet_dropped

Description Enable automatic packet-capture for DDOS Packet Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type	*object*

auth_unsupported

Description Enable automatic packet-capture for Unsupported auth

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_epsv

Description Enable automatic packet-capture for cant find epsv

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_pasv

Description Enable automatic packet-capture for cant find pasv

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_request_err

Description Enable automatic packet-capture for Client RQ state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_send_fail

Description Enable automatic packet-capture for data send fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_server_conn_fail

Description Enable automatic packet-capture for data svr conn fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_start_line

Description Enable automatic packet-capture for invalid start line

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_create_fail

Description Enable automatic packet-capture for smp create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_pbsz_value

Description Enable automatic packet-capture for Unsupported PBSZ

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_prot_value

Description Enable automatic packet-capture for Unsupported PROT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

global-templates_template-list_trigger-sys-obj-stats-change_slb-rpz_trigger-stats-inc

Specification	Value
Type	*object*

parse_error

Description Enable automatic packet-capture for Total RPZ Parse Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

set_bw_error

Description Enable automatic packet-capture for Total RPZ Set Class-list Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-rpz_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

parse_error

Description Enable automatic packet-capture for Total RPZ Parse Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

set_bw_error

Description Enable automatic packet-capture for Total RPZ Set Class-list Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-ldap

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-ldap_trigger-stats-inc*

Specification	Value
Type	*object*

admin-bind-failure

Description Enable automatic packet-capture for Total Admin Bind Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

authorize-failure

Description Enable automatic packet-capture for Total Authorization Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bind-failure

Description Enable automatic packet-capture for Total User Bind Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

job-start-error

Description Enable automatic packet-capture for Total Job Start Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

other-error

Description Enable automatic packet-capture for Total Other Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

polling-control-error

Description Enable automatic packet-capture for Total Polling Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pw-change-failure

Description Enable automatic packet-capture for Total password change failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-dropped

Description Enable automatic packet-capture for Total Dropped Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-error

Description Enable automatic packet-capture for Total Error Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-failure

Description Enable automatic packet-capture for Total Failure Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-timeout

Description Enable automatic packet-capture for Total Timeout Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

search-failure

Description Enable automatic packet-capture for Total Search Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl-session-failure

Description Enable automatic packet-capture for TLS/SSL Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

timeout-error

Description Enable automatic packet-capture for Total Timeout

Type: boolean

Supported Values: true, false, 1, 0

timeout-error

Description Enable automatic packet-capture for Total Timeout

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-mgcp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-mgcp_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-lsn-alg-mgcp/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-mgcp_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-lsn-alg-mgcp/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-mgcp_trigger-stats-inc

Specification	Value
Type	*object*

parse-error

Description Enable automatic packet-capture for MGCP Message Parse Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-out-of-order-drop

Description Enable automatic packet-capture for TCP Out-of-Order Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-mgcp_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

parse-error

Description Enable automatic packet-capture for MGCP Message Parse Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-out-of-order-drop

Description Enable automatic packet-capture for TCP Out-of-Order Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-ocsp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-ocsp_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/aam-auth-server-ocsp/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-ocsp_trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_aam-auth-server-ocsp_trigger-stats-inc

Specification	Value
Type	*object*

job-start-error

Description Enable automatic packet-capture for Total OCSP Job Start Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

polling-control-error

Description Enable automatic packet-capture for Total OCSP Polling Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-dropped

Description Enable automatic packet-capture for Total OCSP Dropped Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-error

Description Enable automatic packet-capture for Total OCSP Error Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-failure

Description Enable automatic packet-capture for Total OCSP Failure Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

response-timeout

Description Enable automatic packet-capture for Total OCSP Timeout Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-request-dropped

Description Enable automatic packet-capture for Total OCSP Stapling Dropped Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-response-error

Description Enable automatic packet-capture for Total OCSP Stapling Error Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-response-failure

Description Enable automatic packet-capture for Total OCSP Stapling Failure Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stapling-response-timeout

Description Enable automatic packet-capture for Total OCSP Stapling Timeout Response

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Specification	Value
Type	*object*

eif_limit_exceeded

Description Enable automatic packet-capture for Endpoint-Independent Filtering Inbound Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_failure

Description Enable automatic packet-capture for Full-cone Session Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_self_hairpinning_drop

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_batch_type_mismatch

Description Enable automatic packet-capture for HA NAT Pool Batch Type Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_unusable

Description Enable automatic packet-capture for HA NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_pool_unusable

Description Enable automatic packet-capture for NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_port_unavailable_icmp

Description Enable automatic packet-capture for ICMP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_port_unavailable_tcp

Description Enable automatic packet-capture for TCP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_port_unavailable_udp

Description Enable automatic packet-capture for UDP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

new_user_resource_unavailable

Description Enable automatic packet-capture for New User NAT Resource Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_class_list_match

Description Enable automatic packet-capture for No Class-List Match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_radius_profile_match

Description Enable automatic packet-capture for No RADIUS Profile Match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_failure

Description Enable automatic packet-capture for User-Quota Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable

Description Enable automatic packet-capture for User-Quota Marked Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable_drop

Description Enable automatic packet-capture for User-Quota Unusable Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Specification	Value
Type	*object*

config-not-found

Description Enable automatic packet-capture for Fixed NAT Config not Found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-drop

Description Enable automatic packet-capture for Fixed NAT Dest Rule List Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-pass-through

Description Enable automatic packet-capture for Fixed NAT Dest Rule List Pass-Through

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dest-rlist-snat-drop

Description Enable automatic packet-capture for Fixed NAT Dest Rules List Source NAT Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-eif-limit-exceeded

Description Enable automatic packet-capture for DS-Lite Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dslite-inbound-filtered

Description Enable automatic packet-capture for DS-Lite Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fixed-nat-fullcone-self-hairpinning-dro

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone-failure

Description Enable automatic packet-capture for Full-Cone Session Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha-session-user-quota-exceeded

Description Enable automatic packet-capture for HA Sessions User Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-icmp

Description Enable automatic packet-capture for ICMP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-tcp

Description Enable automatic packet-capture for TCP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-udp

Description Enable automatic packet-capture for UDP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-eif-limit-exceeded

Description Enable automatic packet-capture for NAT44 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-inbound-filtered

Description Enable automatic packet-capture for NAT44 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-eif-limit-exceeded

Description Enable automatic packet-capture for NAT64 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-inbound-filtered

Description Enable automatic packet-capture for NAT64 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-overload-failed

Description Enable automatic packet-capture for Port overload failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-user-quota-exceeded

Description Enable automatic packet-capture for Sessions User Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sixrd-drop

Description Enable automatic packet-capture for Fixed NAT IPv6 in IPv4 Packet Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

standby-drop

Description Enable automatic packet-capture for Fixed NAT LID Standby Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Supported Values: true, false, 1, 0

Default: 0

nat-port-unavailable-udp

Description Enable automatic packet-capture for UDP NAT Port Unavailable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-eif-limit-exceeded

Description Enable automatic packet-capture for NAT44 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat44-inbound-filtered

Description Enable automatic packet-capture for NAT44 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-eif-limit-exceeded

Description Enable automatic packet-capture for NAT64 Endpoint-Independent-Filtering Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat64-inbound-filtered

Description Enable automatic packet-capture for NAT64 Endpoint-Dependent Filtering Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port-overload-failed

Description Enable automatic packet-capture for Port overload failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session-user-quota-exceeded

Description Enable automatic packet-capture for Sessions User Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sixrd-drop

Description Enable automatic packet-capture for Fixed NAT IPv6 in IPv4 Packet Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

standby-drop

Description Enable automatic packet-capture for Fixed NAT LID Standby Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Description Enable automatic packet-capture for Number of SMPP messages received from client but failed to forward to server

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_fail_start_server_conn

Description Enable automatic packet-capture for Number of server connection created failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_server_fail

Description Enable automatic packet-capture for Number of SMPP messages received from server but failed to forward to client

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

select_client_fail

Description Enable automatic packet-capture for Select failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

select_server_fail

Description Enable automatic packet-capture for Fail to select server conn

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-smpp_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

msg_proxy_client_fail

Description Enable automatic packet-capture for Number of SMPP messages received from client but failed to forward to server

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_fail_start_server_conn

Description Enable automatic packet-capture for Number of server connection created failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

msg_proxy_server_fail

Description Enable automatic packet-capture for Number of SMPP messages received from server but failed to forward to client

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

select_client_fail

Description Enable automatic packet-capture for Select failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

select_server_fail

Description Enable automatic packet-capture for Fail to select server conn

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-spdy-proxy

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_slb-spdy-proxy_trigger-stats-inc*

Specification	Value
Type	*object*

compress_ctx_alloc_fail

Description Enable automatic packet-capture for Compression context allocation fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ctx_alloc_fail

Description Enable automatic packet-capture for Context alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_cb_no_tuple

Description Enable automatic packet-capture for Data callback no tuple

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream

Description Enable automatic packet-capture for Data no stream found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream_goaway_close

Description Enable automatic packet-capture for Data no stream and no goaway and close session

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream_no_goaway

Description Enable automatic packet-capture for Data no stream and no goaway

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

decompress_fail

Description Enable automatic packet-capture for Decompress fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

est_cb_no_tuple

Description Enable automatic packet-capture for Est callback no tuple

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_compress_fail

Description Enable automatic packet-capture for Header compress fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_conn_alloc_fail

Description Enable automatic packet-capture for HTTP connection allocation fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_err_stream_closed

Description Enable automatic packet-capture for HTTP error stream already closed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_size

Description Enable automatic packet-capture for Invalid frame size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_version

Description Enable automatic packet-capture for Invalid version

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request_header_alloc_fail

Description Enable automatic packet-capture for Request/Header allocation fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

session_err

Description Enable automatic packet-capture for Session err

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stream_alloc_fail

Description Enable automatic packet-capture for Stream alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stream_err

Description Enable automatic packet-capture for Stream err

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

stream_not_found

Description Enable automatic packet-capture for STREAM not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp_err

Description Enable automatic packet-capture for TCP sock error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type	*object*

bad-ip-chksum-drop

Description Enable automatic packet-capture for Total Bad IP csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-flags-drop

Description Enable automatic packet-capture for Total Bad IP Flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-frag-offset

Description Enable automatic packet-capture for Total Bad IP frag off Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-hdr-len

Description Enable automatic packet-capture for Total Bad IP hdr len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-payload-len

Description Enable automatic packet-capture for Total Bad IP PL len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad-ip-ttl-drop

Description Enable automatic packet-capture for Total Bad IP TTL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

empty-frag-drop

Description Enable automatic packet-capture for Total Empty frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fcs-drop

Description Enable automatic packet-capture for Total FCS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hrx-drop

Description Enable automatic packet-capture for Total HRX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

icmp-pod-drop

Description Enable automatic packet-capture for Total ICMP POD Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv4-frag

Description Enable automatic packet-capture for Total IP frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv4-opt-drop

Description Enable automatic packet-capture for Total IPv4 opt Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

land-drop

Description Enable automatic packet-capture for Total LAND Attack Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mic-frag-drop

Description Enable automatic packet-capture for Total Micro frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mrx-drop

Description Enable automatic packet-capture for Total MRX Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-ip-payload-drop

Description Enable automatic packet-capture for Total No IP Payload Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

oversize-ip-payload

Description Enable automatic packet-capture for Total Oversize IP PL Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt-ip-hdr

Description Enable automatic packet-capture for Total Runt IP hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

runt-tcpudp-hdr

Description Enable automatic packet-capture for Total Runt TCPUDP hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

siz-drop

Description Enable automatic packet-capture for Total Size Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-chksum

Description Enable automatic packet-capture for Total TCP bad csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-ip-len

Description Enable automatic packet-capture for Total TCP Bad IP Len Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-bad-urg-offet

Description Enable automatic packet-capture for Total TCP bad urg off Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-fin-sin

Description Enable automatic packet-capture for Total TCP SYN&FIN Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-frag-hdr

Description Enable automatic packet-capture for Total TCP frag header Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-null-flags

Description Enable automatic packet-capture for Total TCP null flags Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-null-scan

Description Enable automatic packet-capture for Total TCP null scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-short-hdr

Description Enable automatic packet-capture for Total TCP short hdr Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-syn-frag

Description Enable automatic packet-capture for Total TCP SYN frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-xmas-flags

Description Enable automatic packet-capture for Total TCP XMAS FLAGS Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tcp-xmas-scan

Description Enable automatic packet-capture for Total TCP XMAS scan Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tun-mismatch

Description Enable automatic packet-capture for Total Tun mismatch Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-bad-chksum

Description Enable automatic packet-capture for Total UDP bad csum Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-bad-ip-len

Description Enable automatic packet-capture for Total UDP bad leng Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-kb-frags

Description Enable automatic packet-capture for Total UDP KB frag Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

udp-port-lb

Description Enable automatic packet-capture for Total UDP port LB Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

Default: 0

misses

Description Enable automatic packet-capture for Total Authentication Request Missed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

open-socket-failed

Description Enable automatic packet-capture for Total AAM Open Socket Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-persist

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_slb-persist_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-persist/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_slb-persist_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-persist/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-persist_trigger-stats-inc

Specification	Value
Type	*object*

cookie_invalid

Description Enable automatic packet-capture for Invalid persist cookie

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie_not_found

Description Enable automatic packet-capture for Persist cookie not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie_persist_fail

Description Enable automatic packet-capture for Cookie persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cssl_sid_not_found

Description Enable automatic packet-capture for Client SSL SID not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cssl_sid_not_match

Description Enable automatic packet-capture for Client SSL SID not match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_fail

Description Enable automatic packet-capture for DST IP persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_hash_fail

Description Enable automatic packet-capture for DST IP hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_new_sess_cache_fail

Description Enable automatic packet-capture for DST IP new sess fail (c)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_new_sess_sel_fail

Description Enable automatic packet-capture for DST IP new sess fail (s)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_create_fail

Description Enable automatic packet-capture for Hash tbl create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_rst_adddel

Description Enable automatic packet-capture for Hash tbl reset (add/del)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_rst_updown

Description Enable automatic packet-capture for Hash tbl reset (up/down)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_trylock_fail

Description Enable automatic packet-capture for Hash tbl lock fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_hash_fail

Description Enable automatic packet-capture for Header hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_fail

Description Enable automatic packet-capture for SRC IP persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_hash_fail

Description Enable automatic packet-capture for SRC IP hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_new_sess_cache_fail

Description Enable automatic packet-capture for SRC IP new sess fail (c)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_new_sess_sel_fail

Description Enable automatic packet-capture for SRC IP new sess fail (s)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_sid_persist_fail

Description Enable automatic packet-capture for SSL SID persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_sid_session_fail

Description Enable automatic packet-capture for Create SSL SID fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sssl_sid_not_found

Description Enable automatic packet-capture for Server SSL SID not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sssl_sid_not_match

Description Enable automatic packet-capture for Server SSL SID not match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

url_hash_fail

Description Enable automatic packet-capture for URL hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-persist_trigger-stats-rate

Specification	Value
Type	*object*

cookie_invalid

Description Enable automatic packet-capture for Invalid persist cookie

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie_not_found

Description Enable automatic packet-capture for Persist cookie not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cookie_persist_fail

Description Enable automatic packet-capture for Cookie persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cssl_sid_not_found

Description Enable automatic packet-capture for Client SSL SID not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cssl_sid_not_match

Description Enable automatic packet-capture for Client SSL SID not match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_fail

Description Enable automatic packet-capture for DST IP persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_hash_fail

Description Enable automatic packet-capture for DST IP hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_new_sess_cache_fail

Description Enable automatic packet-capture for DST IP new sess fail (c)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dst_ip_new_sess_sel_fail

Description Enable automatic packet-capture for DST IP new sess fail (s)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

hash_tbl_create_fail

Description Enable automatic packet-capture for Hash tbl create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_rst_adddel

Description Enable automatic packet-capture for Hash tbl reset (add/del)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_rst_updown

Description Enable automatic packet-capture for Hash tbl reset (up/down)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hash_tbl_trylock_fail

Description Enable automatic packet-capture for Hash tbl lock fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_hash_fail

Description Enable automatic packet-capture for Header hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_fail

Description Enable automatic packet-capture for SRC IP persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_hash_fail

Description Enable automatic packet-capture for SRC IP hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_new_sess_cache_fail

Description Enable automatic packet-capture for SRC IP new sess fail (c)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

src_ip_new_sess_sel_fail

Description Enable automatic packet-capture for SRC IP new sess fail (s)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_sid_persist_fail

Description Enable automatic packet-capture for SSL SID persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_sid_session_fail

Description Enable automatic packet-capture for Create SSL SID fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sssl_sid_not_found

Description Enable automatic packet-capture for Server SSL SID not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sssl_sid_not_match

Description Enable automatic packet-capture for Server SSL SID not match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

url_hash_fail

Description Enable automatic packet-capture for URL hash persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-fixed-nat-alg-rtsp

Specification	Value

Specification	Value
Type	*object*

adc_port_allocation_failed

Description Enable automatic packet-capture for ADC Port Allocation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_sesn_user_quota_exceeded

Description Enable automatic packet-capture for Data Session User-Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_ext_mem_alloc_failure

Description Enable automatic packet-capture for LSN Fullcone Extension Memory Allocate Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_ext_mem_alloc_init_faulure

Description Enable automatic packet-capture for LSN Fullcone Extension Initialization Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_failure

Description Enable automatic packet-capture for Full-cone Session Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_self_hairpinning_drop

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_alloc_single_port_failure

Description Enable automatic packet-capture for H323 ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_batch_type_mismatch

Description Enable automatic packet-capture for HA NAT Pool Batch Type Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_unusable

Description Enable automatic packet-capture for HA NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_port_pair_alloc_from_quota_par

Description Enable automatic packet-capture for MGCP ALG Port Pair Allocated From Quota Partition Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_pool_unusable

Description Enable automatic packet-capture for NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_inc_overflow

Description Enable automatic packet-capture for Port Overloading Inc Overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_out_of_memory

Description Enable automatic packet-capture for Port Overloading Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_rtp_rtcp_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc RTP/RTCP NAT Ports Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_single_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_quota_inc_failure

Description Enable automatic packet-capture for SIP ALG User-Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_failure

Description Enable automatic packet-capture for User-Quota Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable

Description Enable automatic packet-capture for User-Quota Marked Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable_drop

Description Enable automatic packet-capture for User-Quota Unusable Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn_trigger-stats-rate

Specification	Value
Type	*object*

adc_port_allocation_failed

Description Enable automatic packet-capture for ADC Port Allocation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_sesn_user_quota_exceeded

Description Enable automatic packet-capture for Data Session User-Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

fullcone_ext_mem_alloc_failure

Description Enable automatic packet-capture for LSN Fullcone Extension Memory Allocate Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_ext_mem_alloc_init_faulure

Description Enable automatic packet-capture for LSN Fullcone Extension Initialization Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_failure

Description Enable automatic packet-capture for Full-cone Session Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

fullcone_self_hairpinning_drop

Description Enable automatic packet-capture for Self-Hairpinning Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_alloc_single_port_failure

Description Enable automatic packet-capture for H323 ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

h323_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for H323 ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_batch_type_mismatch

Description Enable automatic packet-capture for HA NAT Pool Batch Type Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ha_nat_pool_unusable

Description Enable automatic packet-capture for HA NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for MGCP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mgcp_alg_port_pair_alloc_from_quota_par

Description Enable automatic packet-capture for MGCP ALG Port Pair Allocated From Quota Partition Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_pool_unusable

Description Enable automatic packet-capture for NAT Pool Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_inc_overflow

Description Enable automatic packet-capture for Port Overloading Inc Overflow

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

port_overloading_out_of_memory

Description Enable automatic packet-capture for Port Overloading Out of Memory

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_rtp_rtcp_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc RTP/RTCP NAT Ports Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_alloc_single_port_failure

Description Enable automatic packet-capture for SIP ALG Alloc Single RTP or RTCP NAT Port Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtcp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_rtp_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create RTP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_create_single_fullcone_failure

Description Enable automatic packet-capture for SIP ALG Create Single RTP or RTCP Full-cone Session Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

sip_alg_quota_inc_failure

Description Enable automatic packet-capture for SIP ALG User-Quota Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

user_quota_failure

Description Enable automatic packet-capture for User-Quota Creation Failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable

Description Enable automatic packet-capture for User-Quota Marked Unusable

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

user_quota_unusable_drop

Description Enable automatic packet-capture for User-Quota Unusable Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-logging_trigger-stats-rate

Specification	Value
Type	*object*

conn-tcp-dropped

Description Enable automatic packet-capture for TCP Connection Lost

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

log-dropped

Description Enable automatic packet-capture for Log Packets Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type	*object*

bw_rate_limit_exceed

Description Enable automatic packet-capture for BW-Limit Exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

concurrent_conn_exceed

Description Enable automatic packet-capture for L3V Conn Limit Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

conn_rate_limit_drop

Description Enable automatic packet-capture for Conn rate limit drops

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

conn_rate_limit_reset

Description Enable automatic packet-capture for Conn rate limit resets

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connlimit_drop

Description Enable automatic packet-capture for Conn Limit drops

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dns_policy_drop

Description Enable automatic packet-capture for DNS Policy Drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_cps_exceed

Description Enable automatic packet-capture for L4 CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l7_cps_exceed

Description Enable automatic packet-capture for L7 CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

nat_cps_exceed

Description Enable automatic packet-capture for NAT CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_resourse_drop

Description Enable automatic packet-capture for No resource drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smart_nat_id_mismatch

Description Enable automatic packet-capture for Auto NAT id mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Source NAT failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_icmp_error_process

Description Enable automatic packet-capture for Source NAT ICMP Process

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_icmp_no_match

Description Enable automatic packet-capture for Source NAT ICMP No Match

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_no_fwd_route

Description Enable automatic packet-capture for Source NAT no fwd route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_no_rev_route

Description Enable automatic packet-capture for Source NAT no rev route

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_cps_exceed

Description Enable automatic packet-capture for SSL CPS exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ssl_tpt_exceed

Description Enable automatic packet-capture for SSL TPT exceed drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svr_syn_handshake_fail

Description Enable automatic packet-capture for L4 server handshake fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrselfail

Description Enable automatic packet-capture for Server sel failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

synattack

Description Enable automatic packet-capture for L4 SYN attack

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syncookiescheckfailed

Description Enable automatic packet-capture for TCP SYN cookie failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syncookiessentfailed

Description Enable automatic packet-capture for TCP SYN cookie snt fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Specification	Value
Type	*object*

client_fail

Description Enable automatic packet-capture for Number of client failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

client_select_fail

Description Enable automatic packet-capture for Fail to select client

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

dcmsg_error

Description Enable automatic packet-capture for Diameter cross cpu error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_avp

Description Enable automatic packet-capture for AVP value contains illegal chars

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mismatch_fwd_id

Description Enable automatic packet-capture for Diameter mismatch fwd session id

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

mismatch_rev_id

Description Enable automatic packet-capture for Diameter mismatch rev session id

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_fwd_tuple

Description Enable automatic packet-capture for Diameter no fwd tuple matched

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_rev_tuple

Description Enable automatic packet-capture for Diameter no rev tuple matched

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for Number of no routes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_session_id

Description Enable automatic packet-capture for Diameter no session id avp

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_error_info_fail

Description Enable automatic packet-capture for Fail to reply error info to peer

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_unknown_session_id

Description Enable automatic packet-capture for Reply with unknown session ID error info

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

retry_client_request_fail

Description Enable automatic packet-capture for Diameter retry client request fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_fail

Description Enable automatic packet-capture for Number of server failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Number of snat failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Number of server selection failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unkwn_cmd_code

Description Enable automatic packet-capture for Diameter unkown cmd code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Default: 0

no_rev_tuple

Description Enable automatic packet-capture for Diameter no rev tuple matched

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for Number of no routes

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_session_id

Description Enable automatic packet-capture for Diameter no session id avp

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_error_info_fail

Description Enable automatic packet-capture for Fail to reply error info to peer

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

reply_unknown_session_id

Description Enable automatic packet-capture for Reply with unknown session ID error info

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

retry_client_request_fail

Description Enable automatic packet-capture for Diameter retry client request fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_fail

Description Enable automatic packet-capture for Number of server failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for Number of snat failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Number of server selection failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

unkwn_cmd_code

Description Enable automatic packet-capture for Diameter unkown cmd code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-lsn-alg-pptp/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp_trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp_trigger-stats-inc

Specification	Value
Type	*object*

call-reply-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Reply

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

call-req-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no-gre-session-match

Description Enable automatic packet-capture for No Matching GRE Session

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-alg-pptp_trigger-stats-rate

Specification	Value
Type	*object*

call-reply-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Reply

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

call-req-pns-call-id-mismatch

Description Enable automatic packet-capture for Call ID Mismatch on Call Request

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

no-gre-session-match

Description Enable automatic packet-capture for No Matching GRE Session

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-hw-compress_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

failure_code

Description Enable automatic packet-capture for Last failure code

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

failure_count

Description Enable automatic packet-capture for Total failure count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

max_outstanding_request_count

Description Enable automatic packet-capture for Max queued request count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

max_outstanding_submit_count

Description Enable automatic packet-capture for Max queued submit count

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ring_full_count

Description Enable automatic packet-capture for Compression queue full

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-radius

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-radius_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/cgnv6-lsn-radius/trigger-stats-inc*

trigger-stats-rate

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_cgnv6-lsn-radius_trigger-stats-inc

Specification	Value
Type	*object*

ha-standby-dropped

Description Enable automatic packet-capture for HA Standby Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-key

Description Enable automatic packet-capture for Radius Request has Invalid Key Field

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-request-dropped

Description Enable automatic packet-capture for RADIUS Request Dropped (Malformed Packet)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-table-full

Description Enable automatic packet-capture for RADIUS Request Dropped (Table Full)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-bad-secret-dropped

Description Enable automatic packet-capture for RADIUS Request Bad Secret Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-ignored

Description Enable automatic packet-capture for RADIUS Request Ignored

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-malformed-dropped

Description Enable automatic packet-capture for RADIUS Request Malformed Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-no-key-vap-dropped

Description Enable automatic packet-capture for RADIUS Request No Key Attribute Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

secret-not-configured-dropped

Description Enable automatic packet-capture for RADIUS Secret Not Configured Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

Specification	Value
Type	*object*

err-pkt-drop

Description Enable automatic packet-capture for Total error packet drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

io-ring-drop

Description Enable automatic packet-capture for Total IO core ring drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

io-rx-que-drop

Description Enable automatic packet-capture for Total IO core Rx queue drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

io-tx-que-drop

Description Enable automatic packet-capture for Total IO core TX queue drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-drop

Description Enable automatic packet-capture for Total packet drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

pkt-lnk-down-drop

Description Enable automatic packet-capture for Total packets link down drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-align-err

Description Enable automatic packet-capture for Total RX packet align error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-crc-err

Description Enable automatic packet-capture for Total RX packet CRC error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-csum-offload-err

Description Enable automatic packet-capture for Total Rx packet check-sum offload error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-err

Description Enable automatic packet-capture for Total RX packet error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-frame-err

Description Enable automatic packet-capture for Total RX packet frame error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-len-err

Description Enable automatic packet-capture for Total RX packet length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-long-len-err

Description Enable automatic packet-capture for Total RX packet long length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-miss-err

Description Enable automatic packet-capture for Total RX packet miss error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-no-buff-err

Description Enable automatic packet-capture for Total RX packet no buffer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-over-err

Description Enable automatic packet-capture for Total RX packet over error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-short-len-err

Description Enable automatic packet-capture for Total RX packet short length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-abort-err

Description Enable automatic packet-capture for Total TX packet abort error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-carrier-err

Description Enable automatic packet-capture for Total TX packert carrier error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-drop

Description Enable automatic packet-capture for Total TX packet drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-err

Description Enable automatic packet-capture for Total TX packet error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-fifo-err

Description Enable automatic packet-capture for Total TX packet fifo error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-hbeat-err

Description Enable automatic packet-capture for Total TX packet HBEAT error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

tx-windows-err

Description Enable automatic packet-capture for Total TX windows error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

w-link-down-drop

Description Enable automatic packet-capture for Total worker core link down drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

w-ring-drop

Description Enable automatic packet-capture for Total worker core ring drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

w-tx-que-drop

Description Enable automatic packet-capture for Total worker core queue drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_system-dpdk-stats_trigger-stats-rate

Specification	Value
Type	*object*

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

err-pkt-drop

Description Enable automatic packet-capture for Total error packet drop

Supported Values: true, false, 1, 0

Default: 0

rx-align-err

Description Enable automatic packet-capture for Total RX packet align error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-crc-err

Description Enable automatic packet-capture for Total RX packet CRC error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-csum-offload-err

Description Enable automatic packet-capture for Total Rx packet check-sum offload error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-err

Description Enable automatic packet-capture for Total RX packet error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-frame-err

Description Enable automatic packet-capture for Total RX packet frame error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-len-err

Description Enable automatic packet-capture for Total RX packet length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-long-len-err

Description Enable automatic packet-capture for Total RX packet long length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-miss-err

Description Enable automatic packet-capture for Total RX packet miss error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-no-buff-err

Description Enable automatic packet-capture for Total RX packet no buffer error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-over-err

Description Enable automatic packet-capture for Total RX packet over error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rx-short-len-err

Description Enable automatic packet-capture for Total RX packet short length error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

tx-abort-err

Description Enable automatic packet-capture for Total TX packet abort error

ip_node_alloc_failure

Description Enable automatic packet-capture for Node alloc failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ip_other_block_alloc_failure

Description Enable automatic packet-capture for Other block alloc failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ip_port_block_alloc_failure

Description Enable automatic packet-capture for Port block alloc failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_add_to_bgp_failure

Description Enable automatic packet-capture for L3 Entry BGP add failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_add_to_hw_failure

Description Enable automatic packet-capture for L3 entry HW add failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_drop_max_hw_exceeded

Description Enable automatic packet-capture for L3 Entry Drop due to HW Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_match_drop

Description Enable automatic packet-capture for L3 Entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_match_drop_hw

Description Enable automatic packet-capture for L3 HW entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l3_entry_remove_from_bgp_failure

Description Enable automatic packet-capture for L3 entry BGP remove failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_drop_max_hw_exceeded

Description Enable automatic packet-capture for L4 Entry Drop due to HW Limit Exceeded

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_list_alloc_failure

Description Enable automatic packet-capture for L4 Entry list alloc failures

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_match_drop

Description Enable automatic packet-capture for L4 Entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

l4_entry_match_drop_hw

Description Enable automatic packet-capture for L4 HW Entry match drop

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

syn_cookie_verification_failed

Description Enable automatic packet-capture for SYN cookie verification failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

conn_not_exist

Description Enable automatic packet-capture for Conn does not exist

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_cb_failed

Description Enable automatic packet-capture for Data event callback fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_cb_failed

Description Enable automatic packet-capture for Err event callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_event

Description Enable automatic packet-capture for Err event from TCP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hps_fwdreq_fail

Description Enable automatic packet-capture for Fwd req fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_conn_failed

Description Enable automatic packet-capture for Server connection failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_select_fail

Description Enable automatic packet-capture for Server selection fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

wbuf_cb_failed

Description Enable automatic packet-capture for Wbuf event callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_slb-l7session_trigger-stats-rate

Specification	Value
Type	*object*

conn_not_exist

Description Enable automatic packet-capture for Conn does not exist

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_cb_failed

Description Enable automatic packet-capture for Data event callback fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

err_cb_failed

Description Enable automatic packet-capture for Err event callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_event

Description Enable automatic packet-capture for Err event from TCP

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

hps_fwdreq_fail

Description Enable automatic packet-capture for Fwd req fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_conn_failed

Description Enable automatic packet-capture for Server connection failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_select_fail

Description Enable automatic packet-capture for Server selection fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

wbuf_cb_failed

Description Enable automatic packet-capture for Wbuf event callback failed

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-cert-revoke

Specification	Value
Type	*object*

trigger-stats-inc

Description: trigger-stats-inc is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-cert-revoke_trigger-stats-inc*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-ssl-cert-revoke/trigger-stats-inc*

trigger-stats-rate

Description: trigger-stats-rate is a **JSON Block**. Please see below for *global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-cert-revoke_trigger-stats-rate*

Type: Object

Reference Object: */axapi/v3/visibility/packet-capture/global-templates/template/{name}/trigger-sys-obj-stats-change/slb-ssl-cert-revoke/trigger-stats-rate*

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-cert-revoke_trigger-stats-inc

Specification	Value
Type	*object*

crl_cache_status_revoked

Description Enable automatic packet-capture for CRL cache status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_connection_error

Description Enable automatic packet-capture for CRL connection errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_other_error

Description Enable automatic packet-capture for CRL other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_response_status_revoked

Description Enable automatic packet-capture for CRL response status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_response_status_unknown

Description Enable automatic packet-capture for CRL response status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_https

Description Enable automatic packet-capture for CRL URI https

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_not_found

Description Enable automatic packet-capture for CRL URI not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_unsupported

Description Enable automatic packet-capture for CRL URI unsupported

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_cache_miss

Description Enable automatic packet-capture for OCSP cache miss

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_cache_status_revoked

Description Enable automatic packet-capture for OCSP cache status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_chain_status_revoked

Description Enable automatic packet-capture for Certificate chain status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_chain_status_unknown

Description Enable automatic packet-capture for Certificate chain status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_connection_error

Description Enable automatic packet-capture for OCSP connection error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_other_error

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_no_nonce

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_nonce_error

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_status_revoked

Description Enable automatic packet-capture for OCSP response status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_status_unknown

Description Enable automatic packet-capture for OCSP response status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_uri_https

Description Enable automatic packet-capture for Log OCSP URI https

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_uri_not_found

Description Enable automatic packet-capture for OCSP URI not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_uri_unsupported

Description Enable automatic packet-capture for OCSP URI unsupported

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_slb-ssl-cert-revoke_trigger-stats-rate

crl_connection_error

Description Enable automatic packet-capture for CRL connection errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_other_error

Description Enable automatic packet-capture for CRL other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_response_status_revoked

Description Enable automatic packet-capture for CRL response status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_response_status_unknown

Description Enable automatic packet-capture for CRL response status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_https

Description Enable automatic packet-capture for CRL URI https

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_not_found

Description Enable automatic packet-capture for CRL URI not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

crl_uri_unsupported

Description Enable automatic packet-capture for CRL URI unsupported

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

duration

Description Time in seconds to look for the anomaly, default is 60

Type: number

Range: 1-250

Default: 60

ocsp_cache_miss

Description Enable automatic packet-capture for OCSP cache miss

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_cache_status_revoked

Description Enable automatic packet-capture for OCSP cache status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_chain_status_revoked

Description Enable automatic packet-capture for Certificate chain status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_chain_status_unknown

Description Enable automatic packet-capture for Certificate chain status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_connection_error

Description Enable automatic packet-capture for OCSP connection error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_other_error

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_no_nonce

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_nonce_error

Description Enable automatic packet-capture for Log OCSP other errors

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_status_revoked

Description Enable automatic packet-capture for OCSP response status revoked

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_response_status_unknown

Description Enable automatic packet-capture for OCSP response status unknown

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_uri_https

Description Enable automatic packet-capture for Log OCSP URI https

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_uri_not_found

Description Enable automatic packet-capture for OCSP URI not found

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ocsp_uri_unsupported

Description Enable automatic packet-capture for OCSP URI unsupported

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

threshold-exceeded-by

Description Set the threshold to the number of times greater than the previous duration to start the capture, default is 5

Type: number

Range: 0-100

Default: 5

uuid

Description uuid of the object

Type: string

Maximum Length: 64 characters

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_system-radius-server

Specification	Value
Type	*object*

Maximum Length: 1 characters

global-templates_template-list_trigger-sys-obj-stats-change_system-radius-server_trigger-stats-inc

Specification	Value
Type	*object*

ha-standby-dropped

Description Enable automatic packet-capture for HA Standby Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid-key

Description Enable automatic packet-capture for Radius Request has Invalid Key Field

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ipv6-prefix-length-mismatch

Description Enable automatic packet-capture for Framed IPV6 Prefix Length Mismatch

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-request-dropped

Description Enable automatic packet-capture for RADIUS Request Dropped (Malformed Packet)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

radius-table-full

Description Enable automatic packet-capture for RADIUS Request Dropped (Table Full)

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-bad-secret-dropped

Description Enable automatic packet-capture for RADIUS Request Bad Secret Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-malformed-dropped

Description Enable automatic packet-capture for RADIUS Request Malformed Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

request-no-key-vap-dropped

Description Enable automatic packet-capture for RADIUS Request No Key Attribute Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

secret-not-configured-dropped

Description Enable automatic packet-capture for RADIUS Secret Not Configured Dropped

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

uuid

Description uuid of the object

auth_fail

Description Enable automatic packet-capture for Auth Failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

bad_sequence

Description Enable automatic packet-capture for Bad Sequence

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_eprt

Description Enable automatic packet-capture for cant find eprt

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_find_port

Description Enable automatic packet-capture for cant find port

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_est_err

Description Enable automatic packet-capture for Client EST state erro

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cl_request_err

Description Enable automatic packet-capture for Client RQ state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_conn_start_err

Description Enable automatic packet-capture for Data Start state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_send_fail

Description Enable automatic packet-capture for data send fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_serv_connected_err

Description Enable automatic packet-capture for Data Serv CTED error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_serv_connecting_err

Description Enable automatic packet-capture for Data Serv CTNG error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_server_conn_fail

Description Enable automatic packet-capture for data svr conn fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ds_fail

Description Enable automatic packet-capture for Host Domain Name isn't resolved

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

insert_tuple_fail

Description Enable automatic packet-capture for Serv Sel insert tuple fail

Type: boolean

Supported Values: true, false, 1, 0

line_too_long

Description Enable automatic packet-capture for line too long

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

no_route

Description Enable automatic packet-capture for no route failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

rsv_persist_conn_fail

Description Enable automatic packet-capture for Serv Sel Persist fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

ser_connecting_err

Description Enable automatic packet-capture for Serv CTNG state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

server_response_err

Description Enable automatic packet-capture for Serv RESP state error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_create_fail

Description Enable automatic packet-capture for smp create fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v4_fail

Description Enable automatic packet-capture for Serv Sel SMPv4 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

smp_v6_fail

Description Enable automatic packet-capture for Serv Sel SMPv6 fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

snat_fail

Description Enable automatic packet-capture for source nat failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

svrsel_fail

Description Enable automatic packet-capture for Server selection failure

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_command

Description Enable automatic packet-capture for Unsupported cmd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_pbsz_value

Description Enable automatic packet-capture for Unsupported PBSZ

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

unsupported_prot_value

Description Enable automatic packet-capture for Unsupported PROT

Type: boolean

Default: 0

cant_allocate_settings_frame

Description Enable automatic packet-capture for Cant allocate SETTINGS frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_stream

Description Enable automatic packet-capture for Cant allocate stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

cant_allocate_window_frame

Description Enable automatic packet-capture for Cant allocate WINDOW_UPDATE frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

closed_state_unexpected_frame

Description Enable automatic packet-capture for Unexpected frame received in closed state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

compression_error

Description Enable automatic packet-capture for compression error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

connect_error

Description Enable automatic packet-capture for connect error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

continuation_before_headers

Description Enable automatic packet-capture for CONTINUATION frame with no headers frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_no_stream

Description Enable automatic packet-capture for DATA Frame Rcvd on non-existent stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

data_queue_alloc_error

Description Enable automatic packet-capture for Data Queue Alloc Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

deflate_alloc_fail

Description Enable automatic packet-capture for deflate alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

enhance_your_calm

Description Enable automatic packet-capture for enhance your calm error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_rcvd_total

Description Enable automatic packet-capture for Error Rcvd - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_cancel

Description Enable automatic packet-capture for Error Sent - CANCEL

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_compression_err

Description Enable automatic packet-capture for Error Sent - COMPRESSION_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_connect_err

Description Enable automatic packet-capture for Error Sent - CONNECT_ERROR

Type: boolean

err_sent_frame_size_err

Description Enable automatic packet-capture for Error Sent - FRAME_SIZE_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_http11_required

Description Enable automatic packet-capture for Error Sent - HTTP_1_1_REQUIRED

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_inadequate_security

Description Enable automatic packet-capture for Error Sent - INADEQUATE_SECURITY

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_internal_err

Description Enable automatic packet-capture for Error Sent - INTERNAL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_proto_err

Description Enable automatic packet-capture for Error Sent - PROTOCOL_ERROR

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_refused_stream

Description Enable automatic packet-capture for Error Sent - REFUSED_STREAM

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_setting_timeout

Description Enable automatic packet-capture for Error Sent - SETTINGS_TIMEOUT

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_stream_closed

Description Enable automatic packet-capture for Error Sent - STREAM_CLOSED

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_total

Description Enable automatic packet-capture for Error Rent - Total

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

err_sent_your_calm

Description Enable automatic packet-capture for Error Sent - ENHANCE_YOUR_CALM

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

error_max_invalid_stream

Description Enable automatic packet-capture for Max Invalid Stream Rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

exceeds_max_window_size_stream

Description Enable automatic packet-capture for Window Update with increment that results in exceeding max window

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

flow_control_error

Description Enable automatic packet-capture for Flow Control Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

frame_size_error

Description Enable automatic packet-capture for Frame Size Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

half_closed_remote_state_unexpected_fra

Description Enable automatic packet-capture for Unexpected frame received in half closed remote state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_no_stream

Description Enable automatic packet-capture for header no stream

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

header_padlen_gt_frame_payload

Description Enable automatic packet-capture for Header padlen greater than frame payload size

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

headers_after_continuation

Description Enable automatic packet-capture for headers frame before CONTINUATION was complete

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

headers_interleaved

Description Enable automatic packet-capture for headers interleaved on streams

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

http_1_1_required

Description Enable automatic packet-capture for HTTP1.1 Required

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

idle_state_unexpected_frame

Description Enable automatic packet-capture for Unxpected frame received in idle state

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inadequate_security

Description Enable automatic packet-capture for inadequate security

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inflate_alloc_fail

Description Enable automatic packet-capture for inflate alloc fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

inflate_header_fail

Description Enable automatic packet-capture for Inflate Header Fail

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

internal_error

Description Enable automatic packet-capture for Internal Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_during_headers

Description Enable automatic packet-capture for frame before headers were complete

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_frame_size

Description Enable automatic packet-capture for Invalid Frame Size Rcvd

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_push_promise

Description Enable automatic packet-capture for unexpected PUSH_PROMISE frame

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_setting_value

Description Enable automatic packet-capture for invalid setting-frame value

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_stream_id

Description Enable automatic packet-capture for received invalid stream ID

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

invalid_window_update

Description Enable automatic packet-capture for window-update value out of range

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

protocol_error

Description Enable automatic packet-capture for Protocol Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

proxy_alloc_error

Description Enable automatic packet-capture for HTTP2 Proxy alloc Error

Type: boolean

Supported Values: true, false, 1, 0

Default: 0

refused_stream
